

Encounter (History) Screen

Updated on July 2018

[Home](#) > [Client Management](#) > [Encounter](#) > [Encounter History](#)

Business Purpose:

The **Client Management – Encounter** (History) page displays a tabular listing of the history of a particular Encounter.

How to:

1. An individual Encounter History screen containing the following fields:
 - Status
 - Type
 - Date
 - Client Present?
 - Notes

The screenshot shows the SMIS interface for Client Management - Encounter. The top navigation bar includes links for Home, My Tasks, Reports, Administration, Help, and Logout. The user is identified as Linda Hollands. The main content area displays client information for Client No. 376577, Name Test, Cedrick, DOB 1977/07/18, and Age 40. Below this is a 'History' table with the following data:

Status	Type	Date	Client Present	Notes
Awaiting EMS	Follow-Up Assessment	2018/01/08 11:21 AM	Yes	follow-up ems
Follow-Up	Initial Assessment	2017/12/21 03:37 PM	Yes	

2. To go back to the Encounter page, click the  button.
