Road Reconstruction of Walker Road from Cameron Avenue to East End

Expected Start Date: Summer 2018

Expected End Date: Winter 2018

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to reconstruct Walker Road from Cameron Avenue to the east end. Our inspection of this road shows that it requires reconstruction. The new width of the road will be 6.6m. New ditches will be installed on both sides of the road to ensure proper drainage. This project does not include new sidewalks.

This work is part of the Council-approved 2018 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes is expected. This work includes removing and replacing driveways and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Project Manager listed below.

	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc) must contact the Project Manager to arrange for access during the construction period.</p>
