OUR CURRENT SITUATION

Following two years of extensive work, Toronto's new Long Term Waste Management Strategy was approved by City Council on July 15, 2016. This comprehensive strategy will guide waste management in Toronto for the next 30-50 years.

Projected Green Lane Landfill lifespan:

- Given the latest estimates, along with the commitment to minimize the amount of garbage sent for landfill disposal, it is now anticipated Green Lane's lifespan will extend to approximately **2040**
- In 2017, Toronto sent **438,511** tonnes of municipal waste to the Green Lane Landfill

WASTE DIVERSION STATISTICS

- In 2017, Solid Waste managed approximately **942,941** tonnes of material generated within the City of Toronto:
 - **502,559** tonnes of garbage
 - **202,688** tonnes of Blue Bin recyclables
 - **158,628** tonnes of Green Bin organics
 - **74,223** tonnes of yard waste
- Combined overall residential waste diversion rate of **53%** in 2017:
 - **66%** single family residential homes
 - **28%** multi-residential units
