Channel Restoration along West Highland Creek at Scarborough Golf and Country Club

Expected Start Date: February 2019

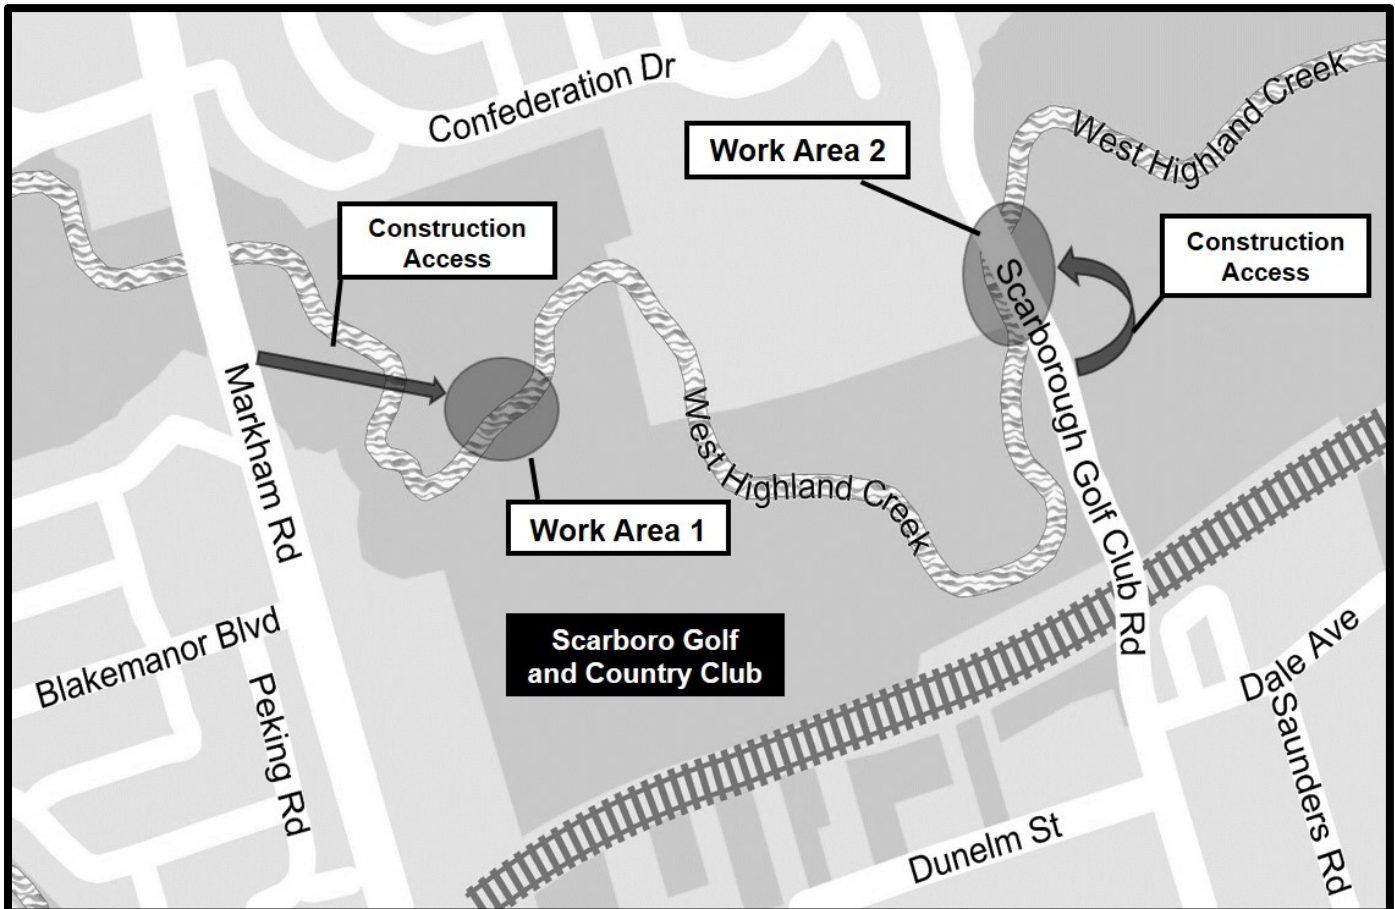

Expected End Date: March 2019

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to install and repair erosion protection measures along West Highland Creek at two locations between Markham Road and Scarborough Golf Course Road (see map).

This project is part of the Council-approved 2019 Capital Works Program that will address existing erosion conditions and improve water quality in West Highland Creek.

MAP OF WORK AREA

WORK DETAILS

The City's contractor will:

- Access Work Area 1 from Markham Road and Work Area 2 from Scarborough Golf Course Road via the identified access routes on the Scarboro Golf and Country Club property. .
- Work within the creek to remove failing infrastructure and construct new erosion protection to improve stability and water quality in West Highland Creek.

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews may mark underground utilities near the access routes and work areas, such as gas, water and cable to ensure they are not affected by the proposed work.

	<p>Tree Protection: Due to the nature of this project, the City will have to remove trees from private property in the ravine. Affected property owners will receive a separate notice. A private property tree removal permit will be obtained in coordination with the City's Parks, Recreation & Forestry Division. Trees removed for the project will be replaced using a replacement ratio of three trees planted for every one tree removed.</p>
