Please note that once you submit your application package, your list of proposed location will be reviewed by the area Transportation Standards Officer (TSO) in the field to determine licence feasibility. Any proposed locations that do not comply with the requirements of City of Toronto Municipal Code Chapter 743 will be deemed not feasible for licencing and the TSOs are not required to look for alternate sites within the vicinity. In addition, there will be no refund of your application fees for non-feasible locations.

Therefore, it's in your best interest to understand the placement criteria contained within the bylaw that will be used by the TSOs prior to submitting an application.
