Watermain Cleaning and Relining on Lesmill Road and Duncan Mill Road

Expected Start Date: Spring 2019

Expected End Date: Fall 2019

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto will be cleaning and structurally relining the watermain in your area in spring 2019. This work had been scheduled for spring 2018 and was deferred due to scheduling issues and will now be proceeding this spring.

A map of the work area can be found on page 2 of this notice.

This project is part of the Council-approved Capital Works Program to renew Toronto's aging infrastructure, improve water distribution and reduce the risk of watermain breaks.

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately 2-3 weeks before work begins with more information about the work, including exact details regarding the project's start and end dates.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing a portion of driveways, municipal sidewalks and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts.

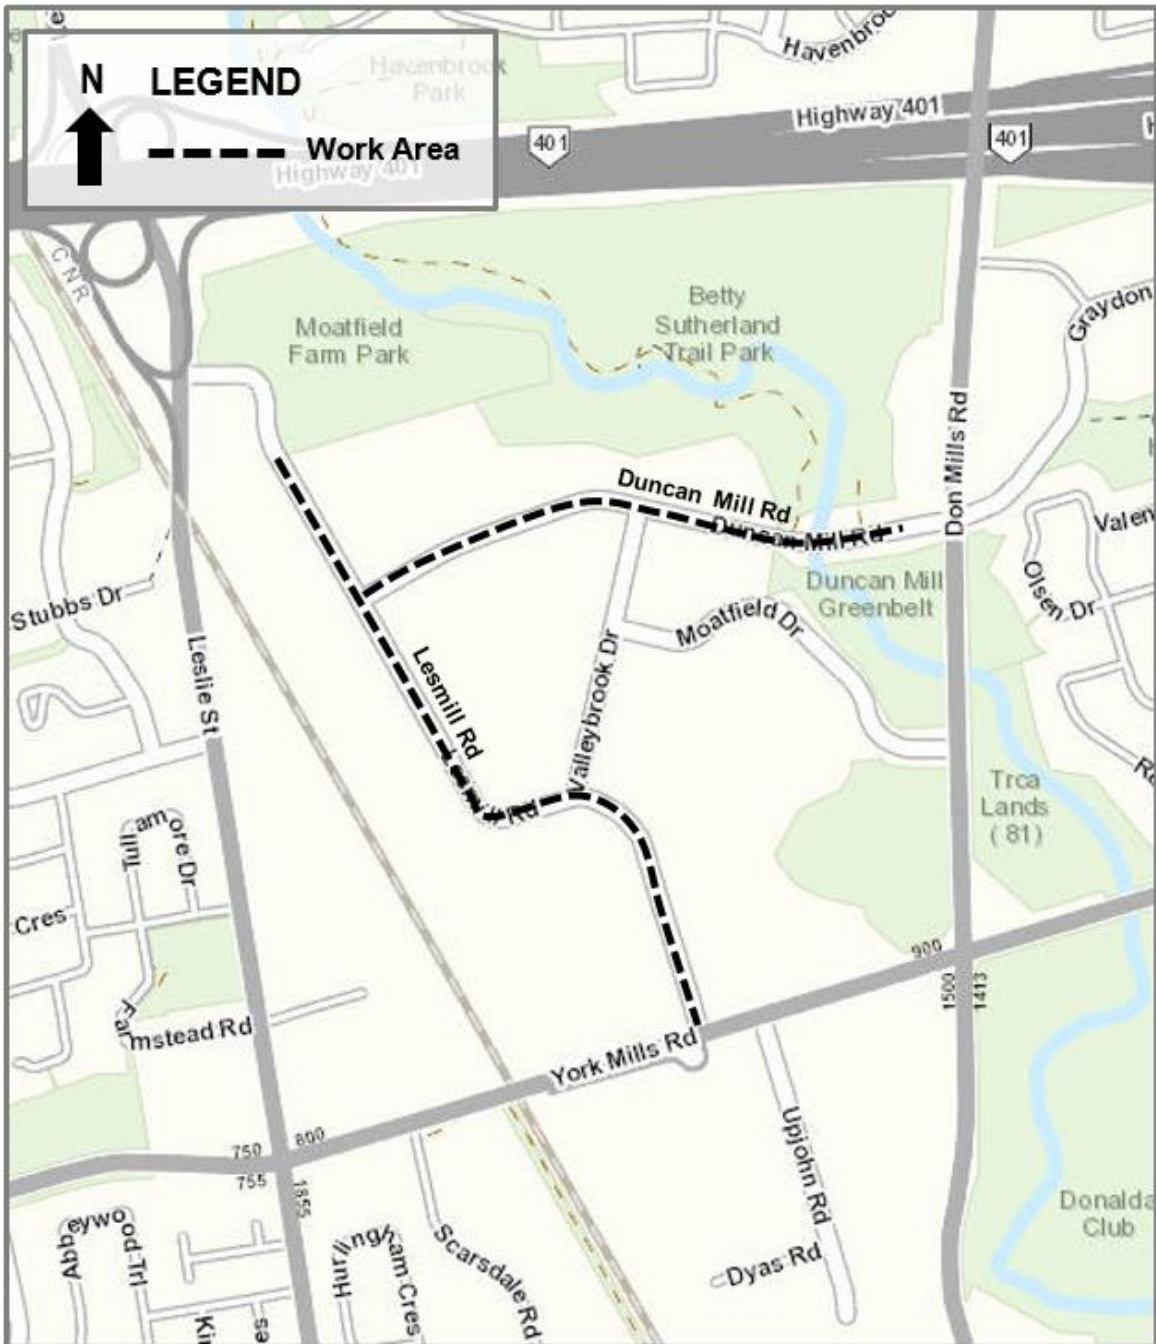

Accessible Accommodation: Should you require accommodation (level entry, longer notice, etc.) please contact the Field Ambassador to discuss how the City can help meet your needs during construction.

NEED MORE INFORMATION?

If you have questions about the upcoming work, please contact us.

MAP OF WORK AREA

Thank you for your patience. Building a great city takes time. Better infrastructure for all of us is worth the wait.
