Road Resurfacing on Dundas Street West from McMurray Avenue to Annette Street and Reconstruction of McMurray Avenue

Expected Start Date: July 2019

Expected End Date: August 2019

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to resurface Dundas Street West from McMurray Avenue to Annette Street. The City will also reconstruct the road, and replace the City-owned portion of substandard water services on McMurray Avenue

Our inspection of the roads show that Dundas Street West is in need of road resurfacing including the replacement of sections of damaged curb and sidewalk, and McMurray Avenue is in need of reconstruction. This work is required to bring both roads to a state of good repair and is part of the Council-approved 2019 Capital Works Program to renew aging city roads, sidewalk, and infrastructure for current and future needs.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.
- Property owners should remove items located within City property limits (boulevard), such as landscaping and or decorative objects before work starts. If you have a sprinkler system within the boulevard, please contact the Project Manager listed below.

	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc.) must contact the Project Manager to arrange for access during the construction period.</p>
