THE GRAPHIC PANEL ABOVE SHOWS CONCEPT A FOR SUMACH-SHUTER PARKETTE. THIS CONCEPT EMPLOYS AN URBAN DESIGN STYLE OF LANDSCAPE ARCHITECTURE WITH A HEAVY FOCUS ON GEOMETRY AND SHARP ANGULAR LINES. HIGHLIGHTS OF THE CONCEPT INCLUDE A NEW PLAYGROUND WITH RUBBER TILE PLAY SURFACE, A NEW SPLASH PAD TO REPLACE THE EXISTING WADING POOL, AND ADULT FITNESS AREA, PODIUM SEATING BLOCKS, A SMALL STAGE, AND AN OPEN GREEN ON THE EAST SIDE OF THE SITE. THE PLAYGROUND AND SPLASH PAD AREAS ARE FENCED IN. A SINGULAR DIAGONAL WALKWAY FACILITATES TRAFFIC FLOW DIRECTLY THROUGH THE SITE.
