## Storm culvert and road repair work near Humber River and John Garland Boulevard

Start Date: April 15, 2019  
Expected Completion Date: May 30, 2019

The City of Toronto is repairing part of the access road damaged as a result of erosion and replacing the storm culvert (corrugated steel drains) underneath the road located south of John Garland Park (65 John Garland Boulevard) near the Humber River.

The work is being completed in close consultation with the City's Parks, Forestry and Recreation division.

### WORK DETAILS

This work includes (please see map on reverse side for location):

- Repair and restoration of the road and ground surrounding the banks of the existing ditch to protect against further erosion.
- Replacement of the existing storm culvert that has become damaged as result of the erosion.
- Tree pruning in the area of the deteriorated road to facilitate the work.
- Heavy construction equipment and staff will be onsite while the work is underway.

### PARK ACCESS

- A temporary staging for the construction work will take place at north-east corner of Garland Park.
- A temporary access road will be constructed from John Garland Boulevard to the construction staging area.
- **A map of the work area can be found on page 2.**

### WHAT TO EXPECT DURING CONSTRUCTION

	<p><b>Work Hours:</b> Construction will occur Monday to Friday. Whenever possible all material deliveries will occur between 7:00 a.m. and 7:00 p.m. The work is expected to be completed by end of May 2019.</p>
	<p><b>Pedestrian Access:</b> To complete the work safely, access to the North-East entrance of Garland Park will be temporarily restricted. Temporary fencing and signs have been set up in and around the construction site.</p>
