

Immunization Coverage Rates in Toronto Schools

Ontario's Immunization of School Pupils Act requires that students be vaccinated or have a valid exemption. Overall, immunization rates in Toronto schools are high and keeps kids safe by preventing outbreaks in schools.

2017 to 2018 School Year

- overall coverage rate for diphtheria, tetanus, polio (DTP) vaccine is 87 per cent with 1.7 per cent for philosophical/religious exemptions
- overall coverage rate for measles, mumps, rubella (MMR) vaccine is 92 per cent with 1.7 per cent for philosophical/religious exemptions

Technical Notes

- The data were extracted from Panorama* on April 3, 2019 for Toronto students born between 2000 and 2010 (seven to 17 year-olds) by school, for the 2017/18 school year.
- Immunization coverage is expressed as a proportion of students who were complete for age for the particular vaccine antigens amongst all those enrolled in school for the 2017/18 school year.
- Percentages for the schools may not add up to 100 as the difference represents individuals that are not complete for age with their immunizations or have a medical or administrative exemption.
- Only schools in the four publically funded boards are included in this report. In addition, adult learning centres and schools with total enrollment less than or equal to 10 are excluded from this report.

*Panorama is the provincial information system used for tracking immunizations.

For media inquiries, please contact TPHmedia@toronto.ca

For questions regarding the data, please email us at immunization@toronto.ca

Search for Immunization Rate by School

The table below shows the immunization rates for 2017/2018 for the following vaccines:

- DTP (diphtheria, tetanus, polio) vaccine
- MMR (measles, mumps, rubella) vaccine

**Exemption rates in this table applies only to philosophical/religious exemptions
