

April 8, 2019

Road Resurfacing on Kingston Road from Morningside Avenue to Manse Road and Road Resurfacing on Morningside Avenue from Kingston Road to Lawrence Avenue East

Contract: 18ECS-TI-01MR

Expected Restart Date: April 23, 2019

Revised End Date: August 30, 2019

**Timeline is subject to change.*

The City of Toronto will resume road resurfacing on Kingston Road from Morningside Avenue to Manse Road and on Morningside Avenue from Lawrence Avenue East to Kingston Road (see map). Our inspection of the road shows that it needs repaving and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

The project will also include improvements at the intersection of Kingston Road and Morningside Avenue.

This work is part of the Council-approved 2018 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

WORK DETAILS

The City's contractor will:

- Dig up the road surface
- Re-align maintenance holes and catch basins
- Repair curbs, gutters and driveways
- Complete intersection work, do the electrical and signal modification work
- Repave the road surface

WHAT TO EXPECT DURING CONSTRUCTION

- You will experience dust, noise and other inconveniences. The City will make efforts to reduce impacts. Your patience is appreciated.
- The City will not be responsible for damage to any privately owned items on City property.

Work Hours: 7 a.m. to 11 p.m. Monday to Friday and 9 a.m. to 11 p.m. Saturday and work on Sunday as required and approved by the City.

	<p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work area.</p> <p>Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times. Access for emergency vehicles will be maintained at all times.</p> <p>Accommodation: Residents that require accommodation must contact the City Inspector to arrange for access during the construction period.</p>
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p>Traffic on Kingston Road will be reduced to one lane in each direction through the work zones.</p>
	<p>TTC Service: This project may affect travel times on the Bus # 86A, 86B on Kingston Road, #116A, 116C on Morningside Avenue and # 38A on Old Kingston Road and Lawson Road</p> <p>Visit ttc.ca for accurate schedule information.</p>
	<p>Parking: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. Please contact parking control for the location of your vehicle at 416-808-2222</p> <p>In the event you receive a traffic ticket for on-street parking during this period of construction, you may choose to dispute your ticket following the process listed on the reverse side of the parking infraction notice. <i>You may use this notice as part of your defence for parking consideration during construction; however, the Project Manager does not have the authority to cancel any parking tickets.</i></p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Project Manager listed below.</p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <i>Please ensure that you label your bins with your address.</i></p>

Restoration: The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).

MAP OF WORK AREA

Asbestos in Asphalt

As part of the work, the City must test the removed asphalt to be removed for asbestos. Our tests show that there is 0.5% or more of asbestos in the asphalt. This is below levels of concern to the Ministry of the Labour.

Asbestos was used in asphalt mixes throughout the 1970s and early 1980s to improve the performance of the asphalt. Air quality monitoring conducted by the City of Toronto at other sites has not detected asbestos fibres in the air as a result of resurfacing of asphalt. The risk of exposure to asbestos for workers and bystanders is low.

As a precaution, the City's contractor will follow these steps:

- Wet the pavement during asphalt cutting, grinding or removal
- Attach dust collecting devices with HEPA filters to equipment, where possible, to prevent dust from becoming airborne
- Provide personal protective equipment, such as disposable coveralls and respirators, to on-site workers upon request, and
- Transport and dispose of asphalt containing asbestos at provincially approved disposal sites.
