The City of Toronto and Toronto Transit Commission are renewing aging streetcar tracks, resurfacing the road and repairing sidewalks on McCaul Street, from College Street to Dundas Street West. This section of McCaul Street is part of a group of streets in the area used by many hospitals/medical services, schools, businesses and residents. As with many construction projects in Toronto, traffic and parking restrictions are necessary to complete this project in a safe and efficient manner.

To help manage traffic flow during construction, some streets will be temporarily converted from a one-way operation to a two-way operation. Flag persons will be made available to manage traffic at key areas during certain periods of the day. (See maps below).
