Bridge Rehabilitation over the Don Valley Parkway on the Don Mills Road, Spanbridge Road, Wynford Drive and Lawrence Avenue East bridges

Contract: 19ECS-TI-07BE

Start Date: July 2, 2019 End Date: October 2019

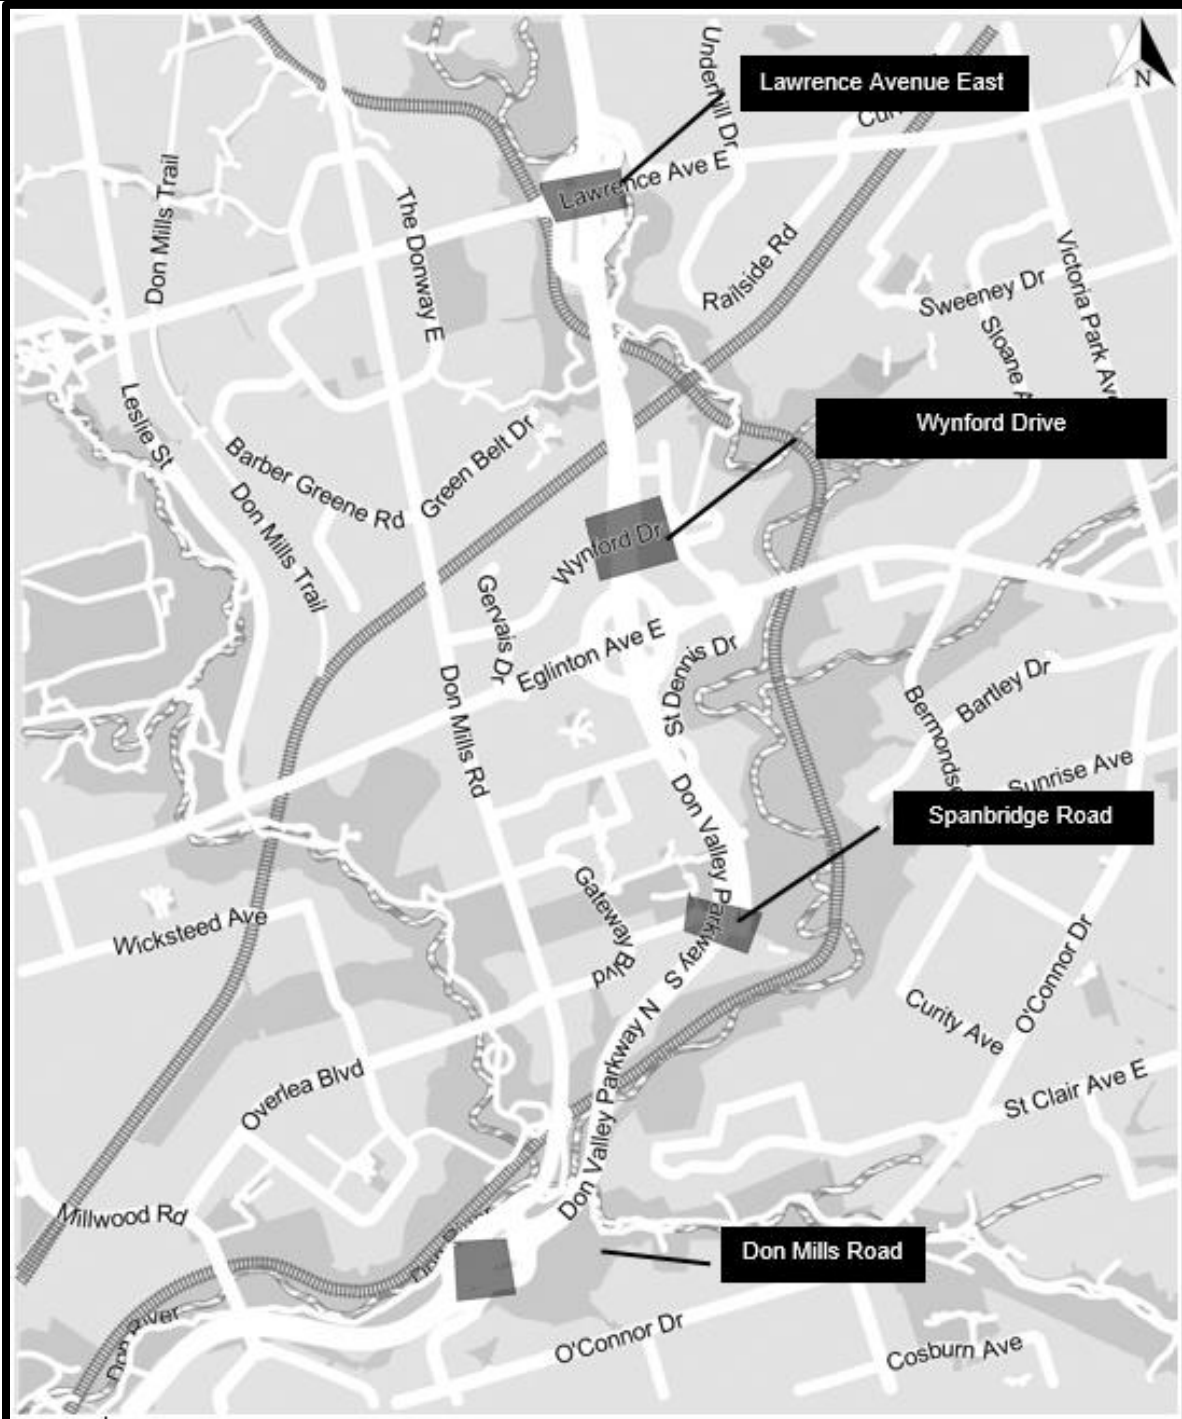

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto will rehabilitate the sub-structure (underneath the road) of the Don Mills Road Bridge over the Don Valley Parkway in the summer of 2019, and the super-structure (road level) of the bridge in 2020.

To make the most of the lane reductions, maximize efficiency and minimize costs and future traffic impacts on the DVP, the City is rehabilitating the substructure of three other bridges over the Don Valley Parkway at the same time at: Spanbridge Road, Wynford Drive, and Lawrence Avenue East. **Please note: Work will take place around the clock, on all four bridges at the same time.**

This work will ensure that the bridges meet today's standards and remains safe for vehicles and pedestrians into the future. The project is part of the Council-approved 2019 and 2020 Capital Works Program.

MAP OF BRIDGE LOCATIONS

WHAT TO EXPECT DURING CONSTRUCTION

- There will be dust, overnight noise and traffic delays as part of this project; your patience is appreciated.
