EMERGENCY WORK

Burke Brook Erosion Protection

(1931 Bayview Ave., 150 Kilgour Rd., 347 Rumsey Rd.)

Expected Start Date: July 08, 2019
 Expected Completion Date: End of August 2019

The City of Toronto will be doing emergency work on a storm sewer and outfall located on the south bank of Burke Brook Creek behind 150 Kilgour Road and 347 Rumsey Road. The storm sewer collects stormwater (rain and melted snow) from hard surfaces (roads, sidewalks, etc.) and carries it through a network of pipes to an outfall and then to Burke Brook Creek.

WORK DETAILS

In order to complete the emergency work, crews will need to do the following:

- Close the existing walking path from the staging area at 1931 Bayview Avenue to the damaged outfall. This closure is required in order to build access to the site and set up an equipment staging area.
- Remove approximately three to four trees to create an access road to the site.
- Stabilize the eroded creek bank.
- Secure the outfall to discharge stormwater to the creek.

Once the work is completed, crews will repair the surrounding vegetation, as needed. All work will be done according to seasonal planting guidelines and is being carried out in consultation with Toronto and Region Conservation Authority and the City of Toronto's Parks, Forestry and Recreation division.

A map of the work area can be found on the back page.

WHAT TO EXPECT DURING CONSTRUCTION

	<p>Work Hours: Work will be completed in accordance with the City's Noise By-law between 7:00 am to 7:00 pm, Monday to Friday, with occasional work after hours and on weekends if required.</p>
	<p>Pedestrian Access: To complete the work safely, some pedestrian restrictions will occur. The pathway from 1931 Bayview Ave. toward the creek (Burke Brook Trail) will be closed for the duration the work. Temporary fencing and signs will be erected around the construction site to protect the public.</p>
