Road Resurfacing on Dundas Street West from McMurray Avenue to Annette Street and Reconstruction of McMurray Avenue

Contract: 19ECS-TI-06MR
Expected Start Date: July 2, 2019
Expected End Date: August 25, 2019
**Timeline is subject to change.*

The City of Toronto will resurface Dundas Street West from McMurray Avenue to Annette Street. The City will also reconstruct the road, and replace the City-owned portion of substandard water services on McMurray Avenue. This work will commence in July 2019.

This work is part of the Council-approved 2019 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

MAP OF WORK AREA

WORK DETAILS

The City's contractor will:

- Dig up the road surface and boulevard
- Re-align maintenance holes and catch basins
- Repair sidewalk, curbs, gutters and driveways
- Construct new sidewalk
- Reconstruct the road base and repave the road surface

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

	<p>Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required. Resurfacing of major intersections at High Park Avenue, Pacific Avenue and Keele Street will take place on a 24 hour basis on select weekends. Update notices will be provided in advance.</p>
-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>Pre-Construction Inspection: Wristen’s Home Specialties Inc. (WHS) under contract to the City of Toronto, will survey all properties within 30 metres of the construction area before construction starts. Participation in the survey is voluntary; however, participating is important in determining if the construction caused damage. The inspection will look at both the interior and exterior of all properties to verify existing conditions. All inspection staff will be wearing photo identification and carrying photographic equipment during their work.</p>
	<p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Some of these efforts include adding Local Access signs, revising traffic signal times. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p>Traffic on Dundas Street West will be reduced to one lane in each direction.</p>
	<p>Parking: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at 416-808-2222.</p> <p>In the event you receive a traffic ticket for on-street parking during this period of construction, you may choose to dispute your ticket following the process listed on the reverse side of the parking infraction notice. You may use this notice as part of your defence for parking consideration during construction; however, the Project Manager does not have the authority to cancel any parking tickets.</p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Project Manager listed below.</p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. Please ensure that you label your bins with your address.</p>
	<p>Restoration: The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).</p>
