Road Resurfacing on Agincourt Drive from Sheppard Avenue East to Havendale Road

Contract: 19ECS-TI-06LR

Expected Start Date: June 24, 2019

Expected End Date: August 30, 2019

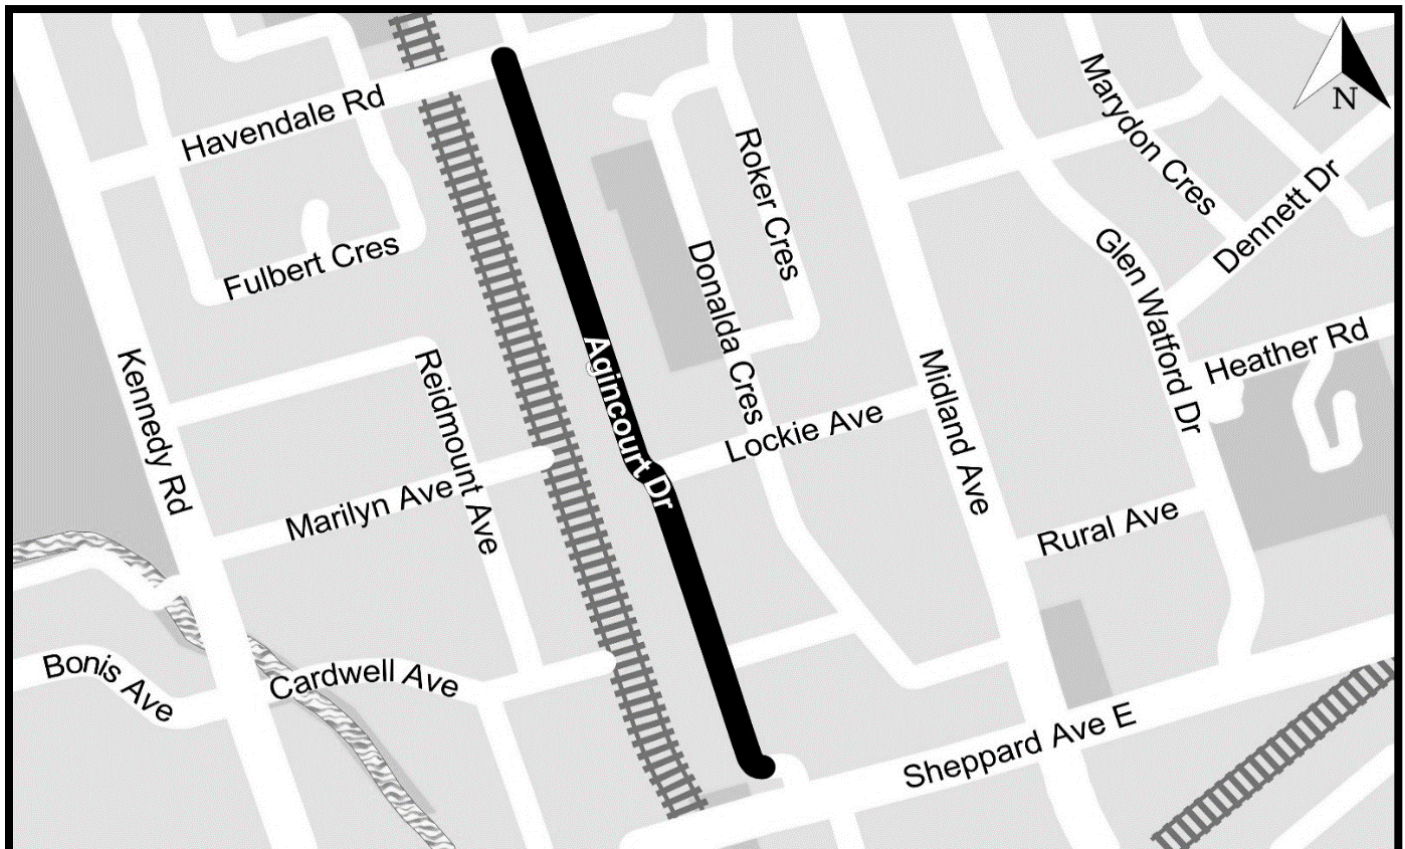

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto will resurface the road on Agincourt Drive from Sheppard Avenue East to Havendale Road. Our inspection of the road shows that it needs repaving and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

This project will include construction of new sidewalks on the north side of Havendale Road from Agincourt Drive to Stainforth Drive and on the west side and on Agincourt Drive from 84 Agincourt Drive to Lockie Avenue.

All these works are part of the Council-approved 2019 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

MAP OF WORK AREA

WORK DETAILS

The City's contractor will:

- Dig up the road surface
- Re-align maintenance holes and catch basins
- Repair curbs, gutters and driveways
- Repave the road surface

WHAT TO EXPECT BEFORE CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

	<p>Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required.</p>
	<p>Telephone and Internet Services: This work may affect phone and internet cables for individual properties that aren't buried deep below the sidewalk. The contractor will coordinate with utility companies to minimize disruption. Residents who find their service has been disrupted should contact the Project Manager <u>and</u> notify their phone or internet service provider.</p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Project Manager listed below.</p>
	<p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p>Traffic on Agincourt Drive will be slower than usual.</p>

	<p>Parking: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at 416-808-2222.</p> <p>In the event you receive a traffic ticket for on-street parking during this period of construction, you may choose to dispute your ticket following the process listed on the reverse side of the parking infraction notice. <i>You may use this notice as part of your defence for parking consideration during construction; however, the Project Manager does not have the authority to cancel any parking tickets.</i></p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <i>Please ensure that you label your bins with your address.</i></p>
	<p>Restoration: The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).</p>

ASBESTOS IN ASPHALT

As part of the work, the City must test the asphalt to be removed for asbestos. Our tests show that there is 0.5% of asbestos in the asphalt.

Asbestos was used in asphalt mixes throughout the 1970s and early 1980s to improve the performance of the asphalt. Air quality monitoring conducted by the City of Toronto at other sites has not detected asbestos fibres in the air as a result of resurfacing of asphalt. The risk of exposure to asbestos for workers and bystanders is low.

As a precaution, the City's contractor will follow these steps:

- Wet the pavement during asphalt cutting, grinding or removal
- Attach dust collecting devices with HEPA filters to equipment, where possible, to prevent dust from becoming airborne
- Provide personal protective equipment, such as disposable coveralls and respirators, to on-site workers upon request, and
- Transport and dispose of asphalt containing asbestos at provincially approved disposal sites.
