

## Immunization Coverage Rates in Toronto Schools

Ontario's Immunization of School Pupils Act requires that students be vaccinated or have a valid exemption. Overall, immunization rates in Toronto schools are high and help to keep kids safe by preventing outbreaks in schools.

### 2018 to 2019 School Year

- Overall coverage rate for diphtheria, tetanus, polio vaccine is 89 per cent with 1.7 per cent for philosophical/religious exemptions.
- Overall coverage rate for measles, mumps, rubella (MMR) vaccine is 94 per cent with 1.7 per cent for philosophical/religious exemptions.

### Technical Notes

- The data was taken on August 1, 2019 from Panorama, the provincial information system used for tracking immunizations.
- The data captures immunization coverage rates of Toronto students, seven to 17 (born between 2001 and 2011) by school, for the 2018/19 school year.
- The immunization rate is expressed as a proportion of students, who were complete for their age, for the particular vaccine antigens amongst all the students enrolled in the school for the 2018/19 school year.
- Percentages for the schools may not add up to 100 as the difference represents individuals that are not complete for age with their vaccinations or have a medical or administrative exemption.
- Only the four publicly funded school boards in Toronto are included in this report. However, adult learning centres and schools with 10 or fewer students enrolled are excluded.

### Search for Immunization Rate by School

The table below shows the immunization rates for 2018/2019 for the following vaccines:

- diphtheria, tetanus, polio vaccine
- measles, mumps, rubella (MMR) vaccine

Note: In this table, the exemption rate\* includes philosophical and religious exemptions.
