Laird in Focus

Launched in November 2016, the purpose of the Laird in Focus Study was to focus and shape anticipated growth around the intersection of Eglinton Avenue East and Laird Drive and along the west side of Laird Drive, anchored by the transit infrastructure being constructed as part of the Eglinton Crosstown Light Rail Transit (LRT).

In July 2018, City Council adopted a Proposals Report for Laird in Focus and directed staff to undertake additional consultation and bring forward a draft Site and Area Specific Policy.

The draft Site and Area Specific Policy provides for a planning and infrastructure framework to accommodate future population and job growth around the Eglinton Crosstown LRT station, address transportation and servicing capacity issues and create a plan for a complete, mixed use and vibrant community. It reflects the outcomes of multiple phases of work and input provided by residents and stakeholders through a number of community meetings, open houses and pop-up events.

Join us on Tuesday, September 17, 2019 to learn about the proposed Laird in Focus draft Site and Area Specific Policy. This is your opportunity to provide feedback and ask questions of City staff. You are welcome to attend at any time during the open house session.
