KM of Cycling Infrastructure by KM of Streets per Neighbourhood

	0.0% - 2.4%
	2.5% - 4.5%
	4.6% - 6.9%
	7.0% - 9.8%
	9.9% - 19.6%

Neighbourhood Improvement Areas

Notes:

1 - Cycling Service is the proportion of street kilometres in the neighbourhood (excluding highways) that have cycling routes (cycle tracks, bike lanes, trails, quiet street sharrows), represented as a percentage (out of 100). The more cycling routes that exist, the higher the score.

2 - Neighbourhood Equity Index Scores (out of 100) are those identified by City of Toronto Social Development, Finance & Administration Division for the Toronto Strong Neighbourhoods Strategy 2020. The scores are based on five domains: economic opportunities, social development, participation in decision-making, physical surroundings, and healthy lives. The greater the opportunities and services, the higher the score. Details at toronto.ca/neighbourhoods

3 - List of neighbourhood names corresponding to neighbourhood numbers available on page 2.

– Neighbourhood Improvement Areas

* ID value corresponds to labelled neighbourhoods shown on the provided maps

* Lower Equity Index Score indicates greater inequity in areas
