## Watermain Replacement on Jarvis Street from Queen Street East to Front Street East

Contract: 19ECS-TI-102LR

Start Date: November 2019 End Date: September 2020

*\*Timeline is subject to change.*

The City of Toronto plans to replace the watermain and the City-owned portion of substandard water services on Jarvis Street from Queen Street East to Front Street East and resurface the road from Queen Street East to Richmond Street East.

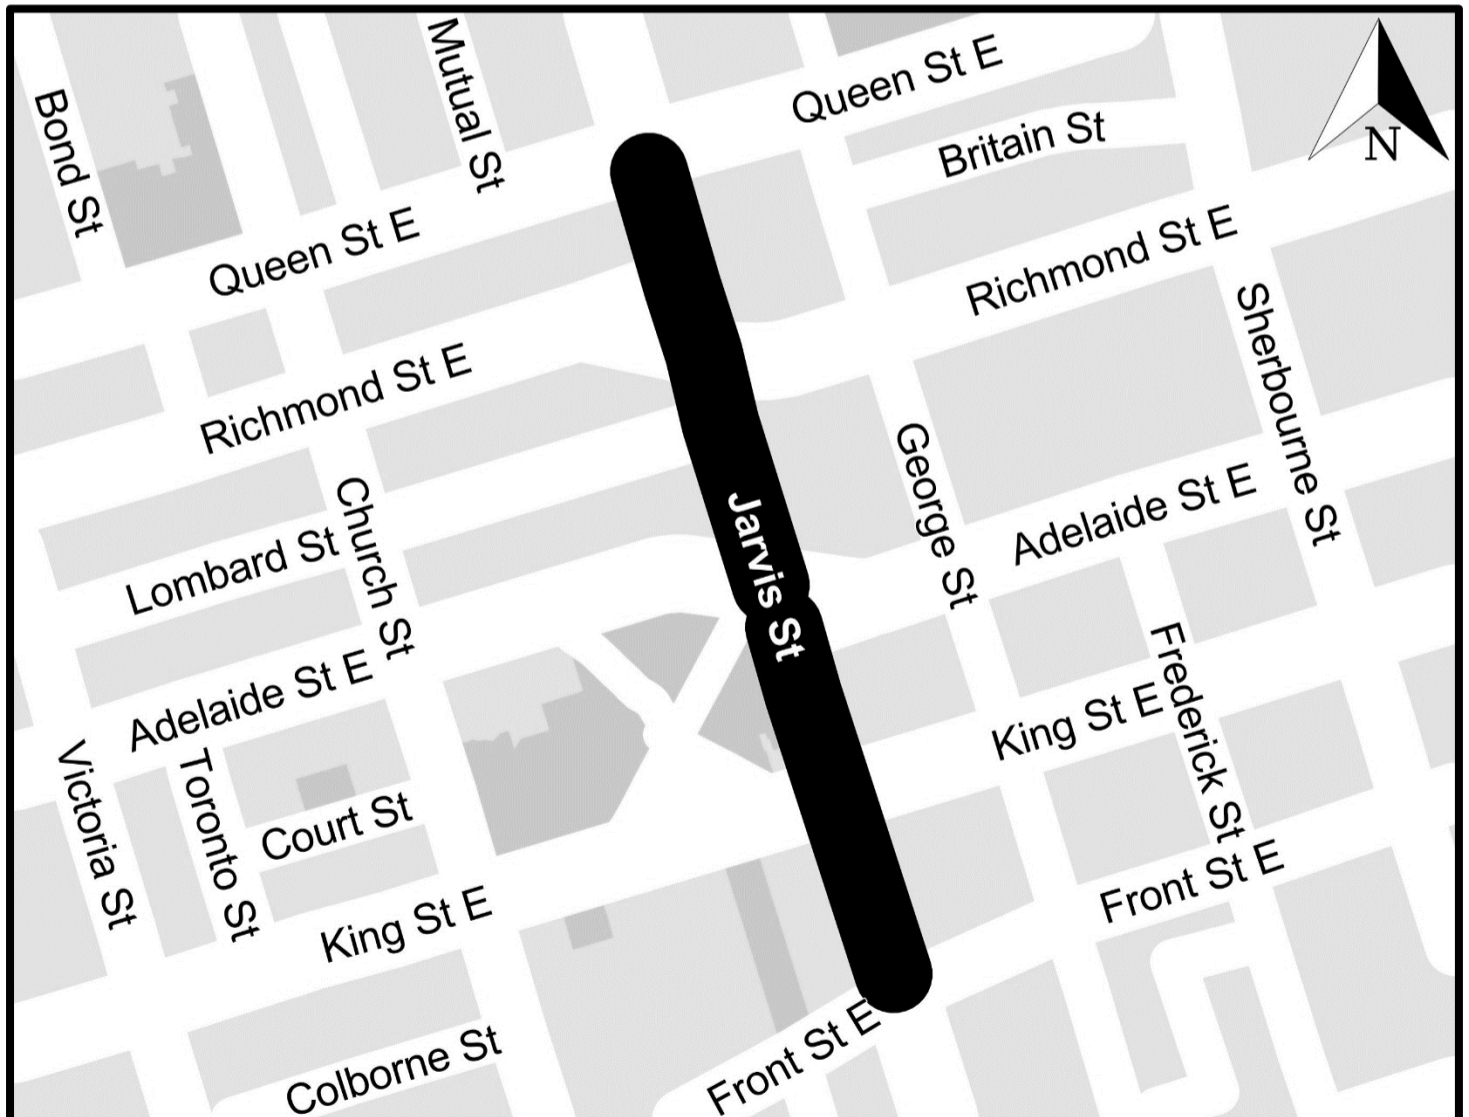

The water service is the underground pipe that brings water to your water meter and is owned by you and by the City. The part you own is from your house to the end of your property, the part the City owns is from the end of your property to the watermain.

This project is part of the Council-approved 2019 Capital Works Program to renew our aging infrastructure, improve water distribution and reduce the risk of watermain breaks.

### IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you have a property on this stretch of Jarvis Street that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

### MAP OF WORK AREA

### WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.

- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Accessible Accommodation:</b> Residents who require accommodation (level entry, longer notice, etc.) must contact the <b>Field Ambassador</b> to arrange for access during the construction period.</p>
	<p><b>Access to Your Home:</b> The City-hired contractor may need access to your home to complete a pre-construction survey. Affected properties will receive a pre-construction survey request to schedule a time to complete the survey.</p>
	<p><b>Important information for owners of sprinkler systems / heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the <b>Field Ambassador</b> listed below.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. <b>First, you need to find out if your water service is lead</b> – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes and you can contact the City's contractor for one of your quotes. Approximately two weeks prior to construction, you will receive a "Construction Notice" with the name and phone number of the City contractor.
