### WHAT ARE COMMUNITY SERVICES AND FACILITIES?

Community services and facilities (CS&F) contribute to the social, economic and cultural development of the city and are vital in supporting liveable communities.

CS&F are publically accessible, non-profit facilities and places where City Divisions, agencies and boards, and school boards deliver programs and services. This includes child care centres, libraries, recreation facilities, schools and community space for human services.

Accessible, high-quality community services and facilities support the health, safety and wellbeing of those living and working in our communities and are essential to building community capacity and fostering complete communities.

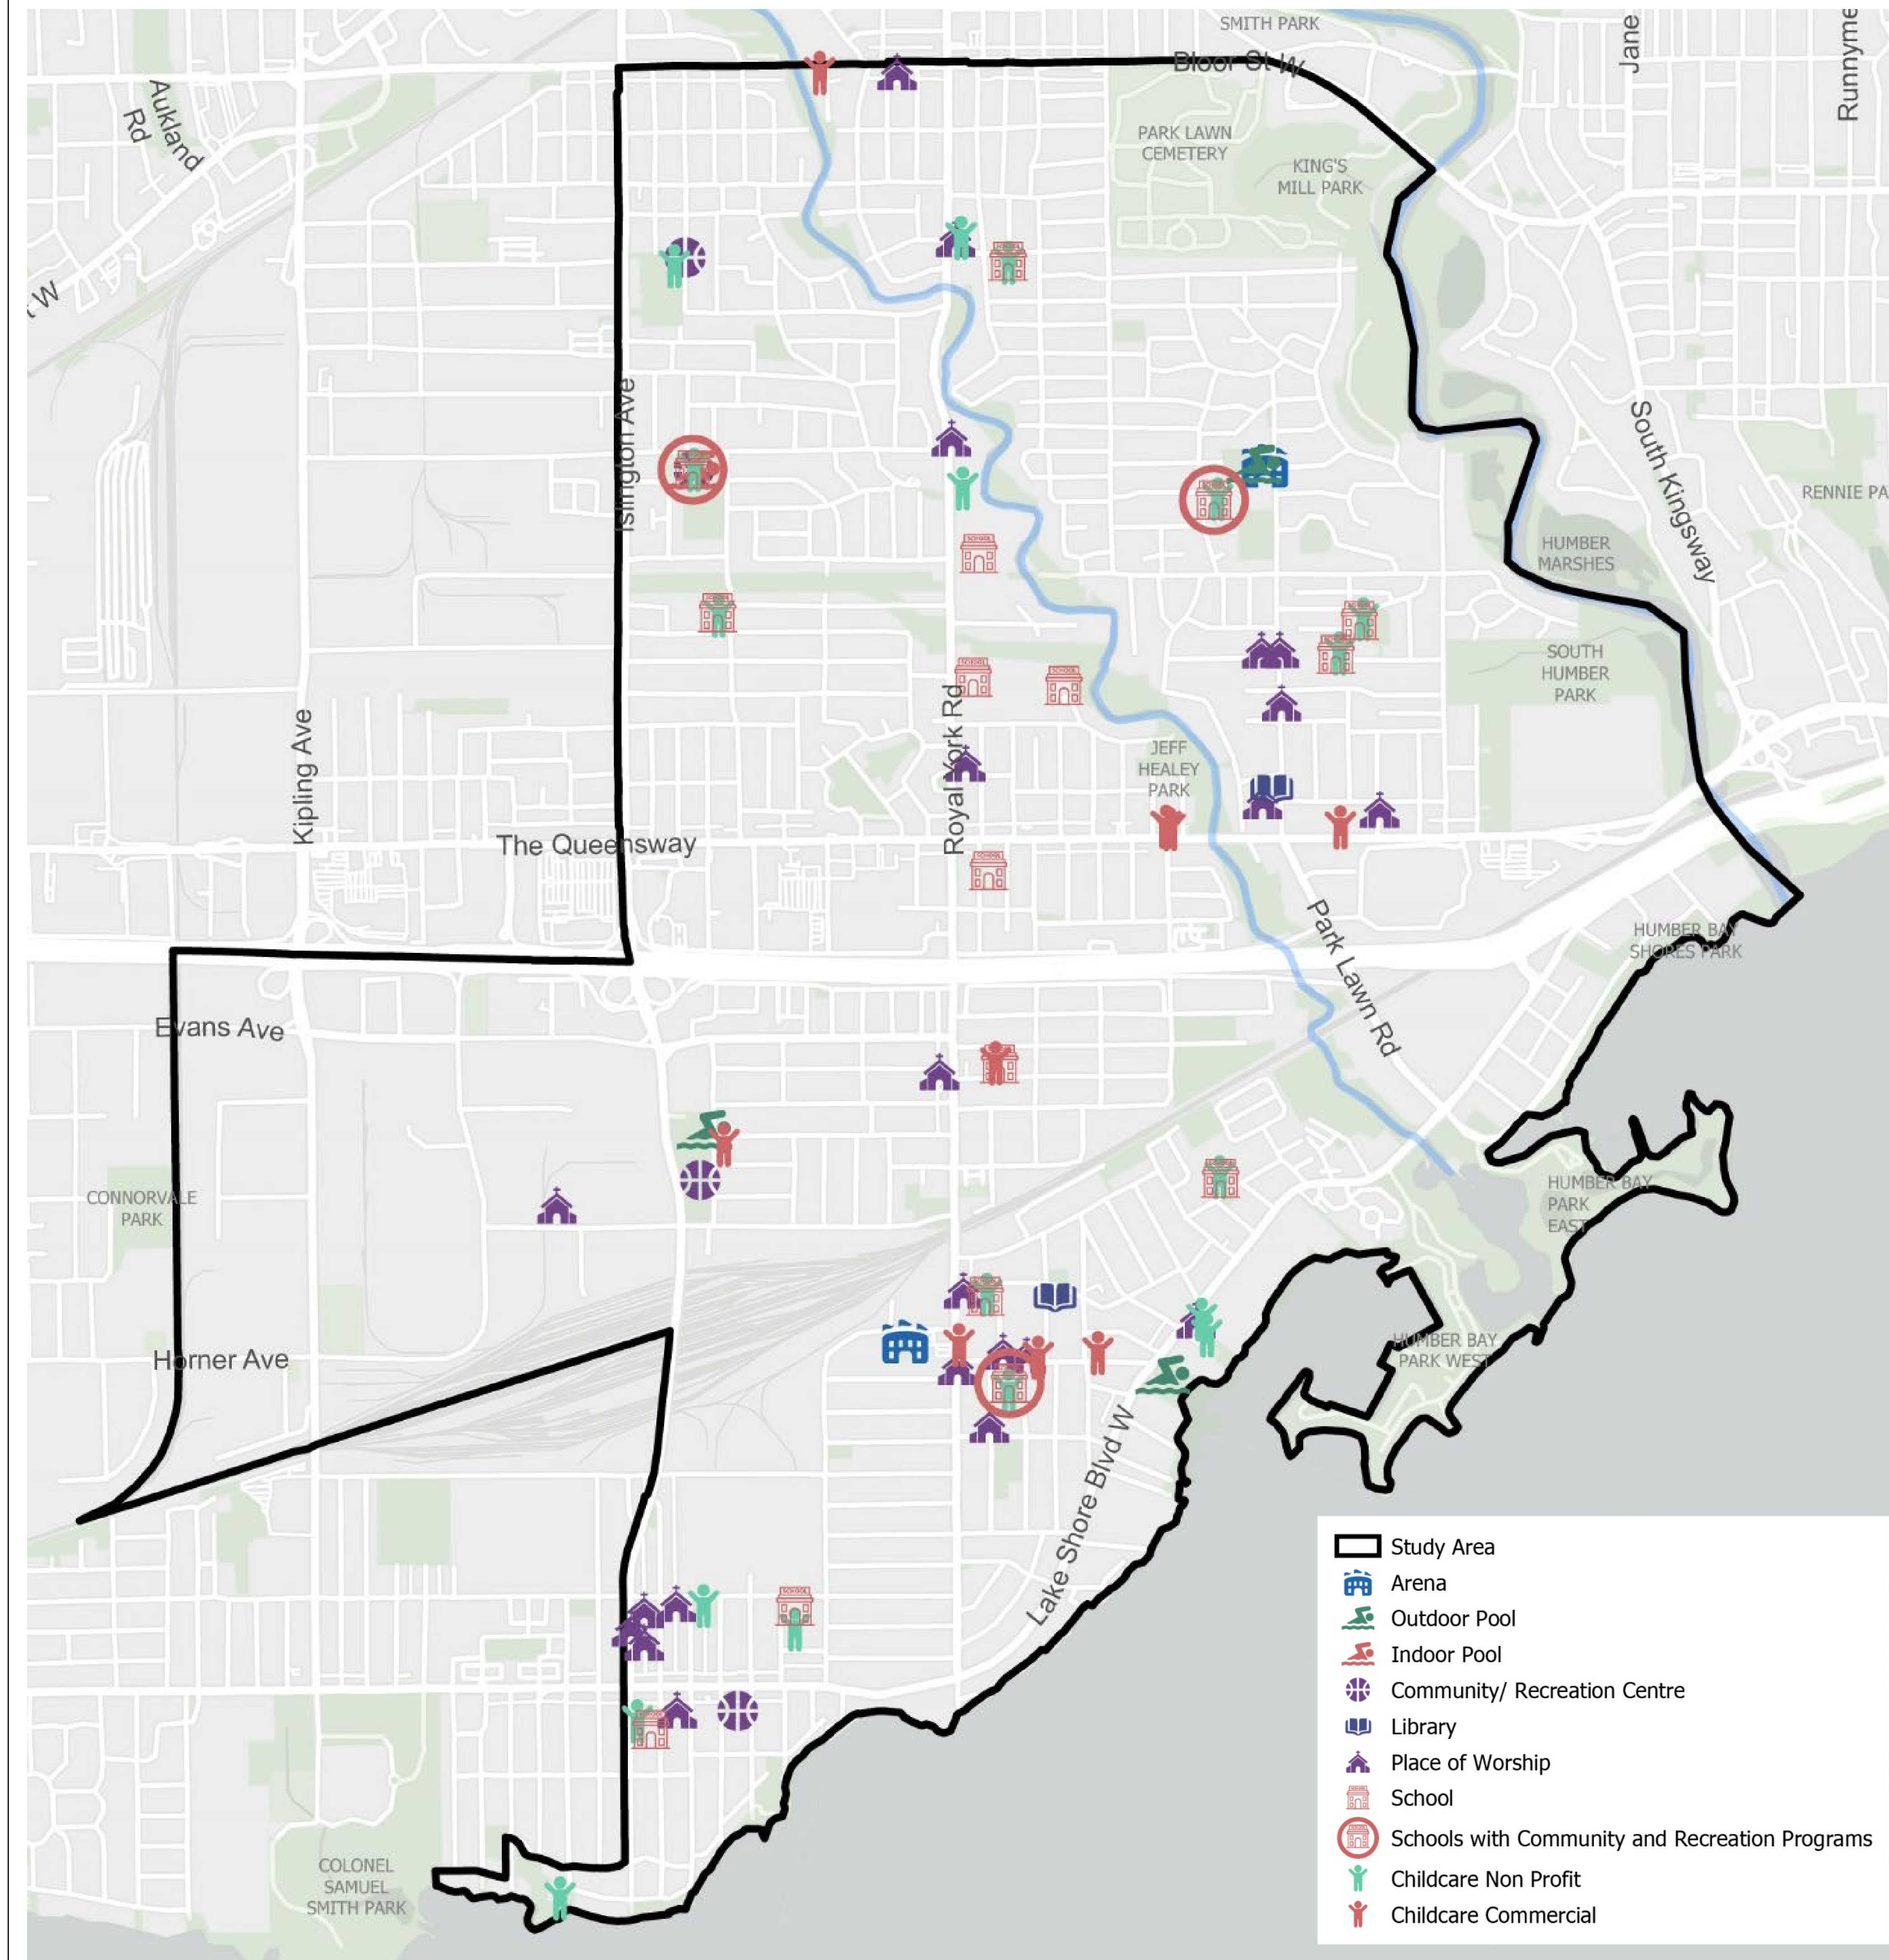

### WHY LOOK AT CS&F FOR THIS STUDY?

Ensuring the provision of CS&F meets both current and future community needs is fundamental in planning for new growth and development in local communities.

The CS&F component of this Study will review the services and facilities currently serving the area and examine the particular needs of the community, now and in the future, to understand what services and facilities are required to support a growing population.
