Information Management Framework

Themes	Accountable Government	Trustworthy Government	Accessible Government	Progressive Government
Principles	Leadership & Governance	Open and Secure	Create or Collect Once, Use Often	Digital First
Goals	Strategic direction, governance and policy leadership is aligned with City strategic actions.	Information is open by default and protected by exception to achieve privacy and government confidentiality where authorized.	Information is current, accurate, accessible and linkable to support City programs, services and public engagement.	Information is managed digitally as a core City asset using standard tools and processes to improve government modernization and service innovation.
