

## Infrastructure and Development Services

The Transit Expansion division leads and directs the City's participation in long-term, multi-billion dollar transit network expansion projects. The division plays an important role in providing end-to-end oversight of transit expansion projects as they advance through the project lifecycle, including: overseeing and facilitating all processes related to transit expansion initiatives; ensuring the City interests and priorities are reflected in transit network expansion efforts; and, serving as a single point of contact for all City divisions, the TTC, Metrolinx and other orders of government to coordinate municipal programs and services required to advance transit expansion projects and ensure that transit-related municipal processes are streamlined for the City.
