HARM REDUCTION DURING COVID-19

1. Clean your hands with soap or alcohol-based sanitizer.
2. Don’t share gear to reduce the risk of virus spread.
3. If using drugs, call someone to stay on the phone with you.
4. If you are with a buddy, keep a distance of 6 feet.
5. Use a supervised consumption service, if possible.
6. If administering naloxone, use disposable gloves.

If you ever have difficulty breathing or experience other severe symptoms, call 911.
