## Road Resurfacing on Oakdale Road from Sheppard Avenue West to Finch Avenue West

Contract: 20ECS-TI-15MR

Start Date: June 22, 2020 End Date: September 28, 2020

*\*Timeline is subject to change.*

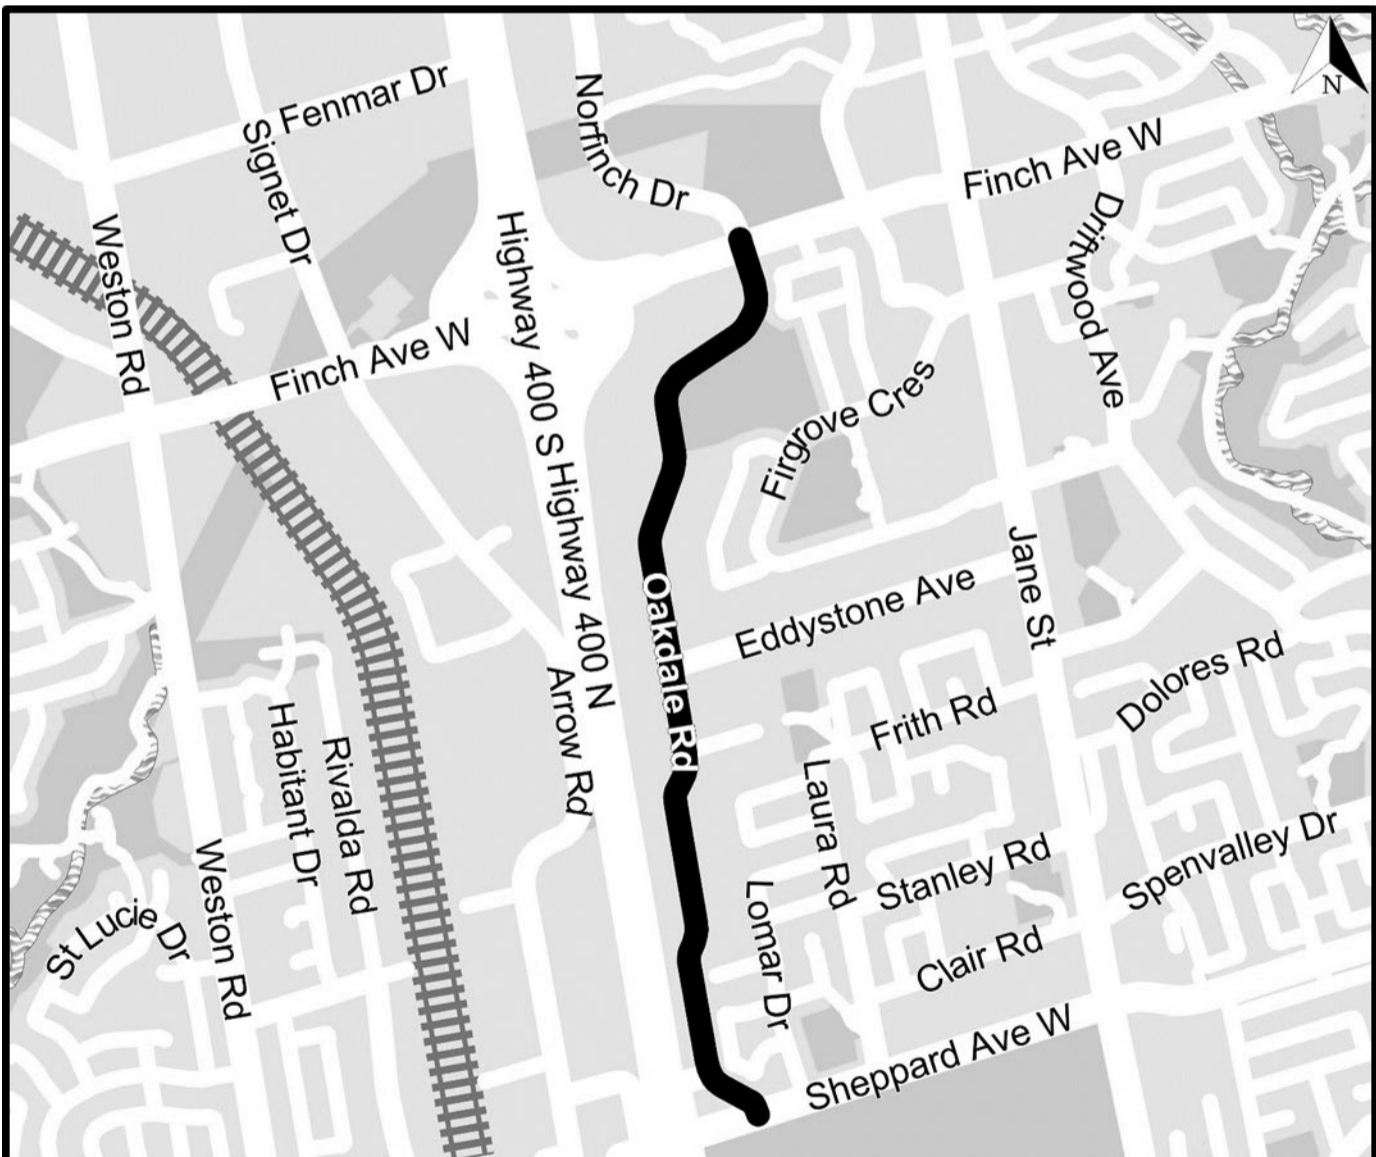

The City of Toronto will resurface Oakdale Avenue from Sheppard Avenue West to Finch Avenue West. Our inspection of the road shows that it needs resurfacing and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

This project is part of the Council-approved 2020 Capital Works Program to renew aging City roads and sidewalk for current and future needs.

### IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

As restrictions on construction have been lifted by the Province of Ontario, City-led infrastructure will continue to proceed. During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

### MAP OF WORK AREA

### WORK DETAILS

The City's contractor will:

- Dig up the road surface
- Re-align maintenance holes and catch basins
- Repair curbs and gutters

- Repave the road surface

## WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Work Hours:</b> Work will take place from 7 a.m. to 7 p.m. Monday to Saturday. During the final phase of work (milling and paving of the road surface) work will take place Friday at 6 p.m. to Saturday 7 p.m. Work on Sundays will be scheduled only if needed.</p>
	<p><b>Road and Sidewalk Access:</b> In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the work zone. Access for emergency vehicles will be maintained at all times.</p> <p><b>Driveway Access:</b> The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p><b>Traffic Management:</b> Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets.</p> <p><b>From Monday to Friday two lanes of traffic will be maintained on Oakdale Road. During overnight milling and paving operations, Fridays at 6 p.m. to Saturdays at 7 p.m. Oakdale Road will be reduced to only one northbound lane of traffic.</b></p>
	<p><b>TTC Service:</b> This project may affect travel times on the <b>84 Sheppard West</b> bus. Visit <a href="http://ttc.ca">ttc.ca</a> for accurate schedule information.</p>
	<p><b>Physical Distancing</b></p> <p>There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access, water shut offs, exterior pre-construction inspections, and site restoration work (landscaping, installing pavers etc.). Contractor's staff will be identifiable by their high-visibility clothing.</p> <p>Where possible, a phone number for a contact person on-site will be provided on notices, to answer questions about work near your property. At other times, the contractor may knock on your door, but will then step away the required distance to discuss the work that is taking place and what can be expected that day. Please practice physical distancing with workers so everyone can remain safe. If you have questions, call the contact provided on this notice.</p>
	<p><b>Accessible Accommodation:</b> Residents who require accommodation (level entry, longer notice, etc.) must contact the <b>Project Manager</b> to arrange for access during the construction period.</p>
	<p><b>Garbage and Recycling:</b> Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <b>Please ensure that you label your bins with your address.</b></p>
	<p><b>Restoration:</b> The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).</p>

**Asbestos in Asphalt:** As part of the work, the City must test the asphalt to be removed for asbestos. Our tests show that there is 5% of asbestos in the asphalt

Asbestos was used in asphalt mixes throughout the 1970s and early 1980s to improve the asphalt performance. Air quality monitoring conducted by the City of Toronto at other sites has not detected asbestos fibres in the air when resurfacing asphalt. The risk of exposure to asbestos for workers and bystanders is low.

As a precaution, the City's contractor will:

- wet the pavement during asphalt cutting, grinding or removal
- attach dust collecting devices with HEPA filters to equipment, where possible, to prevent dust from becoming airborne
- provide personal protective equipment, such as disposable coveralls and respirators, to on-site workers upon request, and;
- transport and dispose of asphalt containing asbestos at provincially approved disposal sites.

**NEED MORE INFORMATION?**

If you have questions about the upcoming work, please contact us.
