Road Resurfacing on Rathburn Road from east of The East Mall to west of Martin Grove Road

Contract # 20ECS-TI-19MR

Expected Start Date: May 2020

Expected End Date: June 2020

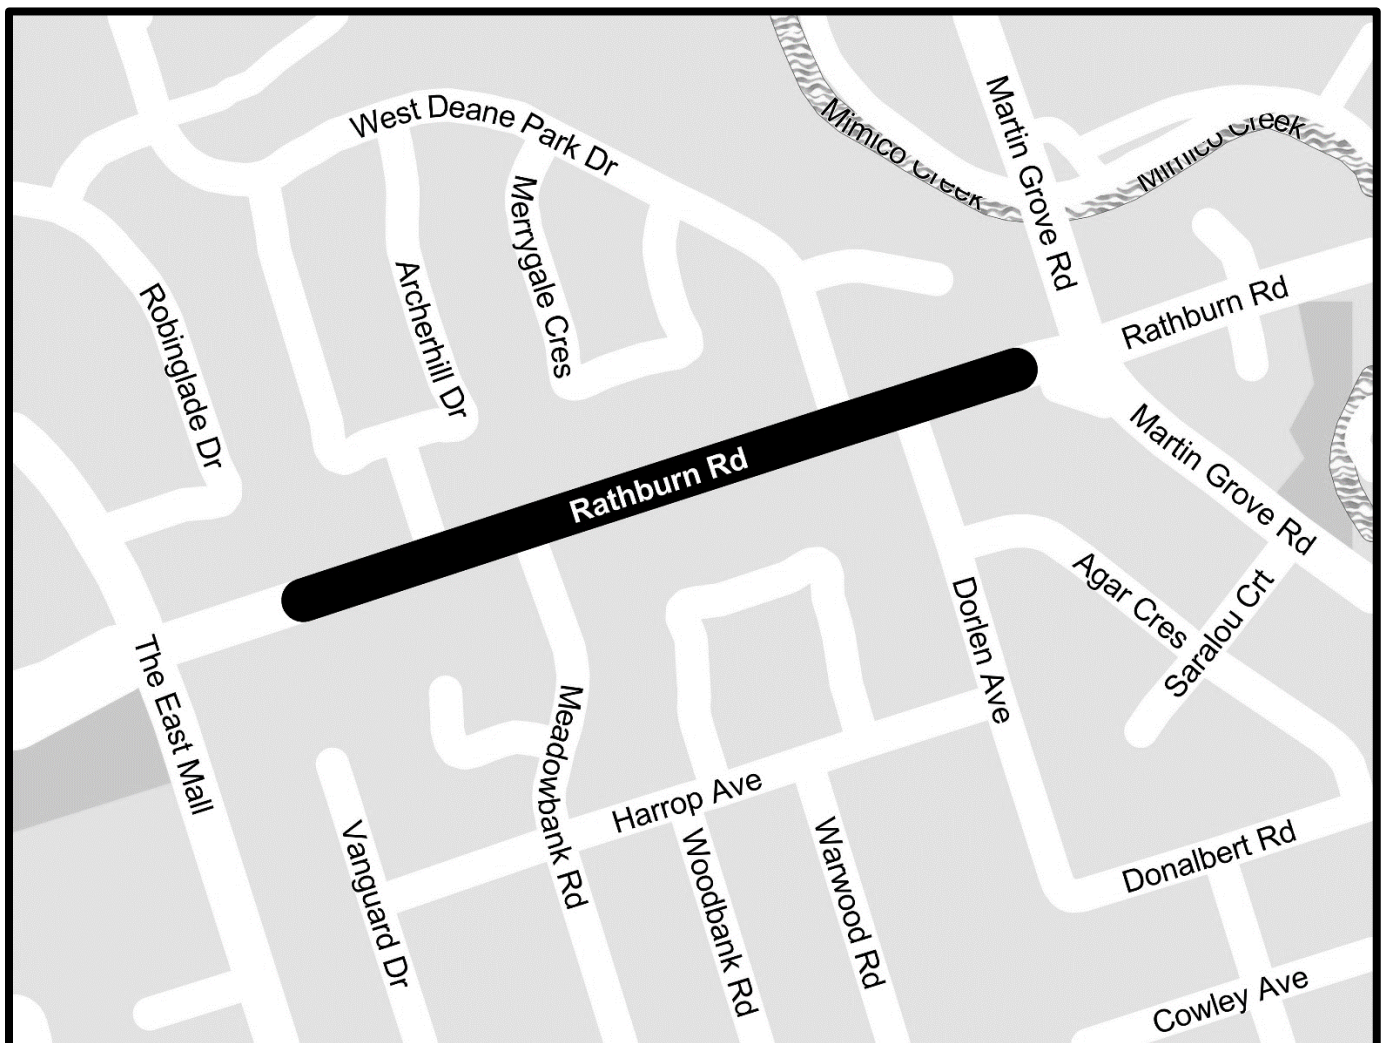

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto will resurface Rathburn Road from 122 m east of The East Mall to 70m west of Martin Grove Road. Our inspection of the road shows that it requires repaving in order to extend its lifecycle and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair. The City will not resurface the intersection of Rathburn Road and Martin Grove Road, which is planned to be completed in 2021-2022 with other capital work.

To improve the safety of road users, vehicle lane widths will be reduced to the City's current standard and a painted buffer will be added on the existing bicycles lanes. In the future, the buffer area will accommodate features that create physical separation between vehicle and bicycle lanes. There will be no change to the number of motor vehicle lanes.

This work is part of the Council-approved 2020 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- Work in the boulevard in front of homes and commercial properties is expected. This work includes removing and replacing driveways, municipal sidewalks and grassed boulevards, where necessary.

	<p>Work Hours: Work on Rathburn Road will take place from 7 a.m. to 7 p.m., Monday to Saturday.</p>
	<p>City Owned Trees: due to the nature of this project, the City will have to remove 1 street tree from the City's boulevard on Rathburn Road, to facilitate upgrades to TTC bus landing platforms. If this affects a tree near your property, you will receive a separate notice. For every street tree removed due to this work, the City will plant a replacement tree of at least 60mm in diameter. Trees in the removal area will be replaced with a 3:1 ratio of naturalization planting including tree whips and shrubs and will be overseen by the City's Parks, Recreation & Forestry Division.</p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Project Manager listed below.</p>
	<p>Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc.) must contact the Project Manager to arrange for access during the construction period.</p>
