1. Does the child/student have any of the following new or worsening symptoms?

- Fever > 37.8°C
- Cough
- Difficulty breathing
- Decrease or loss of taste/smell
- Sore throat or pain swallowing
- Stuffy or runny nose
- Nausea, vomiting or diarrhea
- Headache
- Feeling unwell, muscle aches or tired

Children/students who have an existing health condition identified by a health care provider that gives them the symptoms should not answer “Yes,” unless the symptom is new, different or getting worse.

*If the child/student is 12+ years old and has a mild headache, tiredness, sore muscles or joints within 48 hours after getting a COVID-19 vaccine, they should select “No“ and wear a fitted mask when at child care/day camp/school. If symptoms last longer than 48 hours or worsen select “Yes.”

If “YES” to any symptoms: Stay home & self-isolate + get tested or contact a health care provider

2. Does anyone in your household have one or more of the above symptoms and/or are waiting for test results after experiencing symptoms?

- If the child/student is fully vaccinated**, select “No.”
- If the household member’s mild headache, tiredness, sore muscles or joints occurred within 48 hours after getting a COVID-19 vaccine, select “No.” If their symptoms last longer than 48 hours or worsen select “Yes.”

3. In the last 10 days, has the child/student tested positive on a rapid antigen test or a home-based self-testing kit?

- If the child/student has since tested negative on a lab-based PCR test, select “No.”

4. Has the student/child been notified as a close contact of someone with COVID-19 or been told to stay home and self-isolate?

- If the child/student is 12 years of age and older and fully vaccinated** with a COVID-19 vaccine and have not been advised to self-isolate by public health, select “No.”

5. In the last 14 days, has the child/student travelled outside of Canada AND been advised to quarantine per the federal quarantine requirements?

If “YES” to questions 2, 3, 4 or 5: Stay home + follow Toronto Public Health advice

**Fully vaccinated is defined as an individual ≥14 days after receiving their second dose of a two-dose COVID-19 vaccine series or a single dose of a one-dose COVID-19 vaccine series.
