City Infrastructure work on Coldstream, Glengrove, and Glencairn Avenues between Westgrove Crescent and Mona Drive

Contract: 20ECS-TI-101LR

Start Date: September 2020 End Date: July 2021

**Timeline is subject to change.*

The City of Toronto is planning to complete infrastructure improvements on Coldstream, Glengrove and Glencairn Avenues (see map). Details of the work and locations described below and in map.

Street / Location	Road Reconstruction	Water Service Replacement	Watermain Replacement	Road Resurfacing	Sidewalk Installation
Coldstream Avenue Glen Rush Boulevard to Mona Drive	✓	✓	✓	✓	✓
Glengrove Avenue from 387 Glengrove to Mona Drive	✓	✓	n/a	n/a	n/a
Glencairn Avenue Westgrove Crescent to Mona Drive	✓	✓	n/a	n/a	n/a

The water service is the underground pipe that brings water to your water meter and is owned by you and by the City. The part you own is from your house to the end of your property, the part the City owns is from the end of your property to the watermain.

This project is part of the Council-approved 2020 Capital Works Program to renew our aging infrastructure, City roads, and sidewalk for current and future needs, improve water distribution and reduce the risk of watermain breaks.

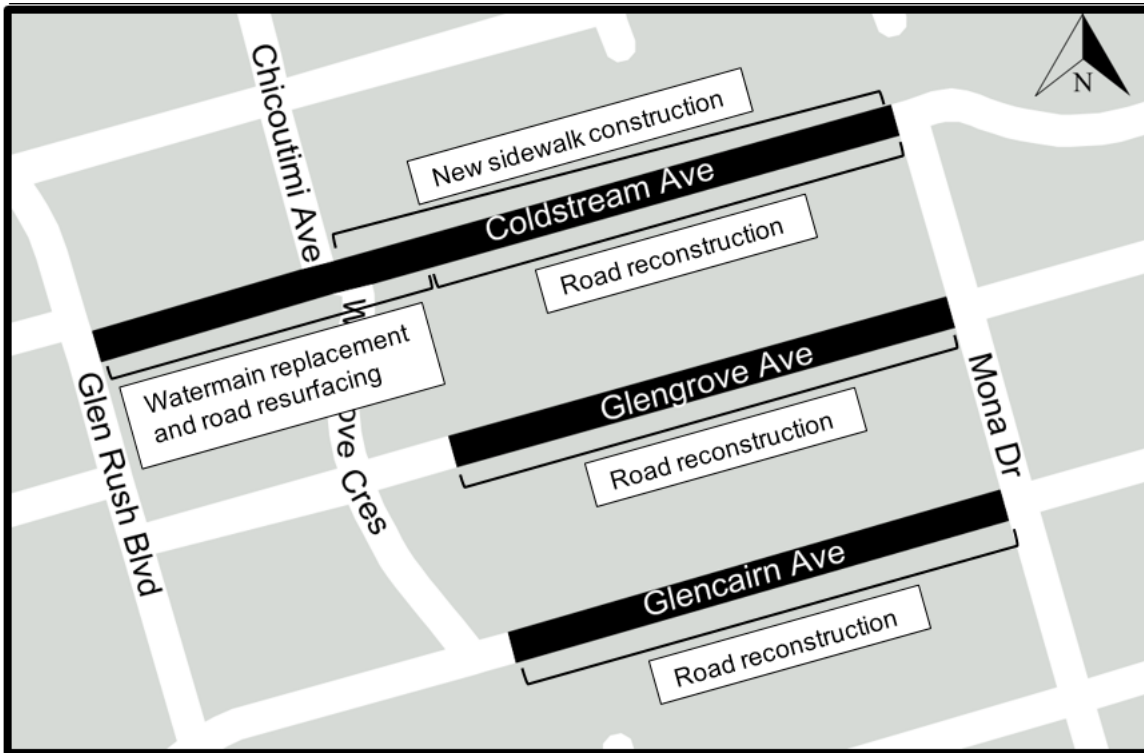

IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

As restrictions on construction have been lifted by the Province of Ontario, City-led infrastructure will continue to proceed. During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit toronto.ca/covid-19.

IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on Glengrove, Glencairn or Coldstream Avenue in the area described above in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

Accessible Accommodation: Residents who require accommodation (level entry, longer notice, etc.) must contact the **Field Ambassador** to arrange for access during the construction period.

	<p>Access to Homes on Coldstream Avenue: The City-hired contractor may need access to the exterior of homes on Coldstream Avenue to complete a pre-construction survey. Affected properties will receive a pre-construction survey request to schedule a time to complete the survey.</p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Field Ambassador listed below.</p>
	<p>Substandard Water Service Replacement: Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. First, you need to find out if your water service is lead – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes. PLEASE NOTE: The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property. Learn more at www.toronto.ca/leadpipes</p>

NEED MORE INFORMATION?

If you have questions about the upcoming work, please contact us and quote 20ECS-TI-101LR.
