## Basement Flooding Protection Program

### Sanitary and Storm Sewer Upgrades on Allonsius Drive and other local roads

**Contract: 19ECS-LU-03FP**  
**Start Date: September 2020**  
**End Date: March 2023**  
*\*Timeline is subject to change.*

The City of Toronto is replacing and upgrading the storm and sanitary sewer system in your area in order to reduce basement flooding. This work also involves replacing the City-owned portion of substandard water services and sanitary sewer laterals. Work is planned on the following streets:

Street Name	From Street	To Street
Allonsius Drive	Allonsius Drive	Allonsius Drive
Boreal Road	Saturn Road	Renforth Drive
Botley Road	Tunbridge Crescent	Hernshaw Crescent
Burnhamthorpe Road	40m West of Windust Gate	The West Mall
Carsbrooke Road	Renforth Drive	Crendon Drive
Crendon Drive	Renforth Drive	105m South of Renforth Drive
Elderfield Crescent	Entire length of road	
Glos Road	Elderfield Crescent	Elderfield Crescent
Hernshaw Crescent	Entire length of road	
Indianola Drive	Old Burnhamthorpe Road	Embers Drive
Kris Court	Entire length of road	
Monet Avenue	Entire length of road	
Renforth Drive	Rexton Road	Crendon Drive
Renforth Drive	Carsbrooke Road	West Wareside Road
Saturn Road	Entire length of Road	
Toledo Rd	Renforth Drive	Elmcrest Creek
Tranquil Drive	Burnhamthorpe Road	Boreal Road
Tunbridge Crescent	Entire length of Road	
Windust Gate	Burnhamthorpe Road	Allonsius Drive
Endwood Road	Carsbrooke Road	Hernshaw Court
Eda Court	#1 Eda Court	#425 Renforth Drive

The sanitary service lateral is the pipe connecting your home's sewage plumbing to the City's sewer. The water service is the underground pipe that brings water to your water meter and is owned by you and by the City. The part you own is from your house to the end of your property, the part the City owns is from the end of your property to the watermain.

This project is part of the Council-approved 2020 Basement Flooding Protection Program to improve the water distribution system; renew our aging infrastructure, and reduce the risk of sewer collapse or blockages that cause sewer backups and flooding

**IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO**

As restrictions on construction have been lifted by the Province of Ontario, City-led infrastructure will continue to proceed. During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

## IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on the street in the area described above in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

## WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property, so please ensure that you remove/arrange for removal of each item prior to construction.

	<p><b>Accessible Accommodation:</b> Residents who require accommodation (level entry, longer notice, etc.) must contact the <b>Field Ambassador</b> to arrange for access during the construction period.</p>
	<p><b>Important information for owners of sprinkler systems/heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. For details on removal of such items, please contact the <b>Field Ambassador</b> listed below.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. <b>First, you need to find out if your water service is lead</b> – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes. <b>PLEASE NOTE:</b> The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property. Learn more at <a href="http://www.toronto.ca/leadpipes">www.toronto.ca/leadpipes</a></p>

## MAP OF WORK AREA

## NEED MORE INFORMATION?

If you have questions about the upcoming work, please contact us.
