<b>Purpose</b>	To obtain authority to extend the term of a licence agreement between the City and Toronto Waterfront Revitalization Corporation (the "TWRC") dated August 21, 2019 (the "Licence Agreement") that permits TWRC and its consultant access to City property west of the Don River to complete daily water sampling as part of the Port Lands Flood Protection Project, by approximately six months commencing on March 1, 2020 and ending August 20, 2020.
<b>Property</b>	A small rectangular portion of land west of the Don River and east of Corktown Common, being part of the land legally described as PIN 21077-0156 (LT), Part of Esplanade or Highway Plan Don improvement Toronto (aka Don Esplanade, West Don Roadway Closed by EB32273) as in ES38723, as shown outlined in red on Appendix "A" (the "Property").
<b>Actions</b>	1. Authority be granted to enter into an agreement with TWRC to extend the term of the Licence Agreement, substantially on the major terms and conditions set out below, and including such other terms as deemed appropriate by the approving authority herein, and in a form satisfactory to the City Solicitor.
<b>Financial Impact</b>	There is no financial implication resulting from this approval. The licence fee payable to the City will be nominal (\$2.00).  TWRC will be responsible at its sole expense for all operating costs related to the use of the Licensed Area and Commercial General Liability Insurance.  The Chief Financial Officer and Treasurer has reviewed this DAF and agrees with the financial impact information.
<b>Comments</b>	City Council, by approval of EX18.3 on November 8, 2016 directed staff to identify funding for the City's one-third share of the balance of the projected Port Lands Flood Protection Project (the "Project") cost, after receiving the findings of the Port Lands Flood Protection due diligence review. In May of 2018, the City then entered into a Tri-Government Contribution Agreement with WT for the Project. As part of the Project, a Sediment Debris Management Area ("SDMA") will be located on lands to the south of the Property at 520/572/586 Lake Shore Blvd East, as regular sediment and debris removal is required to maintain safe navigation and flood protection through the river channel.  The water sampling is being completed to monitor the environmental performance of both the SDMA construction work, and the entire Project. The sampling station is an upgradient location for comparison to downgradient, Project related conditions. The water sampling program is a component of the compliance monitoring described in the Don Mouth Naturalization and Flood Protection Project Environmental Assessment, and WT's Department of Fisheries and Ocean Request for Review for the Project. The water sampling is anticipated to be required for the duration of the Project, i.e. until March 31, 2024. City staff have submitted a report that was presented and adopted by City Council at its June 29th and 30th, 2020 session, seeking authority for each of the Executive Director, Corporate Real Estate Management and Deputy City Manager, Corporate Services to approve the grant of licences to WT in connection with the Project for up to 5 years for nominal consideration, which will provide approval authority to grant a water sampling licence to WT for the remainder of the Project.
<b>Terms</b>	Term Extension: approx. 6 months, beginning on March 1, 2020 and ending on August 20, 2020. All other terms and conditions of the Licence Agreement to remain the same.
