

September 10, 2020

You are receiving this information because you have signed-up for community updates on the Modular Supportive Housing Initiative at 150 Harrison Street. Please share with your network as appropriate.

Construction update

Site preparation is anticipated to begin at the 150 Harrison St. site starting September 14, 2020 including installing construction fencing and tree protection hoarding. Once the site preparation is complete, the building foundation work will begin. This work is expected to be complete in mid-October.

Builders and their trades have been asked to be mindful of the adjacent neighbourhood during construction hours. New Ontario government regulations allow construction activities 7 days a week (including holidays) from 6:00 am to 10:00 pm. Future updates on the construction schedule will be available on the website at www.toronto.ca/modularhousing.

If you need to report any construction-related issues please contact Bruce Davis, the City's consultant, at 416-520-1972 or email City staff at modularhousing@toronto.ca.

Community Liaison Committee

Once a housing services provider is selected, we will be convening a Community Liaison Committee (CLC) to maintain communication between the community and the modular housing project team.

The CLC will include local residents, and representatives from local businesses, non-profit groups, the City, Councillor's Office and the housing service provider once they are selected. If you are interested in participating on the Community Liaison Committee please send an email to modularhousing@toronto.ca with the subject line **CLC-Harrison**, indicating your interest, experience and organization (if applicable).
