

HEALTHY WORKPLACE PRACTICES DURING COVID-19

Post signs that promote hand hygiene, coughing/sneezing into your arm, physical distancing & wearing masks

Place alcohol-based hand sanitizer near entrances & other high-traffic areas

Keep all washrooms stocked with liquid soap & paper towels

Encourage staff to clean hands upon arriving at the workplace & throughout their shift

Encourage staff to connect virtually instead of in person

Support employees in taking care of their physical health & mental well-being
