HEALTHY WORKPLACE PRACTICES DURING COVID-19

- Post signs that promote hand hygiene, coughing/sneezing into your arm, physical distancing & wearing masks.
- Place alcohol-based hand sanitizer near entrances & other high-traffic areas.
- Keep all washrooms stocked with liquid soap & paper towels.
- Encourage staff to clean hands upon arriving at the workplace & throughout their shift.
- Encourage staff to connect virtually instead of in person.
- Support employees in taking care of their physical health & mental well-being.
