

Got household hazardous waste?

Safe Disposal Options

Items that are corrosive, flammable, explosive or poisonous are considered Household Hazardous Waste (HHW).

- > Cleaning products, bleach, paint, batteries, medication, fluorescent light bulbs, motor oil, propane tanks/cylinders, insecticides, etc.

HHW must NOT be put in garbage, recycling (Blue Bin), organics (Green Bin) or poured down the drain, toilet or sewer.

- > Ask your property manager if your building has a collection bin for HHW
- > Take to a Drop-Off Depot that accepts HHW
- > Take to a Community Environment Day
