

# AFTER YOU HAVE HAD COVID-19

## End self-isolation if you:

+

Have self-isolated for 10 days after symptoms started, or your test date if you had no symptoms.

Don't have a fever & symptoms have been improving for at least 24 hours.

## Returning to work:

You don't need to get re-tested. A negative test or doctor's note is NOT required.

Continue to follow health advice – keep your distance, wear a mask, & wash your hands. Get your vaccine when available.
