

# PHYSICAL DISTANCING IN THE WORKPLACE DURING COVID 19

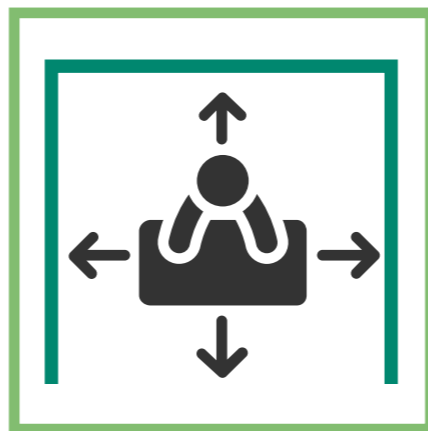

All employees should keep 2 metres/6 feet apart while working & while on break.

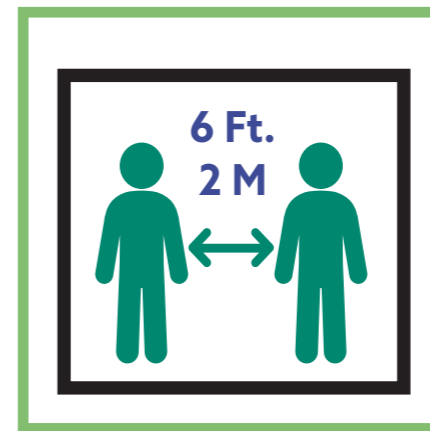

Limit the number of staff & contractors present in the premise at any given time.

Modify the space to create more room for people to keep distance.

Close off alternate work stations & seating in breakrooms so that staff cannot sit within 2 metres/ 6 feet of each other.

Post physical distancing & maximum capacity signs.

Use signs & floor decals to remind people where to stand & to direct traffic flow.
