

# 2021 Program Summary

## Technology Services Division

While we aim to provide fully accessible content, there is no text alternative available for some of the content within these pages. If you require alternate formats or need assistance understanding our charts, graphs, or any other content, please contact us at [FPD@toronto.ca](mailto:FPD@toronto.ca).

### Description

The Technology Services Division (TSD) provides city-wide leadership in modernizing and innovating City services through strategic technology investments that advances principles of access, affordability and resiliency with equity as a driving factor. This includes:

- Providing a standardized and best practice technology environment to enable program and service delivery supporting the aspirations of a digital government.
- Collaborating in partnership with all stakeholders (including the Federal and Provincial Governments, community organizations, residents and businesses) to ensure efficient and effective modernization of solutions with the goal of improving the public experience to access City services.
- Ensuring fiscal stewardship in delivery of results based outcomes to enhance business processes and technology implementations.

### Why We Do It

Our services align to the City's Digital Infrastructure Plan, demonstrating a commitment to equity and inclusion, supporting a Well Run City, creating social, economic and environmental benefits, ensuring privacy and security and enabling democracy and transparency. The Technology Services Division (TSD) leads innovative technology services and solutions that effectively supports the delivery City services to its stakeholders by ensuring:

- The City's technology environment is resilient, robust and agile.
- City divisions, residents and businesses experience reliable business continuity enabled from a digital infrastructure that meets their service delivery requirements.

*The City of Toronto aims to deliver these outcomes equitably, efficiently and with excellent customer service to help improve the lives of Torontonians and work to earn their trust and confidence.*

### What Service We Provide

#### **Business Technology Solutions**

**Who We Serve:** City and Agency Staff, Businesses, Residents, & Visitors

**What We Deliver:** Customer centric sustainable digital solutions

**How Much Resources (gross operating budget):** \$54.4 million

#### **Computer & Communications Technology Infrastructure**

**Who We Serve:** City and Agency Staff , Businesses, Residents, & Visitors

**What We Deliver:** Stable and scalable technology infrastructure

**How Much Resources (gross operating budget):** \$57.9 million

#### **Enterprise Technology Services Planning & Client Services**

**Who We Serve:** City and Agency Staff, Businesses, Residents, & Visitors

**What We Deliver:** Investment yielding measured outcomes

**How Much Resources (gross operating budget):** \$28.0 million

## Budget at a Glance

### 2021 OPERATING BUDGET

\$Million	2021	2022	2023
Revenues	\$35.3	\$34.7	\$34.7
Gross Expenditures	\$140.3	\$153.9	\$155.0
Net Expenditures	\$105.0	\$119.3	\$120.3
Approved Positions	763.0	763.0	767.0

### 2021 - 2030 10-YEAR CAPITAL PLAN

\$Million	2021	2022-2030	Total
Gross Expenditures	\$67.4	\$254.9	\$322.3
Debt	\$43.6	\$31.3	\$74.8

Note: Includes 2020 carry forward funding to 2021

## How Well We Are Doing – Behind the Numbers

### Portfolio: % Plan vs. Actual Completed

- Gauges performance in completing projects as well as capacity to take on new projects
- As the ratio of completed projects to those planned increases, benefits are realized, and resources can take on new project demands
- Project completion rates reflect an increase from 2018 as a result of greater programmatic alignment of projects to enable better prioritization decisions, leading to the convergence of project planning and completion rates
- Earlier identification of required resources ensures projects are delivered on time

### % Availability of Business Applications

- Measures the availability of all business applications managed by TSD
- The availability of business applications has been maintained as a result of better planning and fewer incidents
- Deviations mainly due to scheduled maintenance/upgrades

### Telework: Actual Usage vs Capacity

- Large increase in capacity and usage in 2020 due to COVID-19 work from home directive, demonstrating the resilience in expanding remote and digital capabilities.
- This does not include Agencies, Boards, Commissions and Corporations, which will be accounted for by the Workplace Modernization Program

## How Well We Are Doing

Service	Service Measure	2018 Actual	2019 Actual	2020 Target	2020 Projection	2021 Target	2022 Target	Status
<b>Service Level Measures/Outcome Measures</b>								
<b>Business Technology Solutions</b>	% Availability of Business Applications	99.97%	99.97%	99.95%	99.95%	99.95%	99.95%	●
<b>Business Technology Solutions</b>	Improve Technology Customer Experience: Customer Satisfaction with Technology Service Desk	81%	80%	90%	90%	90%	90%	●
<b>Computer &amp; Enterprise Technology Planning &amp; Client Services</b>	Deliver Technology Projects to enable City Programs and Services Delivery: Technology Projects: % Plan vs. Actual Completed	70%	72%	90%	90%	90%	92%	●
<b>Computer &amp; Communications Technology Infrastructure</b>	% Availability of Technology Network Infrastructure Services	99.99%	99.98%	99.50%	99.50%	99.50%	99.50%	●
<b>Computer &amp; Communications Technology Infrastructure</b>	Ensure continued availability of City Technology Infrastructure / Systems: % Availability of Toronto.ca	99.99%	99.99%	99.50%	99.50%	99.50%	99.50%	●

**COVID-19 IMPACT AND RECOVERY**

2020 Impact	2021 Impact and Recovery
<p><b>Financial Impact (Operating)</b></p> <p>The \$8.8 million net unbudgeted expenditures incurred due to COVID-19 includes:</p> <ul style="list-style-type: none"> <li>\$7.1 million in acquiring additional capital assets (incl. servers, laptops, monitors, tablets, firewall, etc.) to increase technology capacity to enable city-wide teleworking \$2.4 million to increase internet bandwidth, and other technology/staff support costs to support Town Hall meetings/events and city-wide teleworking</li> <li>\$0.6 million loss in capital and project staff revenue recoveries resulting from COVID-19 redeployment</li> </ul> <p><u>Savings due to COVID-19</u></p> <ul style="list-style-type: none"> <li>\$1.3 million underspend related to staffing due to the allocation and prioritization of resources to the City's COVID-19 pandemic response</li> </ul>	<p><b>Financial Impact (Operating)</b></p> <p>The City continues to incur the following operating expenditures as a result of expanding its remote and digital capabilities to support mobile work, virtual council and remote teams, in 2020:</p> <ul style="list-style-type: none"> <li>\$1.0 million in enhancing security capability for teleworking.</li> <li>\$0.9 million in increasing internet, cloud subscriptions, hardware/software maintenances, etc. to enable City-wide staff to telework and host Town Hall meetings/events.</li> <li>\$0.6 million in acquiring cloud subscriptions for digital signatures, voice agent inquiries, and Chatbot to meet modernized business needs.</li> </ul>
<p><b>Financial Impact (Capital)</b></p> <ul style="list-style-type: none"> <li>The 2020 capital budget was adjusted to reflect changes due to allocation of funding to support COVID costs, delays in coordination of procurement activities and non-availability of resources due to redeployment.</li> <li>\$15.8 million in capital projects delayed as part of the City's capital slowdown to enable potential offsets to COVID-19 impacts. This includes five new 2020 projects that were cancelled or deferred to 2021 totalling \$3.3 million and 44 on-going projects reduced/deferred to 2021 totalling \$12.5 million. \$4.1 million of the deferred funding was included in the 2021 Budget (COVID-19 Financial Impact Slide) to continue with the ongoing projects</li> <li>Division received capital budget infusion to account for additional technology capital assets procured due to COVID</li> </ul>	<p><b>Financial Impact (Capital)</b></p> <p><u>Impacts for 2021</u></p> <ul style="list-style-type: none"> <li>Desktop Hardware will incur additional costs as the City transitions to 90% notebooks and increased telework</li> <li>Internet services will incur \$1.3 million due to increased number of remote users</li> <li>New Projects in 2021 related to COVID: <i>ConnectTO – Network Utility</i> (\$0.4 million), <i>Office 365</i> (\$5.0 million)</li> </ul>
<p><b>Service Level Changes</b></p> <ul style="list-style-type: none"> <li>Conducted 270 virtual Council, City-wide Town Halls and Public consultations</li> <li>Increased Cloud Computing capabilities from 10% to 15%</li> <li>Moved of TELUS Data Centre</li> <li>Implemented 311 Chatbot and evolved to Voice-Chatbot</li> <li>Increased telework capacity from 3,000 to 10,000</li> <li>952K+ participants conducted 199K+ WebEx meetings</li> <li>Increased the mobile computers by 44% from 8,600 to 12,400</li> <li>Implemented Digital Signatures</li> <li>Increased and enhanced internet capacity</li> <li>Enabled additional remotely controlled devices</li> <li>Enhanced Server capacity</li> <li>Enterprise Tableau Licensing to support reporting</li> </ul>	<p><b>Service Level Changes</b></p> <p>Review of service levels to reflect changes may be required for technology upgrades and improvements</p>

## EXPERIENCES, CHALLENGES AND PRIORITIES

### Our Experience and Success

- Demonstrated resilience and expanded the City's remote and digital capabilities (use of collaboration tools, virtual council and public deputations, Chatbot etc.) within a few weeks to deliver services and support a digital society and a mobile workplace in response to the pandemic
- Support of City-wide Service consolidation using Technology as a lever in the area of 311
- Implemented the Coronavirus Rapid Entry (CORES) Case and Contact Management System used by Toronto Public Health to document data related to the pandemic and share data with the Ministry of Health, in-house
- Collaborated with other Divisions to deliver over 25 different digital solutions (MLS Online Permitting and Licensing, P&E Redeployment Survey, Online Staff Inquiries Management System, Voluntary Separation Program, etc.) to assist with the COVID-19 response efforts
- Developed a new online intake portal to enable and supported the initial launch of the Concepts to Keys program, which the City set up to transform, enhance and improve how the City of Toronto attracts, facilitates and regulates development activity
- Partnered with other technology and telecommunications companies and provided free public internet access to 25 Tower Neighbourhood buildings (over 13,000 people), in City shelters, Long-term Care Homes, recreation centres to support digital equity
- Managed donations of over \$1,000,000 in equipment from technology companies such as 500 free smart phones with 6 months of free service to the Toronto Aboriginal Support Services Council and communication devices for shelters to support digital equity
- Tifffield Data Center construction completed successfully in Mar 2020 will allow consolidation of multiple production data centers and provide shared space to agencies
- Upgraded the City's Museums & Arts Services Historic sites, such as Fort York and enabled more technologically advanced programming for the Economic Development & Culture Division
- Partnered with Shelter Support & Housing Administration Division and Toronto Public Health and developed Use Cases to be implemented using Artificial Intelligence and machine learning for the benefit of Toronto Housing availability and affordability
- Successfully obtained Council adoption on Digital Infrastructure Plan principles and work plan
- Continued with stakeholder engagement and public feedback by establishing a Digital Infrastructure Plan Community Advisory Group

### Key Challenges and Risks

- Sustainable funding model for transition to a "Cloud First" environment
- Prioritization of capital funding may impede timely, new and innovative technology service provisioning
- COVID-19 response and recovery efforts resulting in fatigue and impact/delay divisional technology services centralization as well as shared services with Agencies and Corporations
- Ability to respond quickly to constant change and greater demands on technology services due to resource constraints

### Priority Actions

- Accelerated investment to build the resilient teleworking technology infrastructure required to enable a remote workforce, digital service delivery channels and the Workplace Modernization program
- Investment to implement recommendations of the Auditor General that will address City-wide risk and result in a secure, reliable and high performing technology environment that is modernized and well-positioned to respond to growing business needs and resident demands
- Improve integrated service delivery by streamlining software development and technology operations leveraging new approaches
- Leverage cloud computing to bring a consistent standard approach to delivering business solutions
- Implement strategically aligned work intake and governance model to optimize capacity vs. demand management, improve management of risk and improve service delivery capabilities

## RECOMMENDATIONS

City Council approved the following recommendations:

1. City Council approve the 2021 Operating Budget for Technology Services of \$140.303 million gross, \$35.262 million revenue and \$105.041 million net for the following services:

**Service:**

	<b>Gross Expenditures (\$000s)</b>	<b>Revenue (\$000s)</b>	<b>Net Expenditures (\$000s)</b>
Business Technology Solutions	\$54,353.7	\$21,112.2	\$33,241.4
Computer & Communications Technology Infrastructure	\$57,931.2	\$11,655.3	\$46,275.9
Enterprise Technology Services Planning & Client Services	\$28,018.0	\$2,494.0	\$25,524.0
<b>Total Program Budget</b>	<b>\$140,302.8</b>	<b>\$35,261.5</b>	<b>\$105,041.2</b>

2. City Council approve the 2021 staff complement for Technology Services of 763.0 positions comprised of 136.0 capital position and 627.0 operating positions.
3. City Council approve the 2021 new user fees, technical adjustments to user fees, market rate user fee changes, rationalized user fees, and other fee changes above the inflationary adjusted rate for Technology Services identified in Appendix 9, for inclusion in the Municipal Code Chapter 441 "Fees and Charges".
4. City Council approve 2021 Capital Budget for Technology Services with cash flows and future year commitments totaling \$100.471 million as detailed by project in Appendix 6a.
5. City Council approve the 2022-2030 Capital Plan for Technology Services totalling \$221.864 million in project estimates as detailed by project in Appendix 6b.

# **2021 OPERATING BUDGET**

## 2021 OPERATING BUDGET OVERVIEW

Table 1: 2021 Operating Budget by Service

(In \$000s)	2019 Actual	2020 Budget	2020 Projection *	2021 Base Budget	2021 New / Enhanced	2021 Budget	Change v. 2020 Projection	
By Service	\$	\$	\$	\$	\$	\$	\$	%
<b>Revenues</b>								
Business Technology Solutions	20,495.6	22,760.0	17,980.8	21,112.2		21,112.2	3,131.4	17.4%
Computer & Communications Technology Infrastructure	10,265.6	11,815.8	9,906.4	11,655.3		11,655.3	1,748.9	17.7%

\*2020 Projection based on Q3 Variance Report

### COSTS TO MAINTAIN EXISTING SERVICES

**Total 2021 Base Budget** expenditures of \$136.040 million gross reflecting an increase of \$9.044 million in spending above 2020 projected year-end actuals (prior to enhancements), predominantly arising from:

- Annualized costs of expanding the City's remote and digital capabilities due to the pandemic,
- Additional resources required to support Toronto Public Health's COVID-19 Case & Contact Management system, and
- Investments required to enhance and accelerate the development of the City's digital service infrastructure and support the Workplace Modernization Program to drive future savings/ efficiencies.

Given the financial impacts of COVID-19 on 2020 actuals, a further comparison of the 2021 Budget (excluding 2021 COVID-19) to the 2020 Council approved Budget is provided below:

- **2021 Base Budget of \$100.779 million in net expenditures reflects an \$8.727 million net increase from the 2020 Council approved Budget, when excluding \$2.474 million in estimated COVID-19 financial impacts.**

### COSTS TO ENHANCE SERVICES

**New and Enhanced Service** expenditures of \$4.262 million gross:

- \$2.262 million gross and net, enabling mitigation and management of City-wide risk and implementation of Auditor General recommendations, and
- \$2.000 million gross and net, to expand and accelerate internet access for low-income and underserved communities and residents

### EQUITY IMPACTS OF BUDGET CHANGES

**No significant equity impacts:** The changes in Technology Services' 2021 Operating Budget do not have any significant equity impacts.

**2021 OPERATING BUDGET KEY DRIVERS**

The 2021 Operating Base Budget for Technology Services is \$136.040 million gross or 7.1% higher than the 2020 Projected Actuals. Table 2a below summarizes the key cost drivers for the base budget, while Table 2b summarizes New and Enhanced requests.

**Table 2a: 2021 Key Drivers – Base Budget**

Key Cost Drivers	2019 Actuals	2019 Budget	2020 Budget	2020 Projection*	2021 Base Budget	Change vs. 2020 Projection	
						\$	%
Expenditures							
1 Salaries and Benefits	89,249.1	101,405.7	93,512.7	87,616.5	91,349.7	3,733.2	4.3%
2 Materials & Supplies	38.5	46.9	62.8	17.5	63.3	45.8	262.5%
3 Equipment	1,256.9	852.1	614.8	195.0	617.3	422.3	216.5%
4 Service and Rent	26,895.3	28,098.4	32,365.5	30,815.7	41,332.0	10,516.4	34.1%
5 Contribution To Capital							
6 Contribution To Reserves	308.2	211.9	212.2	211.8	204.2	(7.5)	-3.6%
7 COVID-19 Impact				8,139.6	2,473.8	(5,665.8)	-69.6%
Total Expenditures	117,748.2	130,615.1	126,768.0	126,996.0	136,040.4	9,044.4	7.1%
Revenues							
1 Provincial Subsidies							
2 User Fees & Donations	193.4	143.5	139.8	214.5	137.8	(76.7)	(100.0%)
3 Draw from Reserve Funds	2,929.7	4,675.3	5,189.4	3,722.9	4,994.9	1,272.0	34.2%
4 Other Revenues (Inc. IDR's)	29,818.5	39,761.1	31,860.8	25,529.3	30,128.8	4,599.5	18.0%
5 COVID-19 Impact				(625.1)		625.1	(100.0%)
Total Revenues	32,941.7	44,579.7	37,190.0	28,841.6	35,261.5	6,419.9	22.3%
Net Expenditures	84,806.5	86,035.4	89,578.1	98,154.4	100,778.9	2,624.5	2.7%
Approved Positions	840.0	840.0	791.0	791.0	763.0	(28.0)	(3.5%)

\*2020 Projection based on Q3 Variance Report

**Salaries & Benefits:**

2020 projection reflects impacts of the allocation of resources to prioritize the COVID-19 pandemic response. 2021 reflects hiring required for accelerated digital modernization and resuming capital projects to support digitization.

**Materials and Supplies:**

Reflects annualized utility costs attributed to new data centre.

**Services and Rents:**

Increase mainly due to operating impacts from completed projects and price increases due to contractual terms/consumer price index increase.

**COVID-19 Impacts:**

Operating expenditures as a result of expanding the City's remote and digital capabilities to support mobile work, virtual council and remote teams.

**Other Revenue Changes:**

Reflects capital recoveries from resuming the capital program and recoveries from eligible Divisions to support operational business needs.

**Table 2b: 2021 Balancing Actions**

Recommendation	Savings Type	(\$000s)						
		2021				2022		
		Revenue	Gross	Net	Positions	Gross	Net	Positions
Better price via contract negotiation	VBOR		(748.1)	(748.1)				
Hana Decommission	VBOR		(668.0)	(668.0)				
Data Centre Centralization	VBOR		(161.5)	(161.5)				
Change Enterprise Print Manager Maintenance from Subscription Model to Perpetual	VBOR		(66.8)	(66.8)				
Desktop Management System Maintenance Reduction Due to Cybersecurity Enhancement	VBOR		(65.8)	(65.8)				
Process Efficiencies and Maintenance Reduction from Telephone Expense Management System Enhancements	Efficiencies		(210.0)	(210.0)	(2)	(76.2)	(76.2)	
Reduction in Professional Services from Managed Services for SuccessFactors	Efficiencies		(200.0)	(200.0)				
Line-By-Line Reductions	Other		(247.9)	(247.9)		(247.9)	(247.9)	
Voluntary Separation Package	Other		(868.8)	(868.8)		868.75	868.8	
Software/Hardware Maintenance Reduction from Office 365 Implementation	VBOR					(265.0)	(265.0)	
Savings from Moving Secure File Tool to Cloud	VBOR					(19.00)	(19.00)	
Software License Maintenance Savings from Webmethod Decommissioning	VBOR					(300.0)	(300.0)	
Audio Video Savings by Switching from Cable to Streaming	VBOR					(103.6)	(103.6)	
<b>Total Balancing Actions</b>			<b>(3,236.8)</b>	<b>(3,236.8)</b>	<b>(2)</b>	<b>(66.7)</b>	<b>(66.7)</b>	<b>-</b>

Balancing actions in the recommended budget help offset operational pressures driven by the City's goal of improving services through digitization:

- \$0.248 million reduction in operating expenditures reflects savings from a line-by-line review based on historical actuals.
- \$0.748 million reduction as a result of better negotiations and pricing on technology maintenance contracts.
- \$0.869 million one-time reduction (2021 only) resulting from Voluntary Separation Package.
- \$0.801 million reduction attributed to implementing new technologies, eliminating co-located data centre rent by centralization, switching licensing model for enterprise print management maintenance, and savings as a result of Hana implementation.
- \$0.410 million in efficiencies from eliminating 2 vacant positions by implementing the telecom expenditure management (TEMS) project and the managed services for the human capital management system (SuccessFactors).

Table 2c: 2021 New / Enhanced

New / Enhanced Request	2021				2022 Annualized Gross	Equity Impact	Supports Key Issue / Challenge
	Revenue	Gross	Net	Positions			
In \$ Thousands							
<u>City-Wide Security Risk Management &amp; Mitigation</u>							
1 Implement Segregation/Segmentation & Security Control Tool - AU4.1(7)		1,711.8	1,711.8		1,711.8	None	Auditor General recommended to mitigate City risks
2 Increase Network and Security capacity from Managed Security Service Provider Implementation		453.8	453.8		453.8	None	Auditor General recommended to mitigate City risks
3 Implement Asset Management Tool to Control/Restrict unauthorized Access to Open Data - AU7 13(2)(a)&(b) & AU 4.1		96.7	96.7		96.7	None	Auditor General recommended to mitigate City risks
4 Improve Internet Access for Low-Income Communities		2,000.0	2,000.0		2,000.0	None	To expand and accelerate internet access for low-income and underserved communities and residents
Total New / Enhanced		4,262.4	4,262.4		4,262.4		

Investments totalling \$4.262 million in 2021 are included in the recommended budget to address citywide risk and implement Auditor General Recommendations as well as to better serve Toronto citizens:

- \$0.097 million to replace End of Life hardware used to control and restrict unauthorized access to local area networks.
- \$1.712 million for hardware and software to implement adequate network security segregation and security controls based on business needs, risk and emerging architecture.
- \$0.454 million to support managed security services by expanding the existing technology infrastructure/capacity.
- \$2.000 million to expand and accelerate internet access for low-income and underserved communities and residents.

#### **Note:**

1. For additional information on 2021 key cost drivers refer to [Appendix 2](#) as well as [Appendix 3](#) for a more detailed listing and descriptions of the 2020 Service Changes and [Appendix 4](#) for the 2021 New and Enhanced Service Priorities, respectively.

**2022 & 2023 OUTLOOKS****Table 3: 2022 and 2023 Outlooks**

(\$000s)	2020 Projection*	2021 Budget	2022 Outlook	2023 Outlook
Revenues	28,841.6	35,261.5	34,656.8	34,673.7
Gross Expenditures	126,996.0	140,302.8	153,918.3	155,000.4
<b>Net Expenditures</b>	<b>98,154.5</b>	<b>105,041.2</b>	<b>119,261.5</b>	<b>120,326.7</b>
<b>Approved Positions</b>	<b>791.0</b>	<b>763.0</b>	<b>763.0</b>	<b>767.0</b>

\*2020 Projection based on Q3 Variance Report

## Key drivers

The 2022 Outlook with total gross expenditures of \$153.918 million reflects an anticipated \$15.615 million or 11.3 per cent increase in gross expenditures above the 2021 Operating Budget. The 2023 Outlook expects a further increase of \$1.082 million or 0.7 per cent above 2022 gross expenditures.

These changes arise from the following:

- **Impacts of 2020 decisions**

Additional \$12.729 million to complete the implementation of Office 365 to modernize communication/collaboration and enhance productivity. **(2022 Only)**

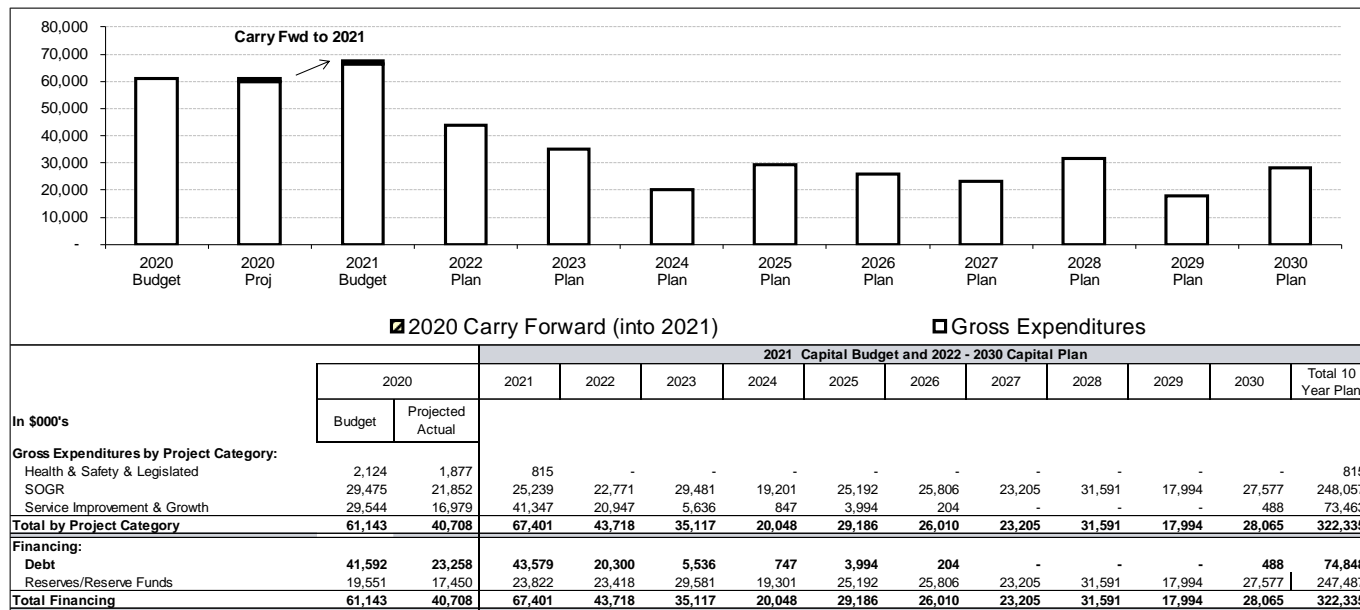

- **Salaries and Benefits**

Increase in Salaries and benefits reflective of collective agreement obligations. **(2022 2023)**

# **2021 – 2030 CAPITAL BUDGET AND PLAN**

## 2021 – 2030 CAPITAL BUDGET & PLAN OVERVIEW

**Chart 1: 10-Year Capital Plan Overview**  
(\$'000)

### Changes to Existing Projects (\$19.5 Million)

- *Modernized Data Center Architecture* will modernize the City's technology infrastructure, system development capabilities and methodologies to support and meet City strategic initiatives and priorities
- Consolidation of the *Enterprise Work Management Solution* project within TSD

### New Projects (\$10.7 Million)

- *Office 365 implementation* includes hardware and configuration
- *ServiceNow* replaces TSD's Project Portfolio Management System.
- *Access Control Self-Serve* will upgrade access control software platforms.
- *ConnectTO* begins preliminary work in support of the Council work plan to develop the City's first Digital Infrastructure Plan.

### Capital Needs Constraints (\$5.4 Million)

- *Desktop Hardware Replacement*

#### Note:

For additional information, refer to [Appendix 6](#) for a more detailed listing of the 2021 and 2022-2030 Capital Budget & Plan by project; [Appendix 7](#) for Reporting on Major Capital Projects – Status Update; and [Appendix 8](#) for Capital Needs Constraints, respectively

**2021 – 2030 CAPITAL BUDGET AND PLAN****\$322.3 Million 10-Year Gross Capital Program**

				
<b>A Well-Run City</b>	<b>Fiscal Responsibility</b>	<b>Housing</b>	<b>Mobility</b>	<b>Infrastructure</b>
\$62.3M 18%	\$1.0M 1%	\$1.1M 1%	\$15.5M 5%	\$242.5M 75%
<i>MLS System Modernization</i>  <i>Modernized Data Center</i>  <i>Enterprise Work Management Solution</i>  <i>Office365</i>	<i>Telecom Expense Management Replacement - Transitioning management and reporting to third party for improved service delivery</i>	<i>Toronto Property System</i>  <i>Artificial Intelligence for Shelter, Support and Housing Administration and Toronto Public Health - Utilizing data to improve outcomes</i>	<i>Geospatial Strategy Roadmap – Utilizing data to improve outcomes</i>  <i>ConnectTO – Maximization of City Asset to deploy public Wi-Fi</i>	<i>Technology Lifecycle Management - Infrastructure. Refresh – E.g. Laptop and tablet replacement – transitioning from desktops</i>

Future year capital investment will change as the Technology Services Division (TSD) transitions to a Cloud First Strategy. Cloud adoption brings about a shift on the profile of how investments are funded. As most cloud services are subscription-based, this model sees a shift to more Operating Expenditures as opposed to Capital Expenditures. Capital Investment will continue to be needed to support the expedient delivery of these cloud services. The first big investment in 2021 in this area with the implementation of Office 365 in support of Workplace Modernization Requirements. Benefits include:

- Greater cost agility with infrastructure as a service – Cloud services have a high degree of cost variability, so expenses can quickly go down if demand for services is reduced.
- Increase retained cash - By using cloud/on-demand services, the City does not have to invest upfront to buy technology infrastructure via regular refresh cycles.
- Reduced Opportunity Costs - Opportunity costs are defined as the value foregone by pursuing a certain course of action. By choosing to use cloud/on-demand, the City can free up cash to invest in other parts of the corporation.

**How the Capital Program is Funded**

<b>City of Toronto</b>		<b>Provincial Funding</b>	<b>Federal Funding</b>
<b>\$322.3 M</b> <b>100%</b>		<b>\$0.0 M</b> <b>0%</b>	<b>\$0.0 M</b> <b>0%</b>
Debt	\$ 74.8 M		
Reserve Draws	\$ 247.5 M		

## CAPACITY TO SPEND REVIEW

The 10-Year Capital Plan has been developed with consideration of historical demonstrated ability to spend within any given year of the ten year capital plan. A review was undertaken to ensure budgets align with Technology Service's ability to spend and the markets capacity to deliver.

A key component in determining an appropriate level of annual cash flows includes historical capacity to spend reviews by project categories (Chart 2 below) as well as the level of projected 2020 underspending that will be carried forward into 2021 to complete capital work.

**Chart 2 – Capacity to Spend**

### Capacity to Spend Review Impact on the 10-Year Plan

Based on the review of historical capital spending constraints and a capacity to spend review, \$1.096 million in capital spending originally cash flowed in 2020 has been deferred to 2021. Adjustments to the Capital Plan are noted below:

- *MLS Systems Modernization* reduced 2020 budget by \$2.771 million and deferred \$1.207 million to 2022 based on project timelines and capacity to spend
- Eighteen TSD projects have decreased their 2021 budget ask based on TSD's divisional priorities, resource constraints, timelines and capacity to spend. The collective total decrease is \$6.212 million in 2021 compared to the previously submitted 2021 budget.
- *Desktop Software Replacement* has reduced the 2021 budget by \$15.3 million with the transition to *Office365*. Alternatively, *Office365* Project was added for \$8.784 million over 2021, 2022 and 2023.
- *Enterprise Work Management Solution* Program has been consolidated across four divisions (Toronto Water, Solid Waste, Parks Forestry & Recreation, and Transportation) for the total budget to reside in TSD. The consolidation has a net zero impact across The City, however it increases the TSD budget by \$9.053 million in 2021 and \$8.162 million in 2022.
- *Telephony Upgrade* Project from 311 was transferred to TSD in 2021 resulting in an increase of \$1.315 million in 2021 to TSD's budget with an offsetting \$1.315 decrease in 311's budget.
- Projects included in TSD's 2021 budget fall within the following phases
  - 30-100% design completed, procurement-ready - \$37.5M (56% of budget); 22 projects (43%)
  - 5%-30% design completed, procurement-ready - \$11.2M (17% of budget); 13 projects (25%)
  - 5%-30% design completed, not procurement-ready - \$7.5M (11% of budget); 8 projects (16%)
  - 0%-5% design completed, with estimates - \$11.2M (17% of budget) & 8 projects (16%)

## STATE OF GOOD REPAIR (SOGR) FUNDING & BACKLOG

The chart below depicts the SOGR funding and accumulated backlog estimates for key asset classes in Technology Services such as Lifecycle Management (Desktop Hardware, Software, Servers, etc.).

**Chart 3: Total SOGR Funding & Backlog**

The TSD Life Cycle Management (LCM) programs ensure investments are made so that TSD solutions are kept reliable, current, compliant, and supported for continued client satisfaction for all TSD systems. Technology Infrastructure Services management continually reviews and assesses the technologies that are being sustained by the LCM program to ensure alignment with leadership visions and directions, such as Public Cloud First and ModernTO, while also keeping in mind the constant changes in the technology landscape such as new technologies and increased Cyber Security Risks.

- Funding in the 10-Year Capital Plan addresses State of Good Repair based on planned lifecycle and ensures business continuity of the City's technology. Based on this plan, it is forecasted that there will be a backlog starting in 2021 and additional funding is required to support it.
- Over 49% (\$121 million) of TSD's 2021 - 2030 Life Cycle Management Costs is to refresh desktops and laptops. Due to COVID restart/recovery the 10-year refresh includes the cost of 24,000 units split in a ratio of 90% laptops and 10% desktops.
- Over 22% (\$56 million) is to refresh Network Assets and includes the cost to implement the AG recommendation for Network Access controls & Network Segmentation
- Over 8% (\$20 million) is to support Internet Services and includes the impact of increasing the number of remote workers and the number of network related hardware due to COVID.

The increasing backlog was identified as part of the 2021 budget process following a change in provided hardware (i.e. notebooks). Technology Services will work with FPD to address the projected backlog growth as part of future budget processes.

**OPERATING IMPACT OF COMPLETED CAPITAL PROJECTS**

The 10-Year Capital Plan will Budget will impact future year Operating Budgets by \$8.277 million net over the 2021-2030 period, primarily due to the completion of the below mentioned projects expected to be completed in 2021 and 2022, as shown in Table 4 below.

**Table 4: Net Operating Impact Summary**  
(In \$000's)

Projects	2021 Budget		2022 Plan		2023 Plan		2024 Plan		2025 Plan		2021-2025		2021-2030

### Summary of 2021 New / Enhanced Service Priorities Included in Budget

**2021 Operating Budget - Council Approved New and Enhanced Services**  
**Summary by Service (\$000's)**

Form ID		Corporate Services	Adjustments				2022 Plan Net Change	2023 Plan Net Change
Category	Equity Impact		Gross Expenditure	Revenue	Net	Approved Positions		
		<b>Program - Technology Services</b>						

21691		Tool to Control Access To Open Data - AU7.13(2a,b), AU4.1						
74	No Impact	<b>Description:</b>						

Increase base budget by new funding of \$96,729 to purchase Cisco Identity Services Engine (ISE) hardware (including Guest Wi-Fi) and Cisco Digital Network Architecture (DNA) Center Appliance. Current network system is Aruba Clearpass which is used for City's Wi-Fi (Guest & City Staff). Aruba Clearpass will be decommissioned starting approximately 2021 Q3.

**Service Level Impact:**

The future service level will add client and server-based access control and authentication protocols to restrict unauthorized clients from connecting to local area networks (LAN).

**Equity Statement:**

This proposal is unlikely to have an equity impact.

**Service:** Computer & Communications Technology Infrastructure

## Appendix 7

## Reporting on Major Capital Projects: Status Update

Division/Project name		2020 Cash Flow			Total Project		Status	Start Date	End Date		On Budget	On Time
		Appr.	YTD Spend	YE Projec Spend	Appr. Budget	Life to Date			Planned	Revised		
Program Name												
Project Name: Consolidated Data Centre		781	752	781	39,040	22,291	On Track	May-14	Dec-19	Sep-20	Ⓢ	Ⓢ
	Comments:	The project is at 80% completion at the end of December 2019 because of a labour disruption that affected completion of the Toronto Water building. The strike ended on June 30th and project schedule was revised with completion in September 2020. Awaiting final billing.										
	Explanation for Delay:											
Project Name Enterprise Work Management System		628	510	628	9,396	6,530	Minor Delay	Jan-13	Dec-25	Dec-22	Ⓢ	Ⓢ
	Comments:	The vendor is currently engaged with solution design and implementation planning is well underway. As the implementation is across multiple divisions, the program was initially split in three phases. Technology foundation completed in July 2020, and the first go live release is in 2021. The road map is as such to minimize implementation risk, allow for comprehensive sustainment planning and maximize benefit realization. Scope has been consolidated and limited to phase 1, with new completion date 2022. Starting with 2021 Budget, this program will be consolidated across the 4 Divisions (SW, PFR, Transportation & TW) to be one program under TSD.										
	Explanation for Delay:	There was a delay in the procurement process by 8 months due to renegotiation of vendor scope and City responsibilities. This consequently delayed selection and scoring. In addition, there was a 4 months delay in the preceding prerequisite work package A (WPA) which pushed work package B (WPB) and deferred the planned/forecasted; hardware, licensing and vendor etc. costs.										
Project Name Enterprise Documents and Records Management		2,950	1,575	1,971	8,398	4,683	hificant Delay	Mar-14	Dec-17	Dec-21	Ⓢ	Ⓢ
	Comments:	Release 2a of the Toronto Records (T-Recs) solution was successfully deployed to production at the end of March 2020. In addition, a small block of physical records data was migrated from the legacy Livelink Records Server (LLRS) to T-Recs for four business units within CIMS. Development of T-Recs Releases 2b and 3 have been put on hold due to the COVID-19 Pandemic. T-Recs Capital Budget reduced due to COVID-19. Open Text tasks were deferred to 2021. The team is re-planning the migration of physical records data from LLRS to T-Recs.										
	Explanation for Delay:	Additional time was invested in determining how T-Recs could satisfy business needs with out-of-the-box functionality instead of customizations. T-Recs Releases 2b and 3 put on hold due to COVID-19 Pandemic response. Restart date for release 2b is unknown at this time. Due to budget reductions, T-Recs release 3 and the migration of physical records data from LLRS to T-Recs defered until 2021.										
Project Name Disaster Recovery Program		886	340	543	4,532	2,002	Significant Delay	Jan-13	Dec-24	Dec-24	Ⓢ	Ⓢ
	Comments:	Disaster Recovery (DR) is being aligned with the Tiffeld Data Centre (Consolidated Data Centre project) to ensure that there is a governance framework that supports the DR strategy and meets our business and IT infrastructure resiliency needs. An updated work plan will reflect this approach.										
	Explanation for Delay:	Project delayed by more than six months due to resource constraints that are being addressed with TSD SMT engagement. New PD is developing a revised scope & strategy definition										

On/Ahead of Schedule  
 Minor Delay < 6 months  
 Significant Delay > 6 months

Ⓢ >70% of Approved Project Cost  
 Ⓢ Between 50% and 70%  
 Ⓢ < 50% or > 100% of Approved

Appendix 8

Summary of Capital Needs Constraints  
(In \$ Millions)

Project Description	Total Project	Non-Debt	Debt Required	Cash Flow (In \$ Millions)									
				2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
Desktop Hardware Replacement - This represents the portion of the LCM Continuity schedule that becomes unfunded in 2021 due to shortfall in reserve	5.38	5.38		5.38

∞ Using 2023 PBF Contributions, figures have been projected for 2024-2030 contributions

Due to increased lifecycle management costs to support growth and increased remote working due to COVID-19, additional pressures are present on Technology's Services Sustainment Reserve (i.e. replacing desktops with laptops). The program continues to work with Financial Planning to manage the reserve balance while budget funding for commitments will be confirmed prior to any expenses being incurred.

## Appendix 11

### Glossary

**Approved Position:** Permanent or temporary positions that support the delivery of City services and service levels as approved by Council.

**Actuals:** An actual financial amount paid (or received) for the delivery of City services (these exclude any commitments to be paid in the future).

**Capacity to Spend:** Ability to spend money along with the capacity to deliver projects as demonstrated by historic spending patterns and approved contractual obligations.

**Capital Budget:** A Capital Budget is the City's plan to acquire / build assets or extend the useful life of existing assets; an example of a capital expenditure is the construction of a new community centre.

**Capital Needs Constraints:** The capital needs that cannot be accommodated within the capital plan that the Division or Agency have the capacity to deliver.

**Complement:** Positions that support the delivery of City services and service levels as approved by Council.

**Efficiencies:** Reductions in the cost of delivering a service without a reduction in service level.

**New / Enhanced:** New and enhanced service changes resulting in an increase in service levels from what was previously approved by Council.

**Operating Budget:** An Operating Budget is the City's annual plan to provide services to the residents of Toronto; the budget includes all revenues and expenses needed to provided services; an example of an operating cost would be the cost to run the TTC subways.

**Operating Impact of Completed Capital Projects:** The additional expense (or savings) and positions needed to operate or maintain a new asset; an example would be the additional expense and staff needed to operate a recently completed community centre.

**Rate Supported Budget:** Budget fully funded by user fees such as Solid Waste, Toronto Water and Toronto Parking Authority

**State of Good Repair (SOGR):** The cost of maintaining assets to ensure they are able to support the delivery of City services and meet service outcomes

**Tax Supported Budget:** Budget funded by property taxes.

**User Fees:** Program generated fee and rental revenue for the use of its services (such as the TTC fare, ice rental fees and various City permits).

**Value Based Outcome Review (VBOR):** The City conducted a Value Based Outcome Review in 2019 for all of its operations and agencies to identify specific opportunities and strategies to maximize the use of tax dollars, enhance its financial sustainability while achieving service outcomes. These opportunities will help the City chart its financial course in the next four years.

**Voluntary Separation Program** – On July 28th, 2020, City Council approved the implementation of a Voluntary Separation Program for staff who are eligible to retire with an unreduced pension providing a lump sum payment of up to three months' salary to eligible employees, subject to the terms of the program guidelines, funded through savings generated from a combination of permanently eliminating vacated positions and/or holding the positions vacant for a minimum of six months.
