

2021 Program Summary

Toronto Water

While we aim to provide fully accessible content, there is no text alternative available for some of the content within these pages. If you require alternate formats or need assistance understanding our charts, graphs, or any other content, please contact us at FPD@toronto.ca.

Description

Toronto Water manages one of the largest water, wastewater and stormwater systems in North America, 24 hours a day, seven days a week.

Toronto Water's services ensure that over 3.6 million residents and businesses in Toronto, and portions of York and Peel have access to safe drinking water, safely treated wastewater and stormwater management.

Why We Do It

Drinking water is delivered to people (residents, businesses, visitors and the Industrial, Commercial, Institutional sector in Toronto and York Region) in a safe and reliable manner to protect public health.

Wastewater is collected from people (residents, businesses and the Industrial, Commercial, Institutional sector in Toronto and Peel Region) and treated in a safe and environmentally sustainable way to protect public health.

Stormwater (rain and melted snow) is collected or diverted to help prevent the risk of property flooding, control erosion and improve water quality to protect public health and Toronto's waterways.

The City of Toronto aims to deliver these outcomes equitably, efficiently and with excellent customer service to help improve the lives of Torontonians and work to earn their trust and confidence.

What Service We Provide

Water Treatment & Supply

Who We Serve: Water account holders and water consumers.

What We Deliver: Supply +435 billion litres annually of safe potable water. Continuous distribution of potable water through +6,100km of watermain and City-owned water services.

How Much Resources (gross operating budget): \$195.791 million (2021)

Wastewater Collection & Treatment

Who We Serve: Wastewater account holders, wastewater producers, public and private landowners.

What We Deliver: Return to Lake Ontario +400 billion litres annually of treated wastewater. Continuous conveyance of wastewater through +5,100km of sewers.

How Much Resources (gross operating budget): \$229.906 million (2021)

Stormwater Management

Who We Serve: Public and private landowners

What We Deliver: Continuous conveyance of stormwater (rainwater and melted snow) through +4,900km of storm sewers.

How Much Resources (gross operating budget): \$43.127 million (2021)

Budget at a Glance

OPERATING BUDGET

\$Billion	2021	2022	2023
Revenues	\$1.415	\$1.443	\$1.474
Gross Expenditures	\$0.469	\$0.475	\$0.484
Capital Contribution	\$0.947	\$0.968	\$0.989
Approved Positions	1,841.3	1,856.3	1,857.3

10-YEAR CAPITAL PLAN

\$Billion	2021	2022-2030	Total
Gross Expenditures	\$1.344	\$13.441	\$14.785
Debt	\$0.000	\$0.000	\$0.000

Note: Includes 2020 carry forward funding to 2021

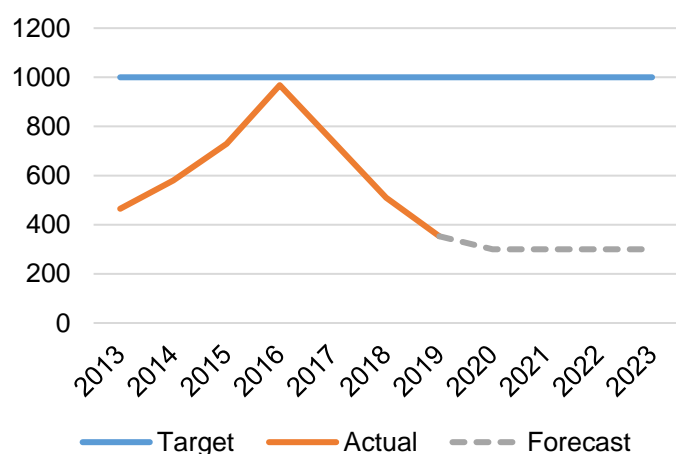

How Well We Are Doing – Behind the Numbers

Watermain Breaks (WMBREP)

- Toronto Water currently operates over 5,500km of water distribution pipes that provide safe and reliable drinking water to the residents, businesses and visitors of Toronto and York Region.
- Toronto Water has made significant capital investments in infrastructure renewal projects (i.e. watermain replacement, cathodic protection and structural lining) that have contributed to the gradual decline in watermain breaks.
- Inclement weather (extreme cold or temperature fluctuations) continues to be the leading cause of watermain breaks followed by excavation activities, corrosive soils and ground settling.
- Toronto Water is investing \$2.2 billion in the 2021-2030 Capital Budget and Plan for capital improvements that will contribute towards ensuring an overall good condition of the water distribution network.

Sanitary Sewer Cleaned (kms)

- Toronto Water currently maintains a wastewater collection network of over 5,600km and invests in Capital Improvement Projects (CIP) to address the renewal needs of aging infrastructure.
- As part of ongoing infrastructure management, Toronto Water performs regular cleaning and maintenance to ensure the reliable operation of its sanitary system.
- In 2016, Toronto Water implemented Acoustic Pipe Inspection (API), which pre-determines whether a particular portion of the sewer needs to be flushed. This process has reduced the number of unnecessary cleanings and has redirected resources elsewhere for proactive system maintenance.
- Toronto Water is investing \$2.0 billion in capital in the 2021-2030 Capital Budget and Plan along with an annual operating budget of approximately \$6.5 million for corrective and predictive sewer maintenance.

How Well We Are Doing

Service	Service Measure	2018 Actual	2019 Actual	2020 Target	2020 Projection	2021 Target	2022 Target	Status
Outcome Measures								
Water Treatment & Supply	Water Treatment Non-Compliance Events	0	0	0	0	0	0	●
Water Treatment & Supply	Target Pressure Limits (Pressure Maintenance)	97.20%	97.00%	99.50%	95.00%	99.50%	99.50%	●

Stormwater Management	Water Course Inlet/Outlet Inspections	3,526	4025	3,000	4,160	3,000	3,000	●

COVID-19 IMPACT AND RECOVERY

2020 Impact	2021 Impact and Recovery
Financial Impact (Operating)* <ul style="list-style-type: none"> • \$23.5 million projected loss in sale of water due to lower consumption from the Industrial, Commercial and Institutional sector as a result of closures/slowdowns in operations. Year-end results can vary significantly due to the uncertainty of sale of water due to consumption levels, a change in consumer habits, and a change in government order or closures. • \$1.7 million in additional costs for health and safety supplies and protocols. • \$6.0 million projected cost savings in salaries and benefits due to hiring slow-down. • Other non-salary underspending due to delay in certain preventative maintenance and discretionary expenses, as well as lower costs in hydro indirectly related to COVID-19. 	Financial Impact (Operating) <ul style="list-style-type: none"> • There is a projected \$19.1 million in loss or foregone revenue in 2021. In response to these financial pressures and the challenges being faced by Toronto residents and businesses a 1.5% rate increase for 2021 is being recommended rather than the planned 3% rate increase (3% is planned for future years). • To manage the 1.5 per cent rate increase, adjustments were made to the operating budget through a combination of efficiencies, reductions and reduced forecasted revenue in 2021 with no impact or deferrals to the 2021 recommended capital program as a result of the recommended rate. • \$5.0 million projected cost savings in salaries and benefits due to hiring slow-down and voluntary separation program; and \$1.1 million savings from cancellation of non-union progression pay. • \$0.9 million in additional costs for health and safety supplies and protocols.
Financial Impact (Capital) <ul style="list-style-type: none"> • Accelerated construction in the right-of-way due to reduced congestion. • Accelerated investment into server infrastructure improvement and desktop virtualization technology. 	Financial Impact (Capital) <ul style="list-style-type: none"> • 2021 requested cash flows updated to align with current delivery forecasts.
Service Level Changes <ul style="list-style-type: none"> • Toronto Water continues to provide safe drinking water; safe collection and treatment of wastewater; and, stormwater management. • All emergency repairs and response continue including emergency watermain break repairs. • Regular and preventative maintenance activities were temporarily suspended in addition to some customer service and public education activities and these services have now resumed (events related to the booking of HTO ToGo water trailers have been cancelled indefinitely). 	Service Level Changes <ul style="list-style-type: none"> • There are no anticipated impacts to service levels as a result of COVID-19 during 2021.

* Projections based on Q2 2020 Variance Report

EXPERIENCES, CHALLENGES AND PRIORITIES

Our Experience and Success

- Long-term \$2.5 billion Don River and Central Waterfront projects now actively underway. Phase 1, the Coxwell Bypass Tunnel, at 10.5km long and 6.3m in diameter, will intercept combined sewer overflows and stormwater discharges from 23 sewer outfalls improving beach, river and lake water quality.
- Replaced/rehabilitated 87km of aging watermains to help reduce watermain breaks and ensure customers have reliable safe drinking water.
- Invested \$28.405 million in upgrades to aging water reservoirs/water pumping stations to ensure safe, reliable storage and distribution of drinking water.
- Replaced/rehabilitated 61km of aging sewers to address state-of-good-repair (SOGR) needs.
- Invested \$176.774 million in critical upgrades to the Ashbridges Bay Wastewater Treatment Plant the second largest treatment plant in Canada serving more than 1.5 million people.
- Toronto Water Customer Care Centre (CCC) implementation is complete. Initiated in 2017 and resulted in \$0.747 million in savings due the reduction of 8 positions. From June 1, 2019 to June 30, 2020 there were approximately 208,744 interactions including: incoming/outbound calls, emails and outbound calls for COVID-19 pre-screening for customer service required for homes/businesses. The CCC allows for the management of a surge in call volumes including the ability to make outbound calls during complex and lengthy severe weather incidents or emergencies.

Key Challenges and Risks

- **Managing Reserve Balances:** Critical need to maintain adequate capital reserves to fund the state of good repair 10-year capital program. 10-year capital plan relies primarily on 3 per cent water rate increases.
- **Aging Infrastructure:** Significant SOGR for underground assets/water and wastewater treatment plants and facilities.
- **Basement Flooding:** Significant investment is required to manage basement flooding across the city. There are complex program challenges including coordination, uncertainty of timing of rain events, acceleration of Environmental Assessments, and a Council approved \$32 thousand per property funding criteria.
- **Planning for growth:** Rapid growth in the city core and mid-town are putting pressure on existing linear infrastructure. Long-term strategies are needed to keep up with growth. Significant groundwater issues have occurred over the past three years as deeper parking structures are being built. As a result of City Council development charge exemptions, \$575.158 million is drawn from Toronto Water's capital reserves to accommodate development growth over the next 10 years.
- **Modernization:** An aging suite of information technology tools and databases require significant investment. Critical need to keep pace with upgraded technology requirements: Geographic Information Systems, enhanced data management tools and artificial intelligence including Enterprise Work Management System.

Priority Actions

- **Customer Service:** Ensure efficient/effective response times for customer service demands including improved customer service culture, technology and infrastructure.
- **Workforce Strategies:** Ongoing development of hiring strategies during the hiring slow down period for critical, vulnerable and hard to fill positions including on-the-job training programs and planning for demographic changes.
- **SOGR:** Continued long-term investment in SOGR projects and reducing the backlog to \$132.304 million by 2030, effectively eliminating the backlog.
- **Growth:** Development of strategy to manage pressure on linear infrastructure in growth areas.
- **Resiliency:** Long-term significant investment in Council approved Wet Weather Flow Master Plan projects to protect the environment and lake, river and stream water quality including \$2.204 billion for the Basement Flooding Protection Program, completion of Environmental Assessments for all Basement Flooding Studies Areas by 2024 and investing \$1.417 billion over the 10 years to implement the Don River and Central Waterfront project, with all project phases forecasted for completion by 2038.

RECOMMENDATIONS

City Council approved the following recommendations:

1. City Council approve the 2021 Operating Budget for Toronto Water of \$468.824 million gross, \$1,415.336 million revenue and \$946.512 million net capital from current contribution for the following services:

Service:

	Gross (\$000s)	Revenue (\$000s)	Capital from Current Contribution (\$000s)
Water Treatment & Supply	195,791.0	619,109.7	423,318.7
Wastewater Collection & Treatment	229,905.6	785,617.5	555,711.9
Stormwater Management	43,127.5	10,609.2	-32,518.3
Total Program Budget	468,824.0	1,415,336.3	946,512.3

2. City Council approve the 2021 staff complement for Toronto Water of 1,841.3 positions comprised of 116.0 capital position and 1,725.3 operating positions.
3. City Council approve 2021 Capital Budget for Toronto Water with cash flows and future year commitments totalling \$7.597 billion as detailed by project in [Appendix 6a](#).
4. City Council approve the 2022-2030 Capital Plan for Toronto Water totalling \$7.188 billion in project estimates as detailed by project in [Appendix 6b](#).
5. City Council request that all sub-projects with third party financing be approved conditionally, subject to the receipt of such financing in 2021 and if such funding is not forthcoming, their priority and funding be reassessed by City Council relative to other City-financed priorities and needs.

2021 OPERATING BUDGET

2021 OPERATING BUDGET OVERVIEW

Table 1: 2021 Operating Budget by Service

(In \$000s)	2019 Actual	2020 Budget	2020 Projection	2021 Budget	Change v. 2020 Projection	
By Service	\$	\$	\$	\$	\$	%
Revenues						
Water Treatment & Supply	588,864.4	614,548.8	600,704.0	619,109.7	18,405.7	3.1%
Wastewater Collection & Treatment	749,591.3	770,181.3	764,370.2	785,617.5	21,247.3	2.8%
Stormwater Management	7,545.8	5,819.5	7,670.4	10,609.2	2,938.8	38.3%
Total Revenues	1,346,001.5	1,390,549.7	1,372,744.6	1,415,336.3	42,591.7	3.1%
Expenditures						
Water Treatment & Supply	200,630.2	203,667.2	189,233.7	195,791.0	6,557.3	3.5%
Wastewater Collection & Treatment	205,812.5	234,585.7	219,459.4	229,905.6	10,446.2	4.8%

Total Gross Expenditures	1,346,001.5	1,390,549.7	1,372,744.6	1,415,336.3	42,591.7	3.1%
Approved Positions	1,678.3	1,841.3	1,841.3	1,841.3		

*2020 Projection based on Q2 Variance Report and Council approved in-year adjustments

COSTS TO MAINTAIN EXISTING SERVICES

Total 2021 Base Budget expenditures of \$468.824 (prior to capital contribution) million gross reflecting an increase of \$24.597 million in spending above 2020 projected year-end actuals, predominantly arising from:

- Slow-down in spending on discretionary, regular and preventative maintenance activities, and a slow-down in hiring as a result of mitigation efforts to address COVID-19 financial impacts resulted in lower projections in 2020.
- Inflationary increases for salaries and benefits, utilities, chemicals and contract services contract cost.
- Annualised costs from the additional 21 positions approved in-year, required to deliver transit expansion projects (Ontario Line, Scarborough Extension, Yonge Subway Extension, and Eglinton West Light Rail Transit), fully funded by Metrolinx.
- Above pressures are partially offset by base expenditure savings arising from a line by line review, other operational savings, mitigation efforts to address COVID-19 financial impacts, and higher revenues from sale of water to Region of York, increase in new water service connections, and other revenue.

The 2021 Operating Budget recommends a 1.5 per cent rate increase. Approximately 67 per cent of Toronto Water's 2021 Operating Budget or 1.9 per cent above the 2020 projected year-end actuals will go towards the annual capital reserve contribution to fund the 10 year Capital Plan.

EQUITY IMPACTS OF BUDGET CHANGES

No significant equity impacts: The changes in Toronto Water's 2021 Operating Budget do not have any significant equity impacts.

2021 OPERATING BUDGET KEY DRIVERS

The 2021 Operating Base Budget for Toronto Water is \$468.824 million gross (prior to capital contribution) or 5.5 per cent higher than the 2020 Projected Actuals. Table 2a below summarizes the key cost drivers for the base budget.

Table 2a: 2021 Key Drivers – Base Budget

Key Cost Drivers	2019 Actuals	2020 Projection	2021 Base Budget	YoY Changes	
				\$	%
Expenditures					
1 Salaries and Benefits	176,938.9	179,697.4	187,541.6	7,844.2	4.4%
2 Materials and Supplies	94,819.6	96,112.8	106,902.2	10,789.4	11.2%
3 Machinery and Equipment	3,151.7	2,767.8	2,835.3	67.5	2.4%
4 Service and Rent	66,552.4	70,300.6	75,474.6	5,173.9	7.4%
5 Contribution To Reserves	10,674.3	10,706.3	10,690.2	(16.1)	-0.2%
6 Other Expenditures (Inc. IDC's)	82,143.7	84,642.3	85,380.1	737.9	0.9%
Subtotal - Gross Expenditures	434,280.6	444,227.2	468,824.0	24,596.8	5.5%
Capital Contribution	911,720.9	928,517.4	946,512.3	17,994.9	1.9%
Total Expenditures	1,346,001.5	1,372,744.6	1,415,336.3	42,591.7	3.1%
Revenues					
1 Sale of Water	1,226,547.3	1,253,711.4	1,289,493.8	35,782.4	2.9%
2 User Fees & Donations	70,696.6	62,691.6	61,899.9	(791.7)	-1.3%
3 Transfers From Capital	7,296.6	8,905.7	9,364.3	458.6	5.1%
4 Other Revenues (Inc. IDR's)	41,461.1	47,435.9	54,578.3	7,142.4	15.1%
Total Revenues	1,346,001.5	1,372,744.6	1,415,336.3	42,591.7	3.1%
Approved Positions	1,678.3	1,841.3	1,841.3		

*2020 Projection based on Q2 Variance Report and Council approved in-year adjustments

Salaries & Benefits: Include inflationary increases on existing salaries and benefits and annualised costs from the additional 21 positions approved in-year to deliver transit expansion projects, which are fully funded by Metrolinx. The above increases have been partially offset by reductions to account for vacancies in 2021 resulting from hiring slow-down, cancellation of non-union performance pay and the voluntary separation program, all mitigation efforts to address COVID-19 financial impacts. Certain positions were also repurposed to better align the re-distribution of work/change within Toronto Water, with no changes to existing services.

Materials and Supplies: Include energy and chemical inflationary increases higher than Consumer Price Index (CPI) and CPI increases on existing material contracts (\$5.202 million), offset by ongoing hydro savings and efficiencies through implementation of various utility conservation oriented initiatives (\$4.487 million). The 2021 budget also include provisions for contingencies and estimates based on fluctuating weather conditions.

Services and Rents: Include CPI inflationary increases on existing service contracts. The 2021 budget also include provisions for contingencies and estimates based on fluctuating weather conditions.

Contributions to Capital: Approximately 67 per cent of the 2021 Operating Budget will go towards the capital reserve contribution to fund the 10-year Capital Plan, representing a 1.9 per cent increase over 2020 projected capital reserve contribution.

Revenue Changes: Include rate increase of 1.5 per cent on sale of water that will go towards the annual capital reserve contribution. Water consumption is expected to rebound as restrictions ease and non-essential businesses return to operations. Additional revenues reflect price of water sold to Region of York, increase in new water connections, private water agreements, and other revenue.

Table 2b: 2021 Balancing Actions

(\$000s)								
Recommendation	Savings Type	2021				2022		
		Revenue	Gross	Net	Positions	Gross	Net	Positions
Reduction in Base Expenditures/ Realignment of Budget	Line By Line		(4,785.1)	(4,785.1)				
Energy Efficiencies	Efficiencies		(4,487.4)	(4,487.4)				
Region of York - Rate and Volume	AG Recs	1,731.1		(1,731.1)			(431.6)	
Revenue Increase (User Fees-Rate and Volume)	Revenue Increase (User Fees)	6,674.2		(6,674.2)				
Revenue Increase (Other)	Revenue Increase (Other)	4,098.9		(4,098.9)				
Hiring Slow-down	Other		(2,762.6)	(2,762.6)				
Voluntary Separation Program	Other		(2,165.7)	(2,165.7)				
Cancellation of Non-Union Performance Pay	Other		(1,115.9)	(1,115.9)				
Total Balancing Actions		12,504.2	(15,316.7)	(27,820.9)	-		(431.6)	-

- **Line-by-Line:** A reduction in base expenditures in materials and supplies and other non-salary costs contributes to Toronto Water's efforts to manage continuous cost increases from internal and external sources.
- **Efficiencies:** Ongoing hydro savings and efficiencies that Toronto Water has been able to achieve through implementation of various utility conservation oriented initiatives.
- **Auditor General Recommendations:** In accordance with the Water Supply Agreement between the City of Toronto and the Regional Municipality of York of January 1, 2019, the expected 2021 wholesale water rate has increased in accordance with the Agreement. The review of the Agreement considered recommendation from Auditor General Office.
- **Revenue Increase (User Fees and Other):** Various user fees and other revenue increased to align to projected actual volume and inflationary rate increases.
- **Hiring Slow-Down, Voluntary Separation Program, and Cancellation of Non-Union Performance Pay:** Mitigation efforts to address COVID-19 financial impacts.

2022 & 2023 OUTLOOKS**Table 3: 2022 and 2023 Outlooks**

(\$000s)	2020 Projection	2021 Budget	2022 Outlook	2023 Outlook
Revenues	1,372,744.6	1,415,336.3	1,442,576.5	1,473,808.8
Gross Expenditures	444,227.2	468,824.0	474,758.8	484,384.4
Capital Contribution	928,517.4	946,512.3	967,817.7	989,424.3
Approved Positions	1,841.3	1,841.3	1,856.3	1,857.3

Key drivers

The 2022 Outlook with total gross expenditures of \$474.759 million reflects an anticipated \$5.935 million or 1.3 per cent increase in gross expenditures above the 2021 Operating Budget. The 2023 Outlook expects a further increase of \$9.626 million or 2.0 per cent above 2022 gross expenditures.

These changes arise from the following:

- Inflationary increases for salaries and benefits.
- Anticipated inflationary increases for utilities, chemicals, other materials and supplies, contracted services, contributions to Toronto and Region Conservation Authority and payment in lieu of taxes.
- Operating impact of capital projects once completed and salaries and benefits for staff delivering capital projects.
- Anticipated 15 additional positions tied to phasing in the implementation of Permanent Surface Reinstatement program and Technology Optimization Strategy, and positions required to operate new facilities and infrastructure and deliver capital projects. **(2022 only)**

Revenues are expected to increase as a result of an anticipated 3 per cent water rate increase in 2022 and a further 3 per cent increase in 2023.

2021 – 2030 CAPITAL BUDGET AND PLAN

2021 – 2030 CAPITAL BUDGET & PLAN OVERVIEW

Chart 1: 10-Year Capital Plan Overview
((\$000))

*2020 Projection based on Q2 Variance Report.

Changes to Existing Projects

- The 2021-2030 Capital Budget and Plan reflects an increase of \$328.376 million as compared to the 2020-2029 Capital Budget and Plan. Key Changes include:
- Increased funding of \$83.770 million to support infrastructure at the Wastewater Treatment Plants.
- Increased funding of \$177.4 million for Trunk Sewer renewal, including increased investment into the Black Creek Sanitary Trunk Sewer project.
- Increased funding of \$149.611 million for the Wet Weather Flow Master Plan, including \$94.515 million to support the Basement Flooding Protection Program, and \$47.531 million for Don River and Central Waterfront.

New Projects

- The 2021-2030 Capital Budget and Plan does not include new programs. Some of the key investments are as follows:
- \$6.849 billion for SOGR projects to ensure the replacement or rehabilitation of aging watermain and sewers and investment in the aging water and wastewater facilities.
- \$5.207 billion for Service Improvement projects including \$2.204 billion in Basement Flooding Protection projects, and \$1.417 billion to support the Don River and Central Waterfront project.
- \$1.056 billion for Legislative and Health & Safety projects
- \$1.673 billion for Growth Projects.

Capital Needs Constraints

- The 2021-2030 Capital Budget and Plan is based on the capacity to deliver (85 per cent spending rate included for planning purposes).
- Toronto Water does not have any unmet needs over the 10-year planning horizon.

Note:

For additional information, refer to [Appendix 6](#) for a more detailed listing of the 2021 and 2022-2030 Capital Budget & Plan by project and [Appendix 7](#) for Reporting on Major Capital Projects – Status Update.

2021 – 2030 CAPITAL BUDGET AND PLAN**\$14.8 Billion 10-Year Gross Capital Program**

				
Plant & Facilities	Underground Infrastructure	Stormwater Management	Basement Flooding Protection Program	Engineering, Yard & Network Improvements

* Toronto Water's 10-Year Capital Plan includes forecasted funding of \$79 million for the expected Toronto Region & Conservation Authority (TRCA) Watercourse Erosion Control project, to be spent between 2022 and 2030. It is assumed that approximately \$53 million or 67 per cent will be funded by other orders of government. The funding has yet to be secured.

CAPACITY TO SPEND REVIEW

The 10-Year Capital Plan has been developed with consideration of historical demonstrated ability to spend within any given year of the ten year capital plan. A review was undertaken to ensure budgets align with Toronto Water's ability to spend and the markets capacity to deliver.

A key component in determining an appropriate level of annual cash flows includes historical capacity to spend reviews by project categories (Chart 2 below) as well as the level of projected 2020 underspending that will be carried forward into 2021 to complete capital work.

Chart 2 – Capacity to Spend

Capacity to Spend Review Impact on the 10-Year Plan

The 2021-2030 Capital Budget and Plan represents Toronto Water's largest investment in infrastructure renewal totalling \$14.785 billion over 10 years. The 2021 Capital Budget of \$1.344 billion (including carry forward funding of \$72.454 million) is higher than the historic 5-year average budget.

Toronto Water's actual spending over the previous five years, from 2015 to 2019, has averaged \$724 million per year. In 2020, Toronto Water is forecasting to spend \$1.079 billion or 91 per cent of the Approved 2020 Capital Budget.

In recent years, Toronto Water has awarded a series of large scale multi-year projects, with approximately \$2.2 billion committed for already awarded works as of October 2020. In addition to regularly scheduled annual construction programs, in 2021 Toronto Water will be awarding approximately \$651 million works supporting the following 7 large projects: Ashbridges Bay Wastewater Treatment Plant (ABTP) Polymer Upgrades and Waste Activated Sludge Upgrades Construction (\$104 million and \$170 million respectively); Fairbanks Silverthorn Tunnel Construction (\$140 million); Highland Creek Wastewater Treatment Plant (HCTP) Biosolids Master Plan (\$93 million); Humber Wastewater Treatment Plant (HTP) Process Upgrades Construction (\$55 million); Black Creek STS Design (\$32 million); and Downsview Transmission Main Construction (\$57 million). The 2021 Capital Budget of \$1.344 billion supports the delivery of current large scale multi-year projects, as well as new projects forecasted for award in 2021.

Based on the review of historical capital spending constraints and a capacity to spend review, \$345.037 million in capital spending originally cash flowed in 2021 has been adjusted to align with current delivery forecasts, including deferrals to 2022 and future years. Key adjustments to the Capital Plan are noted below:

- The *Ashbridges Bay Wastewater Treatment Plant* 2021 cashflow has been reduced by \$52.310 million to reflect updated project delivery schedules for several projects including the Polymer Upgrade, Waste Activated Sludge Upgrade Construction, and Pelletizer Trunk Loading Facility Upgrades projects.
- The *Watermain Replacement* 2021 cashflow has been reduced by \$37.586 million to reflect updated project delivery timelines and project completions.

- The *Sewer Replacement* 2021 cashflow has been reduced by \$24.247 million to reflect updated project scope and delivery plan.
- The *Basement Flooding Protection Program* 2021 cashflow has been reduced by \$58.024 million to reflect updated project delivery schedules. Although the 2021 cashflow has been reduced, the overall 10-year Basement Flooding Protection Program will increase by \$94.515 million (2021-2030). Realignments occurred as a result of a project by project review to identify individual project readiness to tender in 2021 and 2022. Some projects are delayed due to the complex nature of infrastructure design. As well, there have been project schedule revisions due to longer than expected negotiation of acquisitions of easements and lands.
- The *Wet Weather Flow Program* 2021 cashflow has been reduced by \$27.964 million to reflect updated project delivery schedules for several projects including the Western Beaches Retrofit and Bonar Creek SWMF Facility Construction projects.

The 2021 Financial Model assumes that 85 per cent of the net Capital Budget and Plan will be drawn from Toronto Water's Capital Reserve and Water, Sanitary and Stormwater Management Development Charge Reserves based on historical capital completion levels, so as not to overstate actual projected funding requirements.

STATE OF GOOD REPAIR (SOGR) FUNDING & BACKLOG

The chart below depicts the SOGR funding and accumulated backlog estimates for linear infrastructure and facilities in Toronto Water.

Chart 3: Total SOGR Funding & Backlog

\$ Million	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
SOGR Funding	563.538	678.996	855.121	827.546	765.404	721.696	649.544	674.247	615.508	561.129	500.218
Accumulated Backlog Est.	1,472.544	1,368.706	1,097.816	845.862	651.451	493.930	398.778	268.882	181.832	135.047	132.304
Backlog % of Asset Value	5.1%	4.8%	3.8%	2.9%	2.2%	1.6%	1.3%	0.8%	0.6%	0.4%	0.4%
Total Asset Value	28,669.540	28,788.770	29,068.783	29,273.532	30,138.904	31,044.777	31,700.415	32,144.278	32,325.619	32,502.924	33,947.058

*2020 SOGR Funding is based on recent estimates

- Toronto Water's infrastructure is aging with an accumulated SOGR backlog estimated at \$1.473 billion by the end of 2020, which includes both linear (watermains and sewers) and facility/plant infrastructure (water treatment plants, wastewater treatment plants, pumping stations). This represents 5.1 per cent of the total replacement value of Toronto Water's assets, which at the end of 2020 are estimated to be \$28.670 billion.
- The 2021-2030 Budget and Capital Plan allocates a total of \$6.849 billion over 10 years, including \$678.996 million in 2021 (or 51 per cent of the 2021 Capital Budget) to address the renewal needs of Toronto Water's aging infrastructure. This significant investment into Toronto Water infrastructure will ensure continued and reliable service to residents, businesses and visitors, reducing the SOGR backlog to \$132.304 million in 2030, effectively eliminating the backlog.
- Approximately 57 per cent or \$0.842 billion of Toronto Water's infrastructure backlog is associated with aging linear watermain and sewer infrastructure. The 2021-2030 Budget and Capital Plan allocates a total of \$4.429 billion to address deteriorated linear infrastructure.
- Approximately 43 per cent or \$0.630 billion of Toronto Water's infrastructure backlog is associated with the facilities backlog. The 2021-2030 Capital Budget and Plan allocates a further \$2.421 billion for infrastructure renewal projects at water and wastewater treatment facilities. SOGR works at the water and wastewater facilities may include renewal of existing buildings, and process equipment and machinery, etc.

Stormwater management facilities (stormwater ponds and underground storage tanks) are not included in the SOGR backlog analysis as they are relatively new assets, as well as stream restoration from erosion. Restoration of watercourses is planned on a priority basis to protect existing infrastructure and in coordination with the Toronto Region Conservation Authority based on site conditions resulting from extreme weather events.

OPERATING IMPACT OF COMPLETED CAPITAL PROJECTS

The 10-Year Capital Plan will Budget will impact future year Operating Budgets by \$5.167 million net over the 2021-2030 period and an increase of five positions for planned completion of new equipment and facilities.

Table 4: Net Operating Impact Summary**(In \$000's)**

Previously Approved projects

- Increase in operating costs for salaries, benefits, chemicals, energy, utilities and contracted services from previously approved projects at Ashbridges Bay and North Toronto Wastewater Treatment plants and Toronto Island Treatment Plant. In 2022, upgrades at the Ashbridges Bay Treatment Plant (waste activated sludge) will generate savings of \$0.620 million.

New projects

- Increase in operating costs for salaries, benefits, chemicals, utilities and contracted services for plant-wide implementation/construction of ultraviolet disinfection facilities.

Reporting on Major Capital Projects: Status Update

(\$000s)

Life to Date

Division/Project name		2020 Cash Flow (Active Projects)			Total Project Cost (Active Projects)		Status	Start Date	End Date		On Budget	On Time
		Appr.	YTD Spend	YE Project Spend	Appr. Budget	Life to Date			Planned	Revised		
Toronto Water												
St Claire - Reservoir Rehabilitation		428	10	137	32,466	26,941	Completed	Jan-14	Dec-21	Dec-21	Ⓞ	Ⓞ
Comments:		Extensive consultation was undertaken through the design phase to address community concerns regarding park access and restoration. Project is nearing completion with reduced expenditures in 2020.										
Explanation for Delay:												
ROSEHILL PS REHAB (CPW060-11)		813	408	813	7,299	3,896	On Track	Jan-15	Dec-21	Dec-21	Ⓞ	Ⓞ
Comments:		Project delivery is proceeding on track for 2020.										
Explanation for Delay:												
OUTFALL CONSTRUCTION (CWW039-06)		50,720	12,796	50,623	281,278	60,508	On Track	Jan-18	Dec-25	Dec-25	Ⓞ	Ⓞ
Comments:		Construction started in early 2019, and is proceeding on track in 2020.										
Explanation for Delay:												
Don & Waterfront Trunk/CSO Const - PHASE 1 (CWW480-03)		70,000	37,858	75,038	411,255	178,313	On Track	Jan-18	Jan-24	Jan-24	Ⓞ	Ⓞ
Comments:		Don & Central Waterfront Phase 1 construction is proceeding ahead of the forecast in 2020.										
Explanation for Delay:												

On/Ahead of Schedule

Minor Delay < 6 months

Significant Delay > 6 months

>70% of Approved Project Cost

Between 50% and 70%

< 50% or > 100% of Approved Project

Appendix 8

Summary of Capital Needs Constraints

(In \$ Millions)

- The 2021-2030 Capital Budget and Plan is based on the capacity to deliver (85 per cent spending rate included for planning purposes).
- Toronto Water does not have any unmet needs over the 10-year planning horizon.

Appendix 9

2021 User Fee Changes (Excludes User Fees Adjusted for Inflation)

- Toronto Water does not have any other changes to its existing user fees.

Appendix 10

Inflows and Outflows to/from Reserves and Reserve Funds 2021 Operating Budget and 2021-2030 Capital Budget and Plan

Appendix 11

Glossary

Approved Position: Permanent or temporary positions that support the delivery of City services and service levels as approved by Council.

Actuals: An actual financial amount paid (or received) for the delivery of City services (these exclude any commitments to be paid in the future).

Capacity to Spend: Ability to spend money along with the capacity to deliver projects as demonstrated by historic spending patterns and approved contractual obligations.

Capital Budget: A Capital Budget is the City's plan to acquire / build assets or extend the useful life of existing assets; an example of a capital expenditure is the construction of a new community centre.

Capital Needs Constraints: The capital needs that cannot be accommodated within the capital plan that the Division or Agency have the capacity to deliver.

Complement: Positions that support the delivery of City services and service levels as approved by Council.

Efficiencies: Reductions in the cost of delivering a service without a reduction in service level.

New / Enhanced: New and enhanced service changes resulting in an increase in service levels from what was previously approved by Council.

Operating Budget: An Operating Budget is the City's annual plan to provide services to the residents of Toronto; the budget includes all revenues and expenses needed to provided services; an example of an operating cost would be the cost to run the TTC subways.

Operating Impact of Completed Capital Projects: The additional expense (or savings) and positions needed to operate or maintain a new asset; an example would be the additional expense and staff needed to operate a recently completed community centre.

Rate Supported Budget: Budget fully funded by user fees such as Solid Waste, Toronto Water and Toronto Parking Authority

State of Good Repair (SOGR): The cost of maintaining assets to ensure they are able to support the delivery of City services and meet service outcomes

Tax Supported Budget: Budget funded by property taxes.

User Fees: Program generated fee and rental revenue for the use of its services (such as the TTC fare, ice rental fees and various City permits).

Voluntary Separation Program – On July 28th, 2020, City Council approved the implementation of a Voluntary Separation Program for staff who are eligible to retire with an unreduced pension providing a lump sum payment of up to three months' salary to eligible employees, subject to the terms of the program guidelines, funded through savings generated from a combination of permanently eliminating vacated positions and/or holding the positions vacant for a minimum of six months.
