

# Scarborough Waterfront Combined Sewer Overflows Stormwater Outfall Control and Flood Protection Study Addendum

## Municipal Class Environmental Assessment - Notice of Filing of Study Addendum

The City of Toronto has completed a Municipal Class Environmental Assessment (EA) study addendum to update the Scarborough Waterfront Combined Sewer Overflow (CSO) and Stormwater Outfall Control Study completed in 2011. The objective of the study addendum is to update the study considering significant differences in potential flooding and combined sewer overflow identified as part of a technical update completed in 2018. The study addendum identifies solutions to reduce the risk of future flooding, reduce combined sewer overflows and address receiving water quality while allowing renewed public and agency consultations.

Following consultation with Indigenous Groups, Review Agencies, City Divisions and the public, the following highlights the main changes to the study recommendations which were accepted by the City:

- More extensive sewer upgrades or realignment (total 28 km of primarily storm sewers)
- Install up to 6 km of new storm sewers
- Smaller underground combined sewage storage tank at the south end of Warden Avenue to store excessive storm and combined sewage during heavy rain periods
- Eliminate several sewer system interconnections (between storm and combined sewer system)

### Opportunities for review

The study addendum was carried out following the requirements for Schedule C project under the Municipal Class EA. **Please note that only the changes proposed in the Addendum are open for review.** The Study Addendum Report has been placed on public record for a 30-day review period starting May 20, 2021 and ending June 19, 2021.

**The Study Addendum Executive Summary is available for review at [toronto.ca/bf33](https://toronto.ca/bf33) or by contacting the City staff listed on this notice if you would like to receive the full Addendum.**

Interested persons may provide written comments to our project team by June 19, 2021. All comments and concerns should be addressed to City staff listed on this notice and we will attempt to find a mutually acceptable resolution.

A request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study, or that conditions be imposed, only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests must include your contact information and be received by June 19, 2021.

Requests should specify what kind of order is being requested (request for conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request.

The request should be sent in writing or by email to:

**Minister of the Environment, Conservation and Parks Ministry of Environment, Conservation and Parks**

**777 Bay Street, 5th Floor, Toronto ON M7A 2J3**

**[minister.mecp@ontario.ca](mailto:minister.mecp@ontario.ca)**
