

CaféTO

Patios on
Private Property

It's easier than ever to expand or create a patio on private property in Toronto, including parking lots and other outdoor spaces.

Open or expand a patio on private property quickly, and without City of Toronto permission, by:

- Seeking permission from the property owner
- Complying with zoning bylaws
- Planning for structures that do not require a building permit

Full details, including patio requirements, zoning regulations and temporary tent and building permit information are at toronto.ca/cafeto

Add your restaurant to Destination Toronto's [ToGoToronto.com](https://togo.toronto.com), a free listing of Toronto restaurants that are open for safe takeout, delivery and patios.

If you require patio furnishings, the [Ontario Restaurant Hotel & Motel Association \(ORHMA\)](https://orhma.ca) has a promotion at dinesafe.ca
