Humber Creek Restoration West of Scarlett Road

Contract: 21ECS-LU-02SM

Expected Start Date: August 2021 Expected End Date: December 2021

**Timeline is subject to change.*

The City of Toronto is planning to restore a section of Humber Creek upstream of Scarlett Road that has been damaged due to creek erosion. This creek erosion has resulted in the exposure of a sanitary sewer and damage to a storm sewer outfall. The work area is located behind properties on Saxony Crescent and Chapman Road as shown on the map below.

The creek restoration will provide erosion protection to the exposed sanitary sewer by installing armourstone and a new concrete encasement around the sewer. The work will also consist of installing a new storm sewer outfall.

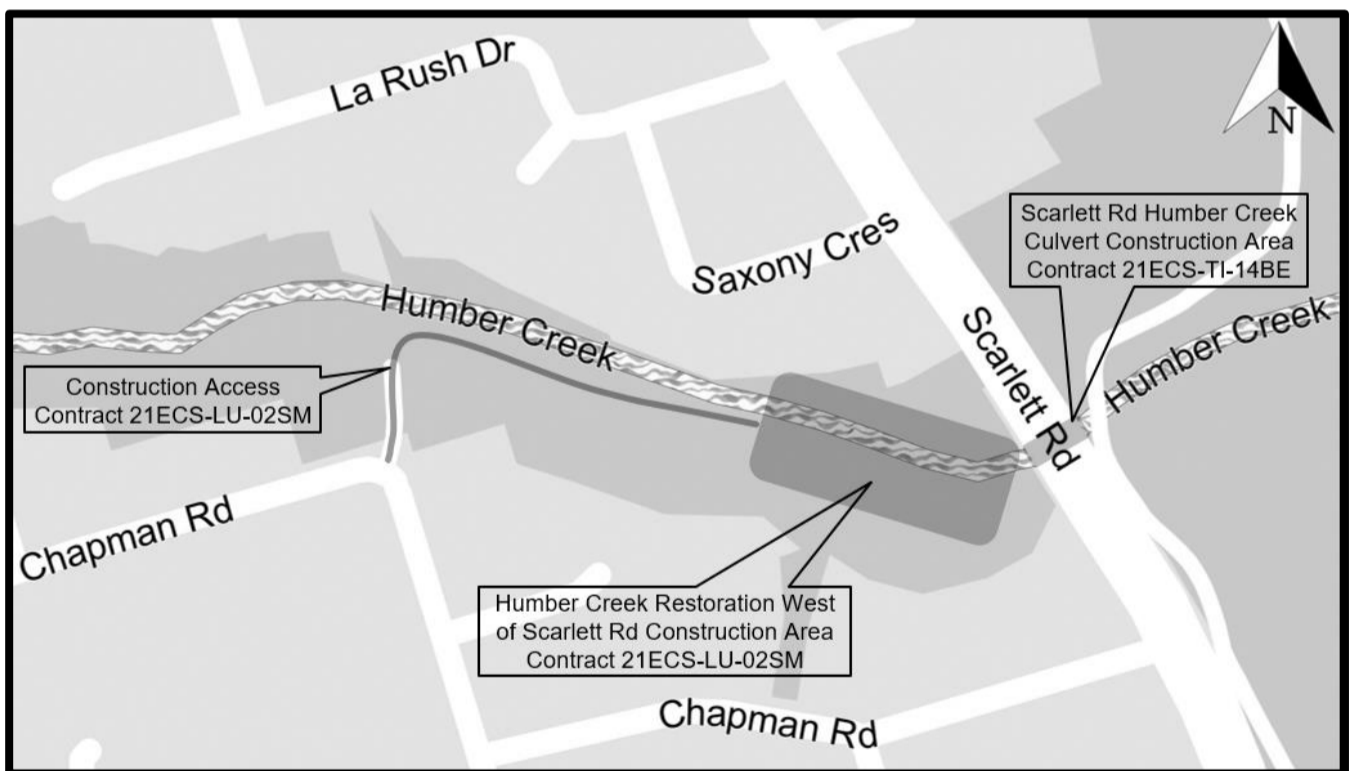

The project is part of the Council-approved 2021 Capital Works Program.

This work will occur within the same timeframe as the replacement of the culvert under Scarlett Road at Humber Creek under Contract 21ECS-TI-14BE. Both projects will proceed in a coordinated manner.

IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

During construction, the respective contractor is responsible for the Health & Safety on each site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit toronto.ca/covid-19.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

The City's contractor will:

- use an existing construction access to the work area off of Chapman Road as shown on the map;
- manage traffic at the construction access entrance off of Chapman Road to ensure construction equipment enters and exits safely with minimal traffic disruptions;
- work within Humber Creek and the valley lands to protect and restore Toronto Water infrastructure and the creek;
- mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities; and
- restrict access to Chapman Valley Park from Chapman Road to Scarlett Road to allow for construction and staging areas.

	<p>Access to Your Home: The City's contractor may need access to your home to complete a pre-construction survey. Affected properties will receive a notice to request a scheduled time to complete the survey.</p>
	<p>Tree Removal: Due to the nature of this project, the City will have to remove trees from public property along Humber Creek. A tree removal permit has been obtained in coordination with the City's Parks, Recreation & Forestry Division. Trees removed for the project will be replaced following construction.</p>
