## Watermain Replacement on Broadview Avenue from Danforth Avenue to Gerrard Street East

**Contract: 21ECS-TI-13SP**

**Expected Start Date: May 10, 2021**

**Expected End Date: Spring, 2022**

*\*Timelines are subject to change and future notice will be provided.*

Unfortunately, due to an ongoing industry wide watermain pipe shortage, construction on the Broadview watermain project will be delayed until such time as the material is available which is anticipated to arrive at the end of July. This material delay will impact the project completion date, which is now estimated to be completed in spring 2022. Current work taking place on Montcrest Avenue has not been impacted by this material shortage and is expected to be completed during the week of June 28.

Broadview Watermain work may not commence until approximately late July or early August 2021. Once all pipes and materials can be secured by our contractor a revised project schedule and a Construction Update will be issued. Our construction team will re-engage with the local community regarding preparing for local construction impacts. During the delay time our contractor will be demobilizing in certain areas along Broadview Avenue to allow for restaurant patios, on street parking, and short term parking for deliveries.

Restaurants participating in the CAFÉ TO program will be allowed to install temporary patios during the construction delay. All other projects scheduled for this area are still on schedule, please see Other Work in Area chart for all project status updates.

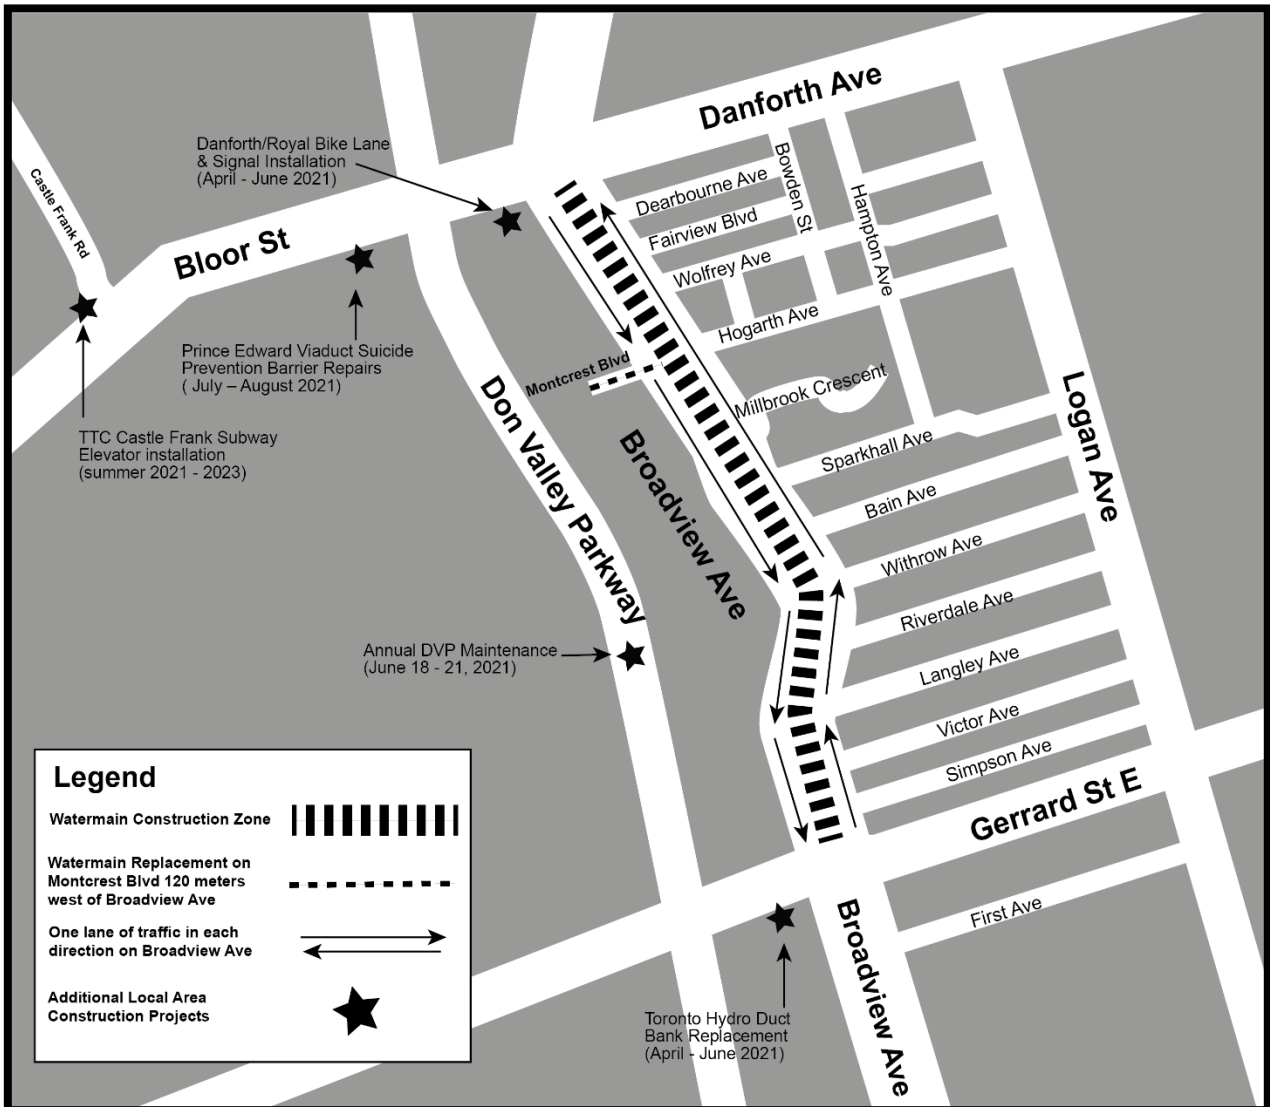

### IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).
