## Road Resurfacing on Carroll Street, Davies Avenue, and Matilda Avenue

**Contract: 21ECS-TI-14LR**

On March 15, 2021 the City of Toronto issued a notice of road resurfacing work taking place in Toronto-Danforth this year. The approximate project schedule is:

**Start Date: June 4, 2021, End Date: July 23, 2021**

These dates represent the earliest start date in the area. If more than one street in your area is being resurfaced, as shown on the map below, then the exact start date on your street may vary. The timeline for construction is subject to change.

As part of the Vision Zero Road Safety Plan, the City's contractor will implement a number of effective road safety measures to help create better sight lines for pedestrians, cyclists, and drivers, shorten pedestrian crossing distances and encourage drivers to move at the speed limit. The measures will be installed at intersections listed below:

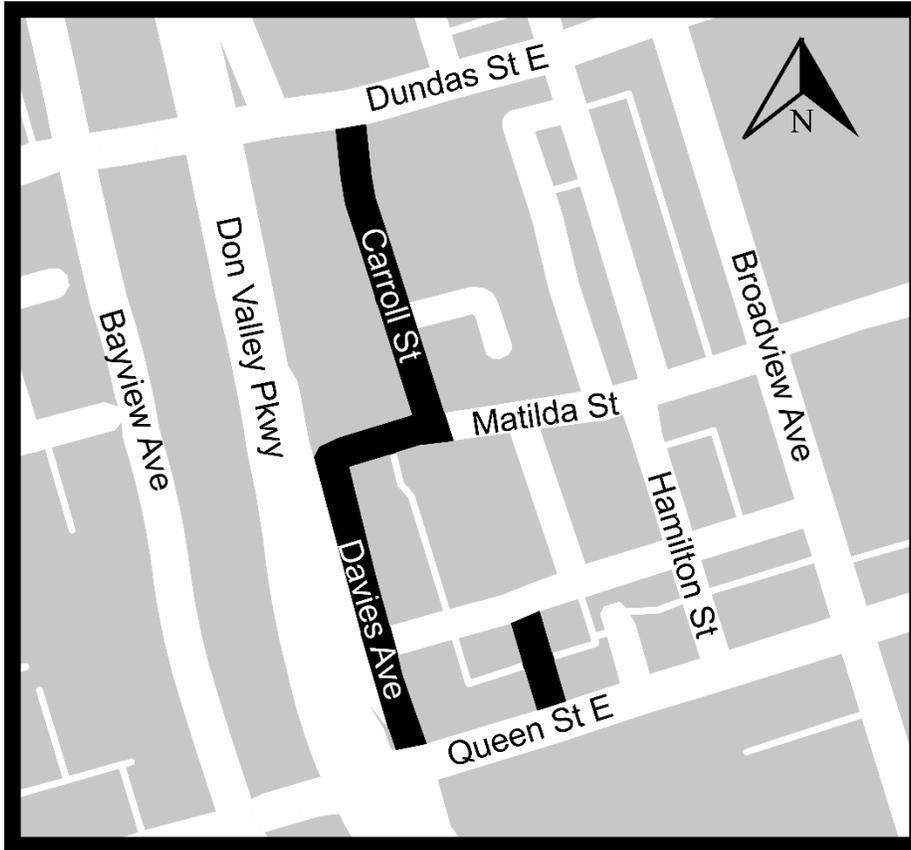

- Carroll Street and Dundas Street East
- Carroll Street and Matilda Street
- Davies Avenue and Queen Street East

The City's contractor will also extend the sidewalk on the west side of Carroll Street up to Matilda Street.

This project is part of the Council-approved 2021 Capital Works Program to renew aging City roads and sidewalk for current and future needs.

### **IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO**

During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

**MAP OF WORK AREA**

**IMPORTANT REMINDERS**

The Pre-Construction Notice issued by the City of Toronto on (insert date of Pre-con notice) contains additional information about construction impacts. To download copies of past Pre-Construction and Construction Notices, please visit the City's website at [toronto.ca/torontodanforth](http://toronto.ca/torontodanforth).

	<p><b>Accessible Accommodation:</b> Residents who require accommodation (level entry, longer notice, etc.) must contact the <b>Field Ambassador</b> to arrange for access during the construction period.</p>
	<p><b>Parking:</b> This project will affect on-street parking. Parking in the active work zone is not permitted as space is needed for construction equipment and materials. If your parked vehicle affects construction work, it will be relocated with no charge to the owner. Please call 416-808-2222 for its location.</p>
	<p><b>Telephone and Internet Services:</b> This work may affect phone and internet cables for individual properties that aren't buried deep below the sidewalk. The contractor will coordinate with utility companies to minimize disruption. Residents who find their service has been disrupted should contact the <b>Field Ambassador</b> <u>and</u> notify their phone or internet service provider.</p>

	<p><b>Parking Violation Notice:</b> If parking enforcement is called to a street, officers must issue a yellow parking violation notice (ticket) to vehicles in violation of parking by-laws. If you receive a yellow notice during this construction work, do the following within 15 days of the notice date:</p> <ol style="list-style-type: none"> <li>1) Contact the site inspector or person listed on the Construction Notice and give them the yellow notice number.</li> <li>2) Dispute the parking violation notice online or in person following the process listed on the back of the parking violation notice.</li> </ol> <p><b><i>You may use this construction notice as part of the explanation of why the violation should be cancelled. Please note:</i></b> violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e. in front of a fire hydrant or in no parking zones).</p> <p>In an effort to reduce ticketing due to construction, please exercise patience with neighbours who are experiencing construction and may need to temporarily park on your street.</p>
	<p><b>Asbestos in Asphalt on Matilda Street:</b> As part of the work, the City must test the removed asphalt for asbestos. Our tests for Matilda Street were inconclusive. As a precaution, the City’s contractor will assume that there is asbestos in the asphalt on Matilda Street.</p> <p>Asbestos was used in asphalt mixes throughout the 1970s and early 1980s to improve the performance of the asphalt. Air quality monitoring conducted by the City of Toronto at other sites has not detected asbestos fibres in the air as a result of resurfacing asphalt. The risk of exposure to asbestos for workers and bystanders is low.</p> <p><b>As a precaution, the City requires the contractor to follow these steps:</b></p> <ul style="list-style-type: none"> <li>• Wet the pavement during asphalt cutting, grinding or removal,</li> <li>• Attach dust collecting devices with HEPA filters to equipment, where possible, to prevent dust from becoming airborne,</li> <li>• Provide personal protective equipment (disposable coveralls and respirators) to on-site workers, and</li> <li>• Transport and dispose of asphalt containing asbestos to provincially approved disposal sites.</li> </ul>
