COVID-19 Screening for children/students/adults

Please complete before entering the child care/JK-12 school setting. A parent/guardian can complete for their child.

Updated March 14, 2022

Name: __________________________  Date: __________________________  Time: __________________________

1. A) Do you or anyone in the household have 1 or more of these new or worsening symptoms, today, or in the last 5 or 10 days*?

   - Fever > 37.8°C and/or chills
   - Cough
   - Difficulty breathing
   - Decrease or loss of taste/smell

B) Do you or anyone in the household have 2 or more of these new or worsening symptoms today, or in the last 5 or 10 days*?

   - Sore throat
   - Headache
   - Feeling very tired
   - Runny nose/nasal congestion
   - Muscle aches/joint pain
   - Nausea/vomiting/diarrhea

   • If the symptom is from a known health condition that gives you the symptom, select “No”. If the symptom is new, different or getting worse, select “Yes”.
   • If there is mild tiredness, sore muscles or joints within 48 hours after a vaccine, select “No”.
   • Anyone who is sick or has any symptoms of illness, should stay home. Seek assessment from their health provider if needed.

   If “YES”: Stay home & self-isolate.

   Your household must self-isolate*

If you have one symptom from Part B, stay home until symptoms improve for at least 24 hours or 48 hours if nausea/vomiting/diarrhea.

2. Have you or anyone in the household had a positive COVID-19 test in the last 5 or 10 days*, or been told to stay home and self-isolate?

   Yes  No

   • If you had a positive test or live with someone who is isolating or awaiting test results select “Yes”

   If “YES”: Stay home & self-isolate.*

3. In the last 14 days, have you travelled outside of Canada?

   Yes  No

   If “YES”: Follow federal quarantine travel rules including required measures for quarantine exempt travellers.

   *You or household members do not need to self-isolate if no symptoms and not had a positive test and either: had a confirmed COVID-19 infection within 90 days***; OR are 18+ and boosted****; OR are 17 years or younger and fully vaccinated**.

   **Fully vaccinated means 14 days or more after a second dose of a COVID-19 vaccine series, or as defined by the Ontario Ministry of Health.
   ***Confirmed COVID-19 infection within 90 days means: if tested positive within 90 days on a Rapid Antigen, or a PCR test AND completed self-isolation.
   ****Boosted means received a booster dose 3 months or more after a primary vaccine series.
**Symptoms include 1 or more symptom from 1.A or 2 or more symptoms from 1.B on the screening tool**

- If you have one symptom from 1.B, other household members do not have to self-isolate.
- If you have one symptom from 1.B AND were a close contact, then self-isolate consistent with a COVID-19 infection.
- If you/your household member’s symptoms are improving for 24 hours AND the person with symptoms never had a positive test AND tests negative on a PCR test OR 2 rapid antigen tests taken 24 to 48 hours apart, self-isolation ends.
- When the person with symptoms completes their self-isolation, they do not need to self-isolate again if other household members become ill.
- Clearance testing is not required. A positive test requires completion of the isolation period even if symptoms are improving.
- For counting isolation days: the day symptoms start (or test date if no symptoms) is Day 0.

**Continue to wear a well-fitted mask in all public settings. Do not visit people or settings at higher risk including where there are seniors or those who are immunocompromised. Avoid activities where you need to remove a mask with reasonable exceptions such as when eating (e.g., when eating in shared space at school/work and maintaining as much distancing as possible). Avoid activities where mask removal would be necessary. If exempt from masking (e.g. under the age of 2 yrs) may return to public settings without masking.**

**If you travelled outside of Canada in the last 14 days:**

- Follow federal requirements for quarantine and testing after returning from international travel.
- Fully vaccinated travellers may be exempt from quarantine but are still required to wear a mask at all times when in public spaces, including schools/childcare, and monitor for symptoms.

This tool is consistent with provincial guidance: COVID-19 School and Childcare Screening and COVID-19 Integrated Testing & Case, Contact and Outbreak Management Interim Guidance: Omicron Surge (gov.on.ca)
