## Project Background

Dieppe Park is located on Cosburn Avenue just east of Greenwood Avenue. The three-hectare park has an outdoor artificial ice rink and skate trail, a lit ball diamond, a multipurpose sports field, a family play zone that includes a children's playground and a splash pad, and a parking lot.

The family play zone, including the playground and splash pad are being updated. In addition to these updates, the City is creating a Dieppe Park Improvement Plan to guide future park improvements. This plan will identify and prioritize future park improvement projects to undertake as funding becomes available. The Dieppe Park Improvement Plan does not include the removal or relocation of any existing recreational spaces. The Improvement Plan will influence:

- Use of the space between the existing ice rink and soccer field as a zone for new, non-permitted uses.
- Circulation and pathways through the park.
- The potential creation, location and design of a new fitness zone.
- Opportunities to enhance existing recreation spaces.

You can learn more about this project at the [Dieppe Park Improvements webpage](#).

## Survey Objectives

An online survey was available from July 22 to August 8, 2021. The survey asked the community for feedback on the proposed design options for the new Dieppe Park Family Zone and the proposed Park Improvement Plan.

The survey received a total of **418 responses**. Some surveys submissions included feedback from multiple people (e.g. entire households). In total **798 people participated** in the survey responses collected.

The survey feedback collected will help refine the designs for the Dieppe Park Family Zone and the Park Improvement Plan.

## Notification

The online survey was promoted through the following channels:

- Facebook and Instagram advertisements targeting area residents
- Promotions through the local Councillor's Office
- Project webpage: [www.toronto.ca/DieppeParkImprovements](http://www.toronto.ca/DieppeParkImprovements)
- Park sign(s) on-site
- Emails to those who signed up for project updates

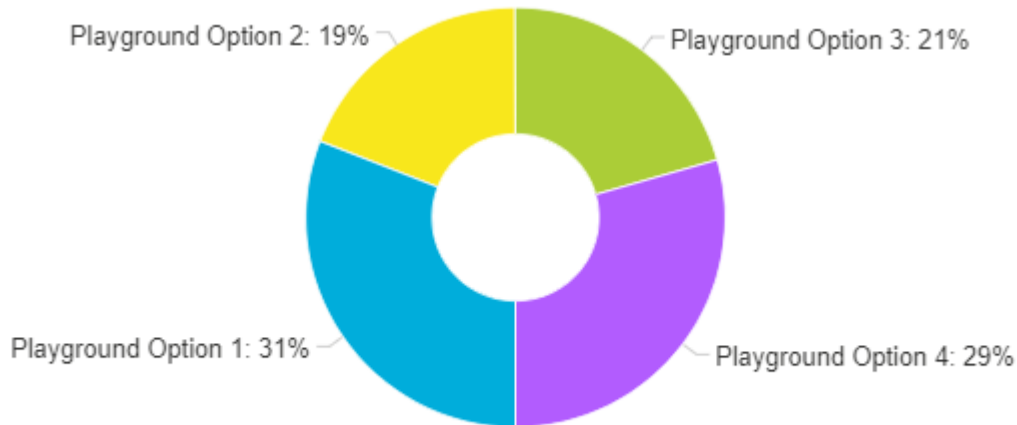

## Key Feedback Highlights

The following presents key feedback highlights from the online survey. Please refer to Appendix A for full results. Please refer to Appendix C for images and descriptions of each playground design option, water play area design option, and the proposed park improvement plan.

### Playground

Survey respondents were asked to rank the playground design options in order of preference. Respondents preferred playground option 1 (31%) and playground option 4 (29%) to playground options 2 (19%) or 3 (21%).

Chart 1: Playground Design Option Preferences

N 316

### Playground Design Option 1

### Playground Design Option 4

### **Playground Option 1 includes:**

- Steel frame swing set with 2 swings
- Steel frame senior play structure (ages 5 to 12)
  - Corkscrew slide (6 ft height)
  - Tree house themed shade roof
  - Animal tracks interpretive play panel
  - Faux wood plank ladder
  - Faux rock feature with den and climbing wall
  - High wire net
  - Accessible transfer station
- 1 spinner seat toy
- 1 riding horse toy
- 1 seesaw toy
- Steel frame junior play structure: (ages 2 to 5)
  - Double slide (3 ft height)
  - Rain sound panel toy
  - Mushroom stepper faux wood grain panels with handrail
  - Tree house themed shade roof
  - Pretend play counter
  - Accessible transfer station

### **The 5 most popular features of playground option 1 include:**

1. The treehouse themed shade roof (41%)
2. The corkscrew slide (41%)
3. The faux rock feature with den and climbing wall (41%)
4. The steel frame senior play structure (ages 5 to 12) (34%)
5. The high wire net (34%)

**When asked what respondents dislike about playground option 1, 47% of respondents said they don't dislike any features of the design.**

### **When asked what respondents would like more of in playground option 1, the 5 most popular responses were:**

1. A larger senior play structure (ages 5 to 12) (30%)
2. Climbing structures/features (27%)
3. Toddler swings (27%)
4. Belt swings (22%)
5. Group swings (19%)

### **Playground Option 4 includes:**

- Tree themed steel Swing set with 2 swings
- Steel Frame Senior play structure (ages 5 to 12)
  - Spiral slide (6 ft height)
  - Curved slide (5 ft height)
  - Faux rock climbing wall
  - Chinning bars
  - Therapeutic rings
  - Fun seat below
  - Climbing timbers
  - Timber themed shade roof
  - Faux Log themed steps
- Junior net climbing structure (ages 2 to 5)
- Rocking egg seat toy
- Animal race panel toy
- 2 leaf stepping toys

### **The 5 most popular features of playground option 4 include:**

1. The faux rock climbing wall (42%)
2. The tree themes steel swing set (34%)
3. The steel frame senior play structure (ages 5 to 12) (33%)
4. The spiral slide (31%)
5. The junior net climbing structure (21%)

**When asked what respondents dislike about playground option 4, 40% of respondents said they don't dislike any features of the design.**

### **When asked what respondents would like more of in playground option 4, the 5 most popular responses were:**

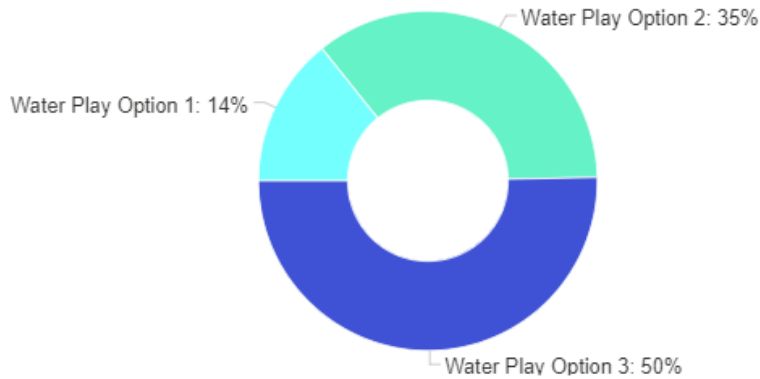

1. A larger senior play structure (ages 5 to 12) (25%)
2. Toddler swings (22%)
3. None (20%)
4. Belt swings (18%)
5. Larger junior play structure (ages 2 to 5) (18%)

## Water Play Area

Survey respondents were asked to rank the water play area design options in order of preference. Respondents preferred water play option 3 (50%) to options 1 (14%) or 2 (35%).

Chart 2: Water Play Design Option Preferences

N 288

## Water Play Design Option 3

### Water Play Design Option 3 includes:

Water Play design option 1 includes:

- Bamboo flower waterfall
- Post with side spray
- 3 water-arch spray jets
- 2 vertical jet sprays
- 1 button on a small stand that users can press to turn the water features on.

### The 5 most popular features of water play area design option 3 include:

1. The sea turtle with buckets (62%)
2. The Daisy post (48%)
3. The 4 water-arc spray jets (36%)
4. The overall layout (27%)

5. The on/off button stand (20%)

**When asked what respondents dislike about water play area design option 3, 63% of respondents said they don't dislike any features of the design.**

**When asked what respondents would like more of in water play area design option 3, the 5 most popular responses were:**

1. None (41%)
2. Water-arch spray jets (25%)
3. Daisy posts (21%)
4. Sea turtles with buckets (20%)
5. Vertical spray jets (18%)

## Park Improvement Plan

The proposed park improvement plan is available in Appendix C. Most respondents were very satisfied (57%) or somewhat satisfied (33%) with the proposed park improvement plan. A few respondents were not satisfied with the plan (6%) while others were neutral (4%) and unsure (1%).

Chart 3: Satisfaction with the Proposed Park Improvement Plan

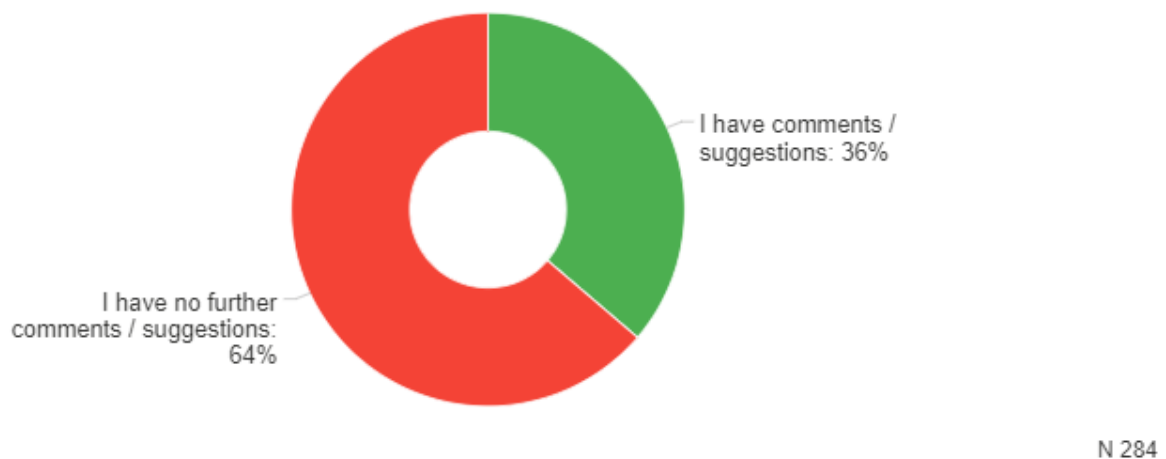

Chart 4: Percentage of Respondents who Provided Final Written Comments or Suggestions

Additional written feedback is summarised below, by theme. Duplicate feedback (e.g. suggesting more swings when this was already captured through a multiple-choice question) is not included. Raw feedback is provided in Appendix A.

## Playground

- Some respondents suggested:
  - Making the playground area larger overall.
    - Two respondents suggested extending the play area south, into currently unused space
  - Making the playground more exciting/challenging/larger for older kids

- A couple of respondents suggested:
  - Making the playground more accessible, including swings and play equipment for all abilities
  - Making the playground appropriate for all ages, including play features and swings for all ages, including adults
  - A design similar to Trace Manes Park playground and splash pad, Withrow Park junior playground, and/or Gledhill Park playground and splash pad
  - Keeping the existing hill between the current playground and splash pad as it is fun for kids to ride their bikes over, or including small hills in the design for toddlers learning to walk
  - Adding a sandbox/ ensuring there is a sand play area
    - One respondent does not want sand included because it is messy
- A respondent suggested:
  - One respondent noted they like wood as a playground material while another does not due to fear of splinters
  - More open play area
  - Including shaded seating south of the playground, and moving the trail west of the playground closer to the soccer and baseball fields
  - Adding seesaws
  - Adding more shade, including trees around or over the playground
  - Greater separation between senior and junior structures
  - Replacing benches with stonewall seating using the existing walls on the east side of the play structure (e.g. Trace Manes Park)
  - Removing the stroller parking, suggesting strollers will be parked close to users, as they require
  - Play structures for kids who are 18 months

### Water Play Area

- Some respondents suggested:
  - A larger water play area or more/more varied water play features overall to increase capacity and be more interesting for a wider range of users
- A respondent suggested:
  - That water jets are used inappropriately and other features (e.g. buckets, waterfalls) should be used instead.
  - One respondent suggested removing the dumping bucket (suggesting they are scary for younger kids) while another suggested making them larger or adding more (suggesting they are a favourite feature for many kids)
  - Including a wading pool
  - Including features where kids can sit in water (not necessarily a wading pool)
  - Including a stem table with flowing water
  - Automatic timing of water features

### Fitness Stations

- A few respondents suggested:
  - The fitness area would be popular and should be expanded
- Specific features suggested for inclusion:
  - Pull-up bars
  - Parallel bars
  - Callisthenic bars
  - Rings

- Two respondents would prefer the space be used for other features rather than fitness stations

### Track

- A couple of respondents suggested including a *running trail/track* (with gentle curves for high speeds) as many at nearby schools' tracks are gated/fenced-off.
- A respondent suggested:
  - Lighting the trail until 11 p.m. to allow for evening use
  - Realignment suggestions:
    - Removing the track from around the flexible play lawn to prevent collisions (there is a nearby track at East York Collegiate)
    - Looping the track around the soccer field instead of the flexible play lawn, including to maintain a quieter space to the west of the flexible play lawn

### Accessibility

- A couple of respondents suggested making the playground more accessible, including swings and play equipment for all abilities
- A couple of respondents suggested improving overall accessibility of the park.
  - One respondent stated this plan would not be accessible for someone who uses a mobility device

### Rinks & Skating Trail

- A respondent suggested:
  - Only allowing family/free skate in the rink instead of hockey, as there is not enough family/free skate times and hockey players have bullied other users
  - Including a cover over the rink
  - Keeping the skating trail, which is used by roller skaters in the warm seasons
  - Preventing noise/loitering by the storage box, which is being moved close to residences
  - Making the rink and skating trail more useable year-round by opening the rink in the summer for pickleball, bikes, scooters etc. and using the skating trail area for a new splash pad

### Park Improvement Plan

- Some respondents suggested:
  - Including a dog off-leash or dog play area
    - A few respondents suggested a dog off leash area replace the proposed flexible lawn area or fitness areas
    - A few respondents noted that the park is often used by off-leash dogs already, and that they have to pick up dog waste from the soccer field frequently
    - One respondent noted they do not want a dog off leash area
  - Including additional seating, including along the skating trail, the perimeter of the park, around the family play zone, and in shaded areas. Seating should include picnic benches (with shade), benches, and rock-wall seating.
  - Renovating/improving washrooms that are open to the public
  - Adding shade throughout the park, including over seating areas, the family play zone, lawn areas, and picnic benches. Create shade using structures and by planting more trees
- A few respondents suggested:
  - Including a skate park (e.g. in the parking lot) or skate features

- Including a basketball court or net(s)
  - One respondent suggested the basketball court replace the flexible lawn play area
- Including more plantings including trees for shade, gardens, and native flowers
- A couple of respondents suggested:
  - Recognising the Indigenous history of the site and culture through:
    - A land acknowledgement
    - Celebrating Indigenous arts, culture and language
    - Tree species names presented in English and various First Nations languages
  - Including a structure that would allow for more year-round use of the park
  - Including a café (to buy food and drinks)
  - Including green bins/bag posts for dog waste
  - Lighting throughout the park until 11 p.m. to enable evening uses
- A respondent suggested:
  - Reducing police presence in the park and parking lot to ensure all park users and families in the neighbourhood feel comfortable and welcome in Dieppe Park.
    - The respondent noted there is an almost constant presence of police in the parking lot, which deters their family and friends' families from spending time in the park.
  - Making the park larger
  - Using real grass instead of artificial turf
  - Ensuring good park maintenance after the improvements
  - Pre-empting desire pathways with paved trails
  - Improving the quality of renderings in the survey
  - Neighbours:
    - Providing greater opportunity for community involvement in the park (e.g. like Dufferin Grove Park)
    - Being conscious of the improvements potential impact on neighbouring homes due to increased noise or night uses
  - Flexible Play Lawn:
    - Providing more clarity of the proposed use and features of the flexible play lawn area
    - Ensuring the flexible play lawn is prioritized for soccer club uses
  - Additional features:
    - Including a dog water fountain and a second drinking fountain on the south side of the park (which includes a dog drinking fountain feature)
    - Including a tennis court
    - Including a small outdoor theatre space
    - Maintain a space in the park that is more quiet and secluded
    - Including a garden or wilderness area to promote outdoor learning
    - Including an adult bouldering wall
    - Including a chess table
    - Increasing the amount of open space available (rather than programed spot-focused spaces and fields)
  - Removing features:
    - Removing the parking lot
    - Removing the Ping-Pong table due to lack of use, and using that space for more popular features

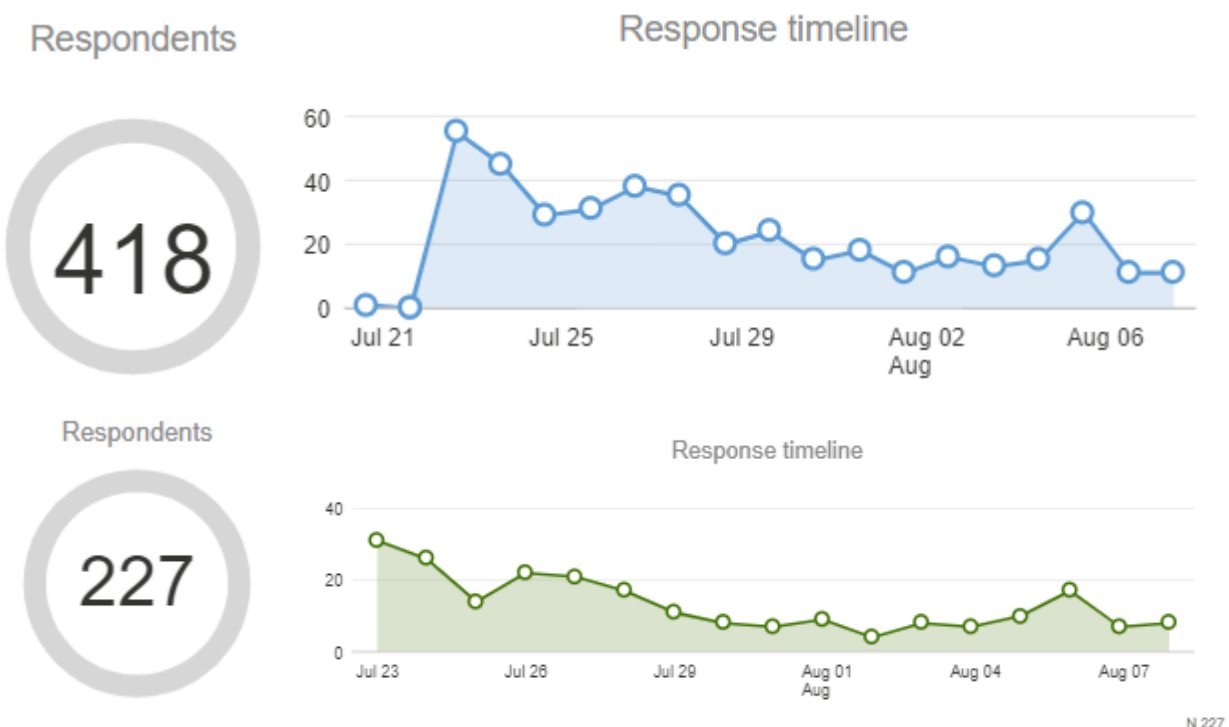

## Appendix A: Raw Response Summary

The graphs below illustrate the raw quantitative data (multiple-choice responses) collected through the survey. The quantitative data is displayed in three sets:

- The data in blue illustrates the results that include all survey respondents
- The data in green illustrates results from respondents who provided the first three digits of their postal code and are within the ward that Dieppe Park is located (M4C, M4J, M4K, M4L, M4M)
- The data in purple illustrates the results from respondents who either did not provide a postal code, or provided a postal code that is outside of the ward.

This quantitative data is presented as outlined above upon the request of the ward's City Councillor.

Qualitative data (written responses) are displayed from all survey respondents, without any sub-groupings.

## Respondents

N 191

**Is there anything you don't like, that you would remove from or change about Playground Option 1? Select any features you don't like.**

**Respondents who selected "Other (List)". (38 responses)**

- Please no sand on the ground. It gets everywhere
- Does not support children with mobility issues to be physically active and/or develop physical mobility skills and independent play
- Few kids actually use the spinner seat. They're impossible to stop by themselves
- Would prefer elements that are more suitable for older kids. I have young children, but they learn/grow/develop quickly and would prefer they are able to challenge themselves.
- May just be the rendering, but having one lone riding horse may not get used as much as two (if possible) for kids to 'ride' together, or, group together with the spinner. Encourages and supports playing with peers.
- Would love to have more than 2 swings
- No swing for toddlers
- Colour scheme
- Bigger layout
- Less plastic
- This park really needs more than 2 swings! They are the most used item at the current playground and we need both baby and big kid swings.

- Needs more swings
- I don't have kids, no opinion on play structures
- 0
- More swings
- Use more natural materials, it's better for children's physical knowledge and connection to nature and natural materials.
- More swings
- I wish there was an opportunity to integrate more swings (two toddler, two belt). These are highly used at Dieppe today and there frankly are not enough.
- Ideally more swings or an option for group play like those large net circles that swing and kids can play together
- More swings. Two is not nearly enough
- I find this option, and all others, very uninspired compared to other modern parks in Toronto
- Add more swings
- Having independent older child and younger child areas is less ideal, and the older child area doesn't leave room on the platform for adults to keep younger siblings safe
- No accessible swing option
- There needs to be at least one swing for handicapped children, so the park can be enjoyed by all
- Add more swings, if possible - older kids love the swings and there are never enough in this park for all the kids at once.
- Needs more swings, 2 is not enough
- would prefer if the double slide was taller
- I don't know what the high wire net is nor can I identify it in the diagram. So it's a maybe
- More swings
- More swings and one for disabled kids
- Dog park
- Needs monkeybars
- this is toooo plasticity maybe change more
- Include more swings
- The caves look like they will be dark and dirty.
- Not actually accessible for anyone in a mobility device...
- not enough shade or trees to cover part of play area.

Is there anything you would like more of in Playground Option 1? Select up to 3 features.

	Count	% of responses	%
Larger senior play structure for ages 5 to 12	125	<div></div>	30%

N 191

**Is there anything you would like more of in Playground Option 1? Select up to 3 features.**

**Respondents who selected "Other (List)". (18 responses)**

- Large merry go round (like at St. James Park)
- large circular swing that 2 kids can sit on
- Right now kids wait in line for the one accessible swing (and no belt swing option which they need, and I would love to see added a saucer swing, where two kids can swing together.
- We need more for the middle school aged children from cosburn middle school that spend their daily lunch breaks at this park
- Small merry go round.
- I don't have kids, no opinion on play structures
- Monkey bars or those nets that interconnect toys allowing kids between 7-10 to enjoy too (they like to go high!)
- Balance beams
- taller structures. Can use more vertical space for the older kid structure?
- Garden or nature area for investigating
- More accessible things for handicapped children
- Dog park
- More nature spaces with plants that kids can observe
- Larger rock climbing wall
- Needs monkeybars
- Trek fit station

- Actual accessible equipment
- shade and at least one tree

**What do you like most about Playground Option 2? You can pick up to 5 features.**

**Respondents who selected "Other (List). (18 responses)**

- Tggg
- N/A
- Do not like any features

- The fact that it is wood
- The use of natural lumber is great and interesting to kids
- I don't have kids, no opinion on play structures
- I don't like that the material of the playground is wood. Can cause a lot of splinters
- n/a I do not like this layout.
- natural aspect, aside of that I do not like these - seems a bit boring for kids
- None
- I dont like the idea
- Overall dislike this entire option
- Needs something for handicapped children. Even a swing would be great. Right now it seems exclusionary
- n/a
- Dog park
- Wooden and stone objects for playing on
- I don't like the wood. Easier to get slivers.
- Nothing

**Is there anything you don't like, that you would remove from or change about Playground Option 2? Select any features you don't like.**

**Respondents who selected "Other (List)". (34 responses)**

- Not accessible for children with mobility issues
- This playground is too old for the younger kids as there's many age groups that can't balance and that's the majority of the activities here with the logs
- This style is not my favourite. The majority of the elements require a lot of parent assistance and balance which many kids won't have yet (great for older 5+).
- Hard to see kids at the top of the slide
- I would want to confirm that the slide does not get too hot in the sun.
- Wood will Roy scrap the idea
- Not enough for younger children to play on
- Looks plain
- Needs more than 2 swings, and needs both toddler and big kid swings
- I worry the natural wood will be vandalized/carved
- I don't have kids, no opinion on play structures
- Natural climbing structures are proven to be better for children's growth, exploration and curiosity. Please pick the natural one. It's better for the children and is a step in the right direction
- not that i don't like it , but parents would find the log area dangerous for there kids.
- Natural wood will need to fix and maintained on a regular basis
- Lacks climable verticality
- There are many young children in this area - and families with multiple children of varying ages. Having this set up as a park with a playstructure for mostly 5+ year olds seems very dangerous.
- Like option 1 better
- I would like separate play for toddlers a e more senior kids
- These builds don't weather as well as we think. La Mosaïque Elementary School (Queensdale Ave / Linsmore) will be removing theirs shortly.
- The layout of this one is extremely poor
- not enough options for kids. Very simple playground so wouldn't choose this option
- Not enough swings
- Needs to be more friendly to children with special needs
- Monkey bars
- would like to see more slides
- We need a dog park
- So boring to play on!!! There is one at Mosaic French school and the kids are never on it.
- I like option 1 much more than option 2.
- Don't really like it
- Not much for younger kids to do
- Not accessible at all
- Everything
- What is the anticipated lifespan of a natural playground? I like the idea of a natural playground equipment but not confident the City of Toronto is competent to ensure the usability is comparable to structures build with engineered materials
- not enough trees or shade

## Is there anything you would like more of in Playground Option 2? Select up to 3 features.

### Respondents who selected "Other (List). (16 responses)

- Again, would prefer more features and more challenging elements. Taller slides, higher climbing structures, etc
- I don't like this design
- Do not like at all
- We need more for the middle school aged children from cosburn middle school that spend their daily lunch breaks at this park
- I don't have kids, no opinion on play structures
- Interactive play-things for accessibility
- We lived near Riverdale park which has something similar. Our kids did not take to playing with this kind of structure - it is more for older kids.
- Monkey bars
- Convert wood structures into creative shapes. Eg. Big log in the shape of a long carrot more brightly coloured wood objects
- Music
- Garden area
- More dog park
- Rick Climbing wall
- Needs monkeybars
- Trek fit station
- Don't like this

## Is there anything you don't like, that you would remove from or change about Playground Option 3? Select any features you don't like.

### Respondents who selected "Other (List)". (27 responses)

- Not accessible for children with mobility issues
- Don't like anything
- The senior structure seems smaller/less fun than in Option 1. At this age kids want to be climbing, up high, go down tall slides, and have lots of options
- Not challenging enough for older kids
- Would like to make sure slides don't get too hot after a full day in the sun.
- Swings for toddlers
- We need more than 2 swings! And we need both toddler and big kid swings
- I don't have kids, no opinion on play structures
- Add more climbing features for 7 to 12 yo
- There's probably more empty space than is necessary. Maybe extending one of the play structures by making the bridge on it longer would be worthwhile. I remember always thinking bridges on climbing structures were cool especially when they were rope bridges that moved as you walked across them.

- I rarely see the spring toys being used at most parks. If they are, its for seconds, feels like a waste of space.
- Not a fan of this aesthetic
- wood option is bad
- Like Option 2, unlikely to weather as well as synthetic materials.
- I Looks boring
- No natural wood
- More slides
- Needs accessible things for handicapped children
- Needs more swings!
- I would add monkeybars
- Both Sr. And Jr. Play structures appear geared to younger kids - kids may grow out of park features too quickly.
- No changes but I prefer option 1
- How about a dog park
- I like option 1 more than option 3.
- Needs to be bigger
- Again, not actually accessible
- i would add more shade or trees

### Respondents who selected "Other (List)". (16 responses)

- Ramsden park has a nice play structure... can you please refer to that park for ideas?
- More elements and more challenging elements
- I'd like to see more of a contrast between the junior and senior structures
- We need more for the middle school aged children from cosburn middle school that spend their daily lunch breaks at this park
- I don't have kids, no opinion on play structures but agree things should be accessible!
- High climbing structures
- taller structures. Can use more vertical space for the older kid structure?
- More swings
- Slides
- Where is a dog park in this plan
- Nature and flowers
- Needs monkeybars
- Trek fit station
- less wood
- Not a fan of the wood
- i would add more shade or trees

## Is there anything you don't like, that you would remove from or change about Playground Option 4? Select any features you don't like.

### Respondents who selected "Other (List)". (26 responses)

- Not fully accessible for children with mobility issues
- A better range of play structures for both ages. This is much smaller than the current play structure and wouldn't be enough
- It's missing a see-saw
- In this neighbourhood I think it's ideal to have separate junior and senior play structures that can accommodate and also grow with the kids here. The park gets busy on evenings and weekends and this design dedicates a lot of space to two swings and a big climbing net that many kids won't be able to utilize without caregiver assistance.
- Toddler swings
- Seems very junior
- I think the racing toy and egg seat will both be destroyed very quickly with vandalism. Not worthwhile. We need more than 2 swings! And we need both toddler swings and big kid swings.
- I don't have kids, no opinion on play structures
- Colour scheme
- Don't use faux wood!! Just use real wood!
- Not enough swings
- Would love for more options for toddlers
- The materiality, but the layout of this structure makes more sense
- Not enough for under 5 you
- Junior net doesn't connect to anything

- Not a lot of opportunities for open ended play
- Again handicap accessible and a swing for handicapped children
- Need more swings
- Prefer option 1
- What about giving us a dog park
- I like option 1 more than option 4.
- I dislike steel
- Once again, not actually accessible.
- Lack of things to do
- Need a bigger area for younger kids
- Appears to have fewer play options compared to other proposals

## Is there anything you would like more of in Playground Option 4? Select up to 3 features.

### Respondents who selected "Other (List)". (15 responses)

- Larger climbing structures, more suitable for older children, poles, higher climbing nets/structures. Features that kids can grow into.
- steps instead of those wood step things.
- We need more for the middle school aged children from cosburn middle school that spend their daily lunch breaks at this park
- I don't have kids, no opinion on play structures
- High climbing structures
- there needs to be more options for the juniors. A single net isn't much for the kids of that young age to play on
- Garden area, hammocks
- Great for older kids but completely misses the mark for ages 2-5
- Maybe if the steel frames could be changed to natural wood
- More features for 2-5 years from option 3 please
- A dog park
- Needs monkeybars
- Trek fit station
- Climbing rope structure (like at withrow park)
- All of the above

- Rrr
- Don't like this layout - feels very basic.
- none
- Please keep the soccer field I live 1 min away and more people use the soccer field and baseball diamond then the splash pad and playground combined
- Nothing. Boring.
- it's wayyyy too small
- Grass around outside means it's not actually accessible to anyone with mobility device
- this is tiny how are kids supposed to run around

### Respondents who selected "Other (List)". (22 responses)

- Vv
- It seems like vertical elements on the floor that require good water pressure to shoot up from the ground are the first to falter as the splashpad ages. This design dedicates 1/3 of the space to ground shooters which I feel like not set it up for success over time.
- its kinda boring
- Kind of boring
- Seems plain
- Just too simple. Needs more features.
- It's generic
- Need more than 1 button stand
- Small compared to the other designs ?
- The ground looks boring. Maybe a more organic and less flat shape would be better
- I don't like this - there are barely any interesting items
- Why is it a circle, maybe look towards the splash pad in Leaside it is more creative
- Animals that spray
- like to see water features more spread out to accommodate more kids
- Small
- Nothing remove as its very simple
- Too small not enough variation
- It's cramped
- Not actually accessible
- All is good
- More sprays
- tiny fits inly a few kids

Select up to 3 features.**

**Respondents who selected "Other (List)". (33 responses)**

- Fg
- Misters
- A larger structure
- More exciting/varied features
- Visual interest
- Just needs a few more features. Too simple
- No opinion
- A few low spray jets for babies and toddlers
- Wider area

- Overhead spray
- Larger splash pad
- just more diverse features. maybe a bucket that falls down like we once had?
- a more interesting splash pad space
- more interesting design
- waterfall
- Animals that spray-
- Wading pool with built in seating
- More of everything. This is Unimaginative and boring.
- Misters
- this seems small and not much different from what is currently there
- Don't like it
- More space
- I would like more space in the layout between features
- More features for kids to spread out utilizing structures nearby. Shade structure roof for waterfall for example from Trace Mains Park
- Splash pad
- bucket dumpers
- it's small
- It's so small compared to the current splash pad at dieppe
- Accessibility
- More interactive play options
- Arch or dome
- Larger footprint
- the size its too small the cyrreny splash pad is much bigger

### Respondents who selected "Other (List)". (19 responses)

- Greater variation of options
- i have no idea what an aqua sphere is.
- Boring
- Maybe less than 6 arch spray?
- Nothing
- Seems small
- Need more than 1 small button stand
- Needs to be larger to accommodate the need of kids in the area
- kids will sit on the aqua sphere constantly. it will be slippery and dangerous.
- could have more added to it
- loop usually gets clogged at water parks
- The button system currently is not very accessible, where will the button be located!
- Is it possible to add more water features maybe from the other options?
- Would add more features
- would like to see more room for water play
- Not sure
- Better features than 1 but would like additional water features as describe in option 1 comment
- it's wayyyy too small

- too small kids need larger area to tum around

Select up to 3 features.**

**Respondents who selected "Other (List). (25 responses)**

- Side sprayers
- More visual interest
- Side spray?
- Horizontal spray like the existing splash pad has at the east wall
- Area with lower jets for babies and toddlers

- More water activities- not big enough with the number of kids in the area
- double dumping bucket
- I would love to see a water table (like at Sackville Playground)
- two dumping buckets instead of one
- side sprays, vertical sprays
- Wading pool with seating
- Again this seems too small
- one more water feature instead of aqua sphere
- Larger in general and better theme
- S
- more variety in water jets
- Bemching on top of concrete wall like at Trace Manes Park. More Veritical sprays out of the oncrete floor
- Bigger water play area needed
- Buttons to turn on various features
- more activities
- Another button
- Animals that spray water (like Adams park)
- More Variety of different direction sprays
- Post with sprays
- more space and doft surface

- The buckets
- None
- add more jets of one other small feature on the side opposite the daisy (turtle in the middle flanked by daisy and another feature).
- Like it all
- Seems small
- Need more than 1 stand
- Make it bigger - more water options
- All this image shows is spraying water features
- Looks like birds will enjoy sitting in it in off season
- Combine sphere with this layout
- more room to play
- Grassed area will just be mud.
- S
- Generally large
- Like the turtle theme but not the buckets
- buckets are too overwhelming for very young kids

Select up to 3 features.**

**Respondents who selected "Other (List). (19 responses)**

- An aqua sphere with low pressure water like in option 2.
- more jets
- Add horizontal spray
- Area with lower jets for babies and toddlers
- Dumping bucket
- More water activities
- Other interest like a dumping bucket
- A dumling bucket would be cool

- the buckets could be really scary for younger kids.
- dumping bucket
- Sphere
- aqua sphere, horizontal sprays
- Buttons
- Indigenous art, figures, wading pool
- This seems to have enough space for a lot of kids to get wet and enjoy the park!
- walk through loop
- Rubber vs grass
- it's tacky
- Walk through loop

Please share your comments/suggestions on:

### The park improvement plan

- The area with the ping pong and exercise track is used constantly by kids sports teams. It is not viable or safe to have a track around the edge of this space. People already used the East York Collegiate track just a few mins away. The one soccer field isnt enough and more informal grassed spaces are needed (retain whats there south of the ice rink). If that area is too crowded, clubs wont be able to operate.
- Make sure there is a lot of shade areas throughout, especially in areas where parents watch kids play (specifically soccer pitch and baseball diamond, and playgrounds). Would be great if you could add at least 1 basketball net somewhere.
- The plan is lovely :) but once again I wouldn't feel great about having my children play next to multiple police cars in the parking lot, as is almost always the case at Dieppe.
- While Dieppe is not a dog park, MANY people bring their dogs multiple times a day. Having a cubby post for the community to leave dog waste bags, would be greatly appreciated and utilized. Even having a separate dog waste trash bin.
- Not sure I understand what is proposed in the open activity portion between the skating area and soccer field.

- I'd like to see a running trail and removal of parking. The plan is lacklustre but attempts to work with what the budget was
- Why add another natural turf field area? There's already a huge soccer field. Why do we need another one? Why isn't this being made into a basketball court?
- For adult fitness equipment please ensure that there are pull-up bars and parallel bars. You can get a great workout with them and they're extremely popular. At the Parkette near woodycrest and Danforth they're in constant use. Also please consider likely walking routes when planning walking paths. Otherwise people will make their own paths regardless and wreck the grass. Love the idea of a running path, especially since a lot of the running tracks at local schools are fenced off. The closer you can make it to a proper track for training, the better. (Gentle curves for high speed reps, etc).
- Bigger
- There are numerous dog owners in the area now and the neighbourhood sorely needs a dog park. The area where the proposed fitness structure/running loop is would be perfect for a small off leash area. Without a dog park at Dieppe people have to go down to Withrow Park, Greenwood Park, or down into the valley - all extremely inconvenient and far from the neighbourhood. People have other options for running- there is a track at the school at cosburn and coxwell. There are no off leash dog parks.
- I believe we need more exercise equipment
- More free use space, rather than sports fields.
- More shade
- The Track, If you are going to add one, it must be at the existing soccer field. the open space in that area is a personal creative zone for people where they can play in a more secluded spot away from people. its way its so popular. keep the track away from it ( my opinion obvi
- Why not turn the family ice rink loop into a summer splash pad and move pickleball to the ice rink that is unused all summer? Or why can't the ice rink be open for kids to learn how to ride during the summer or ride scooters. I saw many ice rinks that turn splash pad during the summer and they are so much fun for the entire family.
- Calisthenics bars
- More picnic benches with shade
- More trees
- I think a fenced dog park should be considered in place of a flexible play lawn - there is already a lot of play space and not enough allocated green space for dogs in this area
- Need a dog friendly area. There are A LOT of dogs at this park, it would be nice to have a small fenced area in the park for dogs to enjoy.
- There is a demand for off-leash dog areas as there aren't many in East York. Many dog owners live in the area and frequent the park with their families. It will be a better utilized space than the outdoor fitness structures. Not many people use them as people don't want to touch equipment that they cannot clean. The track is a nice touch.
- I just wanted to reiterate that I like the idea of including fitness areas
- We would like more greenery and seating areas.
- It would be great to have adult fitness structures like pull up bars and rings. It would also be great to have a designated area for a dog park so that the dogs aren't using communal space like the soccer pitch to do their business on. I have picked up after dogs many times before having to play ball with my kid.
- Area for selling coffee and snacks and More shaded / covered seating areas to be used whole year
- It would be nice to have a basketball court area or a public tennis area.
- Love the improvement plan. Would be nice if the city could add in more outdoor fitness equipment, maximize the space around the park to add additional amenities

- More shaded seating areas needed. Don't require benches/chairs but shaded lawn areas for families to enjoy during the day would be well utilized.
- Maybe there could be green bins available at the park for dog poo or a baggie post (where neighbours can put bags in to be shared). Also at least one more water fountain with dog fountain on the south side of the park
- Would be great to see an Off-Leash Area for dogs / Dog run area
- Consider whether some form of small outdoor theatre can be incorporated as part of the plan.
- Unfortunate that there are no plans to improve the washroom facility or to introduce a basketball court
- This park is a central point for this residential area and the pandemic has shown that more so than usual. The improvements look like they will greatly improve the space and I'm happy to see that the plan includes spaces for all ages and interests and is not just focused on small children and sports, as it currently is.
- There should be a structure to allow use of park throughout the entire year. A place that sells food/drinks should be included too.
- notice a lot more of built structures/zones close to the residential border of the park on the west side, than is currently there.. Hope noise, and night-time concerns would be taken into account prior to building these.
- Dufferin Grove Park has some great ways for community involvement rather than just a place to come and go. Any opportunities to do the same here?
- dog park
- Please continue to use grass. No plastic turf!
- More seating benches
- Add basketball court, add dog park
- Chess boards
- Please devote more space for outdoor gym / exercise equipment area, it will be popular
- I believe the walking track would serve people better if it looped around the soccer field rather than the area in #6. The path should go around the field and meet up with the exiting path. There should be lighting around the walkway until 11pm so people can walk in the evenings. The playground area should also be expanded. I know it's hopeless to even suggest an off leash area for dogs but the park is being used for that purpose in any event- it may as well be formalized. Thanks for your work- look forward to seeing the changes.
- A dog park
- Not sure the fitness zone would leave enough room for families to enjoy the park
- There should be more space for dogs or at least dog water fountains
- The odds of people actually bringing ping pong equipment to play are very slim, that space could probably be used for something else. Also rather than turf, a fenced dog park could be there as there is a need for a dog park in this area. Also, kids can use the other soccer field to play on when there aren't games going on so it's not like there isn't anywhere else for them.
- Dog park. The overwhelming cry at all meetings has been for a dog park and yet that was totally ignored
- Adult bouldering wall
- Enclosed dog area with dedicated water and waste needed. Could replace flexible play area.
- More shade and structure to allow all year use

## **The playground**

- Please please please do not make the bottom of the playground sand. It is a mess! Especially when there is a splash pad nearby. It gets everywhere and there are better options for the ground of the playground (the soft foam material is so much better).
- Please design the playground so that it is better suited for older children. Although there are many young children (I have 3 myself), they grow and develop quickly and something more challenging will hold their interest longer. Higher climbing structures, higher slides, etc. There are many great examples of playgrounds that have compact structures with many varied options for play: Gledhill, Trace Manes, junior playground at Withrow park to name a few.
- We NEED more than 2 swings! It is the most popular feature in the current playground and kids are always waiting. This is a frequent complaint that I have heard from many community members and we assumed that this revamp would add swings!! I'm so sorry to see that it hasn't and I'm afraid it's going to miss that obvious win. The swings are SO important!!! We need toddler swings AND big kid swings.
- I like the idea of having two structures for younger and older kids but wish it was 18 months for the play structure as I see a lot of young children at the park. I also wish you would extend the play structure further south if possible as a larger area with more swings etc would be better.
- Bigger
- Dedicate more area to structures for older kids 7 to 12yo. As ones for the under 5 yo, are outgrown very quickly and even my 3 yo is already playing with big kid structures.
- I feel there need to be more than 2 swings.
- Larger playground
- All options need more swings
- Compared to a lot of the playground that I remember particularly fondly, a lot of those that're proposed feel lacking. Larger structures with, more to climb and areas to run around that aren't just on the ground beside the structures we're all great in older structures. As well as the wooden construction of older structures vs the often plasticity and more sanitized feeling to newer structures.
- Needs to be larger, more obstacle courses theme! There is not enough to keep kids engaged specially kids age 7-12. Monkey bars, nets, climbing structures, obstacle course and challenging areas for older kids. Would be nice to see a larger area used, some toys south of the existing shade structure for older kids.
- Swings & slides for older kids/adults. better flow/more open play area
- Need it to be bigger
- Larger playground area
- Instead of putting in benches, can you build seating into the concrete walls that current exist along the east side of the play structure and splash pad (see trace manes park for example). Also would be nice to have hills for the little toddlers learning to walk. A larger/taller climbing structure would be great for the older kids
- All options were missing sandbox which is hugely popular in all playgrounds. Also, the junior (age 2-5 structures) were all lacklustre. The playground structures for toddlers and older kids need to be larger with more swings. And net structures are a waste of space. In every busy playground they are always empty.
- 3 swings should be the minimum in the structure if possible
- Can some of the innovation at Trace Manes Park playground and splash pad design be incorporated?
- There is quite a bit of space that is not utilized south of the playground along the east side of the park down to Memorial. Perhaps some feature such as shaded seating there. Also along the water park east side where there is concrete retaining walls. Benches could be added similar to Trace Manes Park. So there is substantially more seating. And free up the area west of the playground to move the path further west closer to the

soccer and softball field, taking out existing and purposed seating near the path. And expand the playground area and splash pad area.

- A bit larger
- Include more swings including for ages 2-5
- Make something that is to be enjoyed by all ages and have better options for swings with seat belts
- I think the playground shouldn't be wood. Wood can potentially give children slivers. I think having swings for all individuals and having a playground catered to all age groups and a play area that is accessible for any individual would be great.
- The little hill between the current splash pad and playground is fun for kids to ride their bike over (after hours when there aren't kids there). That should be left there!
- Please make it actually accessible and work with a person with disabilities to make it actually accessible. Also, consider fencing in the play areas for safety
- I would like to see 2 big structures for the different age groupings (2-5 and 5+) and lots of swings. I find 2 swings is not enough.
- more seesaws please
- the playground does not appear to have any shade or Tree around
- Greater separation between structures for younger children and older children

### **The water play area**

- Any bucket water features are terrifying for kids. Typically, younger kids enjoy splash pads and buckets limit their enjoyment.
- Again, the more varied and greater number of features, the longer it will hold their interest and accommodates more children.
- Maximize space. There are a lot of kids in the neighbourhood who play here and I would love it were a smidge bigger.
- More
- Larger
- Needs to be bigger - more spray options
- Too small - needs to be interesting and something the whole family can sit by and gather during the summer. Something challenging that all kids can play, if you a regular user of a splash pad its hard when older kids 'take over' all the features so by having more sprays and jets all kids have a chance to play!
- spray jets on floor are used inappropriately, more buckets & waterfalls
- Need it to be bigger
- Current water play area is a good size but it could use more water options. Can the new water play area be enhanced with more features so that the kids have more options to run around and play in?
- Can you add a stem table with flowing water?
- A larger footprint with more engaging sprinkles would be a nice addition.
- We like how the current water play area has timed starry/finish of different features. Would be great if that could work in the new structure.
- A bit larger
- I feel like the water play area should be bigger and better and have more options for kids to sit and play in the water as well as stand and enjoy
- I think if you were to do a bucket get a bit of a bigger bucket or a few more. I find kids love those especially my son!
- I'm not entirely sure based on those images, but the new proposed splash pads look tiny in comparison to the space that is actually available.
- Again, accessibility
- Larger size with a wading pool option

## Accessibility

- More
- This is not accessible. It's excluding anyone who uses a mobility device. Please engage actually disabled people to ensure accessibility

## Other

- We need a enclosed area for dogs. There are so many dogs in the neighbourhood and they deserve to have a enclosed area for them.
- The renderings are a horrible quality. It was difficult to make suggestions with horrible renderings
- Natural turf please use real grass!!!! Turf is terrible I will be extremely disappointed if turf is used it's not accessible nor is it good for the environment, and when it rains people tend to slip and fall so it's not good for seniors or activities unless it's covered, so ask why are we doing it?
- The skating rink. I would prefer if there was covering above the hockey rink for when it rains take example from Greenwood skating rink
- I think we should consider a skatepark component that can be built in the extremely large parking lot area.
- Dog park 🐕
- What plans are there to include an Indigenous perspective? Art, music, dance, language?
- Dog park needed - there is high demand
- Ice rink situation hockey area removed. Have just open area for family to skate
- I noticed the #7 storage box is very near to houses (as well as some resting areas). I worry that will be very noisy and people loitering after hrs.
- Would love to see basketball nets
- The playground and splash pad area is so small given how big the park is. Can it be made larger? What about washrooms? And do we get a sand play area as well?
- Dog off leash area. There a many dogs living in the area
- Lighting? would also be nice to see a roller play area (roller skates/ramps etc).
- Dog park fenced
- Trek fit station
- Renovate and improve existing bathrooms near water play area.
- Add a skate park... Stan wadlow is to far for young kids to go alone
- Off-leash dog park!
- You totally disregarded the need for safe running space for dogs and dog owners. Many dog owners use the soccer field as an off leash area for their pets, which is technically illegal. There are numerous tracks in the area at the neighbouring schools where people can run, but not a safe space for pets. I am disgusted by the lack of foresight and the disregard that dogs play in getting people outdoors, physically active and overall mental health wellbeing
- Can there be green bins for the dogs that roll through? Also why can't there be a small dog area in the back fence ball stop area?
- There are too few dog parks in the area and part of the flexible play field abutting the ice rink would be an ideal location for a small off leash dog area.
- I would love an emphasis on less police presence in the park, parking lot, and the general area. Many residents may have positive associations with parks, but few have positive associations with police -- their constant presence in the parking lot of the park is a big deterrent for my family and many of my friends and their families in the neighbourhood.
- A dog park would be great. Very little options locally.

- I would like to suggest that as much shelter that can be built for shade the better. Playgrounds and water play areas are often way too hot for kids to play and for adults to supervise.
- There needs to be a dog park. There are no dog parks north of the Danforth between and and Stan Wadlow Park, which is east of Woodbine.
- Disappointed there is nothing on First Nations culture (except maybe the turtle splash pad?) it would be easy to add a sign acknowledging the land we are on. Or give the name of the various trees in the park both in English and in Mississauga, Ojibway, Chippewa, Haudenosaunee and/or Wendat
- I think there needs to be a space for dog owners because they often take over the park with their dogs off leash with so many children in the park. One of my children has almost been bit.
- I love the concrete trail for rollerskating, as long as it stays I'm happy :)
- Stroller parking is not necessary. I'm a mom of 3 I put my stroller wherever it's close to me and my children. The designated area is unrealistic for families. It's not like we're Parking the stroller to go inside. Also how much do adults actually use outdoor exercise machines? Is it worth the investment?
- Seating.. there is currently or in your plan addition seating closer to the kids park and splash pad area. This is where most parents congregate to watch their children. Also more trees/shade is required on the east side of the field that lines the path.
- play area for dogs
- Updates washrooms please if possible
- Older kids in the area (e.g., ages 8-12) love it too. So make it tall and exciting for all ages. The bucket idea is great!!
- Improved bathrooms open to public.
- There should not be an off leash dog area.
- More green spaces and native flowers
- Please keep the trees or plants more. It's really important to have shaded areas in parks or else no one goes to them.
- Dog enclosure. We really need have a design that allows for a dog enclosure.
- Please send survey out again with better renderings
- No turf!
- I would like the hockey rink to be covered in case it rains I would also like stone rectangular benches at the rink path.
- I think we should consider adding a small skatepark in the very large parking area.
- I wpuld like to see a dog park with shady sitting area
- I think there's a opportunity for exploration in nature with a garden or wildness area to promote outdoor learning
- Dog park needed
- Hockey rink is problematic at best not much of family skate area and small children may get hurt more and hockey skaters end up bullying when they can't get on the rink
- Thank you for this great initiative. Looks amazing.
- Looks great. Would love to see basketball nets
- Need sand play area the whole play area needs to be larger more seating more shade and better maintenance.
- Off leash dog area. There are many do's living in the neighborhood
- Looks fun! It should have some lights built in, drinking/water bottle fountain, tiered perimeter seating
- Fenced dog park
- Fitness station for outdoor work outs.
- Please consider renovating and improving the existing bathrooms near the water play area.

- Add a skate park
- None

## Appendix B: Demographics

How many people of each age group participated in this survey?

N 276

Total responses per age group include:

- 139 respondents age 0 to 4 years old
- 149 respondents age 5 to 12 years old
- 56 respondents age 13 to 18 years old
- 69 respondents age 19 to 29 years old
- 200 respondents age 30 to 39 years old
- 124 respondents age 40 to 55 years old
- 32 respondents age 56 to 64 years old
- 20 respondents age 65 to 74 years old
- 9 respondents age 75 years old or above

Gender identity is the gender that people identify with or how they perceive themselves, which may be different from their birth-assigned sex. What best describes your gender?

N 272

Indigenous people from Canada identify as First Nations (status, non-status, treaty or non-treaty), Inuit, Métis, Aboriginal, Native or Indian. Do you identify as Indigenous to Canada?

N 272

Disability is understood as any physical, mental, developmental, cognitive, learning, communication, sight, hearing or functional limitation that, in interaction with a barrier, hinders a person's full and equal participation in society. A disability can be permanent, temporary or episodic, and visible or invisible. Does anyone participating in this survey identify as a person with a disability?

N 274

What best describes your current housing situation?

	Count	% of responses	%
Home owner	197	<div></div>	72%
Renting	43	<div></div>	16%
Permanently living with parent(s) or other family member(s)	22	<div></div>	8%
Temporarily staying with others (no fixed address)	2	<div></div>	1%
Unhoused (staying outside, in a shelter, in a 24-hour respite)	0

## Appendix C: Family Play Zone Features and Park Improvement Plan

### Family Play Zone

The two images below showcase the new family play zone proposal. Each of the features labeled in the images is described in the text that follows.

## PROPOSED IMPROVEMENTS

The new family play zone is proposed to include two main areas:

- A. **Upgraded Waterplay Area:** new water play equipment and concrete paving
- B. **Upgraded Destination Playground with Rubber Play Surface:** new playground equipment in rubber play surface.

In addition to the upgraded water play area and playground, key features proposed for the new family play zone include:

1. **New Umbrella Lounge Area:** gathering area adjacent to the waterplay area with tables, accessible seating and umbrellas to provide shade.
2. **Upgraded Sand Play Area with Water Stump:** playground area with sand surface and a water spigot to allow play with sand and water.
3. **Ornamental Grass and Shrub Planting:** drought tolerant, native planting to provide seasonal interest.
4. **New Bench Seating:** seating with back rest and armrests adjacent to waterplay and playground areas.
5. **Stroller Parking:** a dedicated spot to leave strollers or wagons while playing.

6. **Decorative Fence:** low ornamental fence to define play area and separate play space from adjacent pathway and open field.
7. **Mural on Existing Park Building:** artwork painted on the face of the existing building as a backdrop to the family zone play area.
8. **New Pathway Tree Planting:** new tree planting along pathway to provide shade for playground and pathway.

## Accessibility

The new family play zone will be accessible. This means people of different abilities can play and have fun at the new playground. The upgrades will include:

- Providing firm, level, non-slip concrete deck for the waterplay area,
- Providing a firm, level rubber safety surface for the playground,
- Play equipment that offers a diversity in play experience for users of different ages and abilities,
- Proximity of play area to washroom and shady rest areas, and
- Designated stroller and wagon parking areas.

## Playground Design

There are four playground designs to choose from. All four designs:

- Are accessible. This means people of different abilities can play and have fun at the new playground.
- Have about the same number of play features like swings, slides, etc.
- Cost about the same amount.
- Include rubber surfacing under the playground structures.

### Playground Option 1

OPTION 1

Playground Option 1 includes:

- Steel frame swing set with 2 swings
- Steel frame senior play structure (5 to 12years)
  - Corkscrew slide (6 foot height)
  - Tree house themed shade roof
  - Animal tracks interpretive play panel
  - Faux wood plank ladder
  - Faux rock feature with den and climbing wall
  - High wire net
  - Accessible transfer station

- Steel frame junior play structure: (2 to 5years)
  - Double slide (3 foot height)
  - Rain sound panel toy
  - Mushroom stepper faux wood grain panels with handrail
  - Tree house themed shade roof
  - Pretend play counter
  - Accessible transfer station
- 1 spinner seat toy
- 1 riding horse toy
- 1 seesaw toy

### *Playground Option 2*

Playground Option 2 includes:

- Natural wood frame swing set with 2 swings
- Natural wood senior play structure (5 to 12 years)
  - Straight slide (6 foot height)
  - Fire pole
  - Ladder climber
  - Rope and log post entrance
  - Sling seats below platform
- Natural wood junior/ senior Log climbing structure (2 to 12 years):
  - "Stilt" balancing posts
  - "Notched" climbing/ balancing log posts
  - "Log jam" balancing logs
  - Climbing net

### *Playground Option 3*

Playground Option 3 includes:

- Natural wood frame swing set with 2 swings
- Natural wood junior play structure (2 to 5 years)
  - 2 towers connected with bridge
  - 3 foot slide
  - Balancing beam
  - Pretend play steering wheel panel
  - Hut themed shade roof
  - Accessible transfer station
- Natural wood senior play structure (5 to 12 years)
  - Pretend play counter
  - Turning bar
  - Banister bars
  - Climbing wall
  - Straight slide (5 foot height)
  - 3 sided shade roof
  - Accessible transfer station
- Senior net climbing structure (5 to 12 years)
  - Balancing ropes
  - Rope and pole ladder
  - Vertical net
- 1 spinning toy
- 1 bee spring toy
- 1 snail spring toy

#### *Playground Option 4*

OPTION 4

Playground Option 4 includes:

- Tree themed steel Swing set with 2 swings
- Steel Frame Senior play structure (5 to 12 years)
  - Spiral slide (6 foot height)
  - Curved slide (5 foot height)
  - Faux rock climbing wall
  - Chinning bars
  - Therapeutic rings
  - Fun seat below
  - Climbing timbers
  - Timber themed shade roof
  - Faux Log themed steps
  - Accessible transfer station
- Junior net climbing structure (2 to 5 years)
- Rocking egg seat toy

- Animal race panel toy
- 2 leaf stepping toys

## Water Play

There are three water play area design options to choose from. All three designs:

- Are accessible. This means people of different abilities can play and have fun at the new water play area.
- Have about the same number of play features like water jets, dumping buckets, etc.
- Cost about the same amount.
- Include concrete surfacing under the water play area. (note that rubber surfacing will not be used in the water play area because it is more slippery when wet)

### Water Play Option 1

Water Play design option 1 includes:

- Bamboo flower waterfall
- Post with side spray
- 3 water-arch spray jets
- 2 vertical jet sprays
- 1 button on a small stand that users can press to turn the water features on

## Water Play Option 2

OPTION 2

Water Play design option 2 includes:

- Walk through loop
- Dumping bucket
- Aqua sphere
- 6 water-arch spray jets
- 1 button on a small stand that users can press to turn the water features on

## Water Play Option 3

OPTION 3

Water Play design option 3 includes:

- Sea turtle with buckets
- Daisy post
- 4 water-arch spray jets
- 4 vertical jet sprays
- 1 button on a small stand that users can press to turn the water features on

## Park Improvement Plan

The Park Improvement Plan is used to guide future park improvements. This plan is not currently funded, but helps plan for what park improvements will take place as funding becomes available.

The Improvement Plan will not include the removal or relocation of any existing recreational spaces.

The design for Park Improvement Plan will include upgrades to improve accessibility within the park by building paved connections to new and existing amenities that are:

- Firm with a level surface,
- Wide enough to allow individuals to pass one another, and
- Include seating and rest areas along the route.

The two images below showcase the proposed park improvement plan. Each of the features labeled in the images are described in the text that follows.

# PROPOSED IMPROVEMENTS

The proposed Park Improvement Plan includes:

1. **Flexible Play Lawn:** natural turf open field intended for drop-in games, picnicking or fitness.
2. **Covered Dug Out:** small shade structure intended to provide shelter for spectators adjacent to the existing senior soccer field.
3. **Backstop Fence:** new fence intended to prevent balls from the existing senior soccer field traveling outside the limits of the play area.
4. **Buffer Planting:** coniferous tree planting to buffer between proposed amenities and neighboring residential properties.
5. **Outdoor Fitness Equipment:** exercise equipment stations located around a paved exercise loop trail.
6. **Exercise Loop with Pavement Marking:** circuit pathway with painted lanes and indication of distance intended for walking, running, scooter or learn to bike.
7. **Shade Structure with Ping Pong Terrace:** small concrete paved gathering area set amongst new tree planting. Paved terrace with ping pong table and steel frame pavilion to shade for picnic table seating.
8. **Informal Seating Area Under Tree Shade:** small gathering area with stone block seating under the shade of new tree planting.
