Bathurst Manor Neighbourhood Mobility Plan (NMP)

The Bathurst Manor Neighbourhood Mobility Plan (NMP) will identify, prioritize and recommend short, medium, and long-term improvements to traffic operations and road design to support safety for all modes of transportation, including pedestrians, cyclists, and drivers. The City of Toronto is inviting residents to learn more about the Bathurst Manor NMP and provide feedback on the traffic, speeding and road safety improvements.

The Bathurst Manor NMP will address three areas of concern:

1. Road safety for vulnerable road users (e.g. seniors, school children, people walking and cycling)
2. Excessive speeding
3. Cut-through traffic from outside the neighbourhood

Study Area

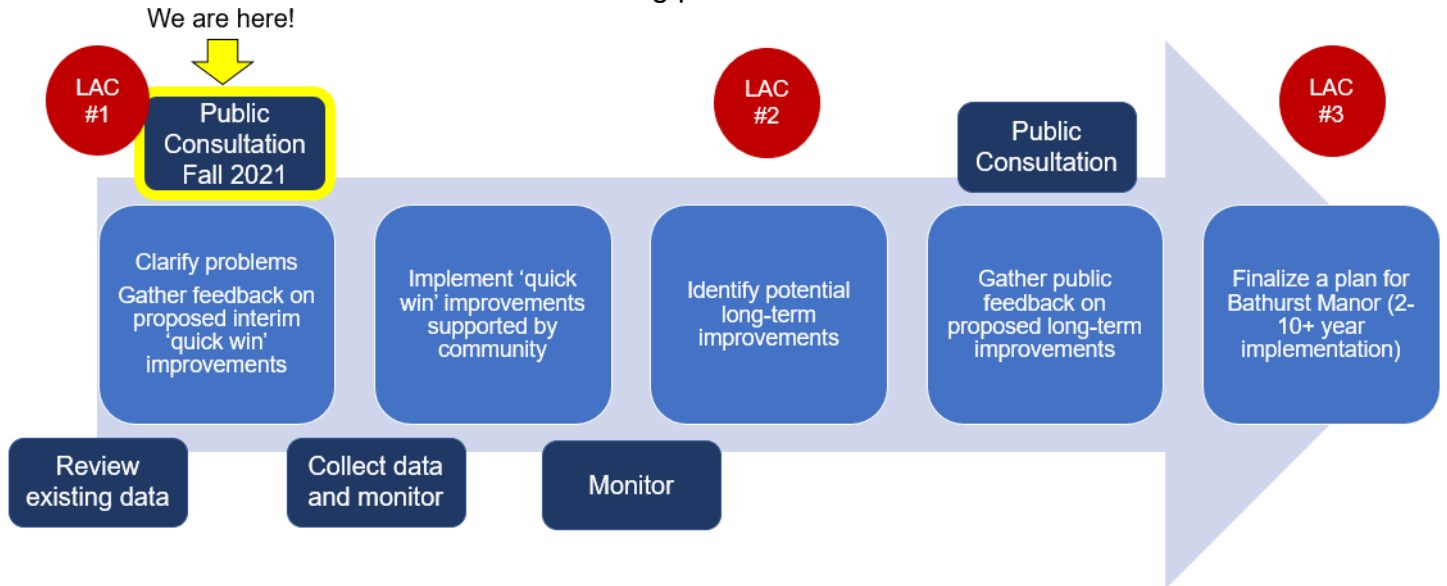

What is a Neighbourhood Mobility Plan (NMP)?

In 2019 North York Community Council directed City staff to work with the community to develop a comprehensive plan to address community concerns. City staff will use a holistic approach to assess and manage traffic issues within the neighbourhood. The NMP will consider all modes of transportation, with an emphasis on improving conditions for vulnerable road users.

Historically, traffic management issues have been addressed by making changes to a particular street or intersection. Instead of making one specific change, a NMP employs a broader, neighbourhood perspective to develop integrated solutions that, together, support local objectives for mobility. Through an NMP approach, the City works with local communities and neighbourhoods to identify short-term improvements that can be implemented in one to five years, as well as a longer-term vision for projects 5+ years into the future.

Study Process

The Bathurst Manor NMP will use the following process:

LAC = Local Advisory Committee

The participation of local residents and stakeholders is essential to identifying appropriate and effective traffic, speeding and road safety improvements for the neighbourhood.

Following the Virtual Public Meeting, the NMP process will continue, which involves identifying and implementing 'quick win' improvements supported by the community. Long-term improvements will be proposed at a second public meeting for feedback. Once completed, a final Bathurst Manor plan (2-10+ year implementation) will be shared on the project web page, toronto.ca/BathurstManor.

Upcoming Virtual Public Meeting

We invite you to the first public meeting to learn more about the Bathurst Manor NMP) and share your feedback on work completed to date, which includes the first step listed above. At the virtual public meeting, staff will present the project and provide an opportunity to ask questions and provide feedback. A copy of the presentation will be available online.

Attend the Virtual Public Meeting
Wednesday, November 17, 2021
6:00 pm - 8:00 pm

Provide your feedback by
Wednesday, December 1, 2021
Online, by email or by phone (see below)

Join the Virtual Public Meeting by computer, phone or tablet:

- Register at toronto.ca/BathurstManor

Join the Virtual Public Meeting by phone (audio only):

- Dial **416-915-6530**
- Access Code: 2462 641 6858
- Phone line will open 5 minutes before the start of the meeting.

Visit the virtual map at Toronto.ca/BathurstManor :

- Learn more about the Bathurst Manor NMP
- Provide comments and feedback directly on the map
