

EMERGENCY REPAIR WORK Lindylou Park Storm and Sanitary Sewers

Expected Start Date: October 25, 2021
Expected End Date for Repair*: December 2021
Expected End Date for Restoration*: Spring 2022
**Timeline is subject to change. Future notice to be provided*

The City of Toronto is planning to undergo emergency repair work on storm and sanitary sewers located in Lindylou Park. The storm and sanitary sewers have structural damage and repairs are required to protect the infrastructure from possible failure. The City's contractor will replace the damaged portion of the sewer as well as carry out additional repairs to further protect the storm and sanitary sewers.

The storm and sanitary sewers are located in Lindylou Park. The closest intersection is Weston Road and Lanyard Road, with the project location west of Lindylou Road, east of the Lindylou Park Trail, and north of Lanyard Road.

For pedestrian safety during construction, portions of Lindylou Park and the walking path/trail will be partially closed at times during the completion of this work.

A map of the work area can be found on page 2 of this notice.

COVID-19 AND INFRASTRUCTURE WORK IN TORONTO

At this time, the Province of Ontario has permitted municipal construction to continue to ensure safe and reliable operations and/or provide new capacity in municipal infrastructure. The sewer maintenance work is essential to ensure the City's infrastructure remains safe, in a state of good repair and is able to meet Toronto's needs. During construction, the contractor is responsible for all aspects of health and safety on site, as specified under Ontario's Occupational Health and Safety Act (OHS), which includes implementing COVID-19 mitigation practices. For more information on the City's response to COVID-19, please visit toronto.ca/covid-19.

City of Toronto contractors must adhere to guidelines issued by public health authorities, e.g. physical distancing, and the Province of Ontario, to help stop the spread of COVID-19. For more information on these guidelines, please visit: ontario.ca/page/construction-site-health-and-safety-during-covid-19.

WORK DETAILS

In order to complete the emergency repair work, crews will:

- Close a portion of Lindylou Park where the work is to be undertaken. This closure is required for pedestrian safety during construction.
- The Lindylou Park Trail will generally remain open, but there may be short-term closures at times during construction to allow for construction equipment to enter or leave the construction site.
- Excavate within the Area of Damage (see map on page 2) in the park to remove existing storm and sanitary sewers.
- Install new storm and sanitary sewers while bypassing sewage flows into southern sanitary sewer on Lindylou Road.
- Remove equipment and material at the site prior to restoration.
- Restore the surrounding trees and vegetation upon completion of work. All work will be done according to seasonal planting guidelines and is being carried out in consultation with Toronto and Region Conservation Authority (TRCA), the City of Toronto's Parks, Forestry and Recreation division and the Ministry of the Environment, Conservation and Parks (MECP).

WHAT TO EXPECT BEFORE CONSTRUCTION

	<p>Work Hours: Work will be completed in accordance with the City’s Noise By-law predominantly between 7:00 a.m. to 7:00 p.m. Monday to Friday and 9:00 a.m. to 7:00 p.m. on Saturday, but also with work after hours, on Sunday, and occasionally on a 24/7 basis.</p>
	<p>Pedestrian Access: To complete the work safely, pedestrian restrictions will occur. Portions of Lindylou Park as well as the walking path/trail will be partially closed at times during the work to protect the public.</p>
