## Watermain Cleaning and Relining in Beaumont Park from Beaumont Road to the Beltline Trail

**Contract: 18TW-CTS-04CWD**

**Start Date: November 2021**

**End Date: January 2022**

*\*Timeline is subject to change.*

The City of Toronto will be cleaning and structurally relining the watermain in your area starting in November 2021. The work will take place in Beaumont Park from Beaumont Road to the Beltline Trail. Pedestrian trail access to the park will be maintained throughout the construction period.

**A map of the work area can be found on page 3 of this notice. This work is happening in your neighbourhood, but is not expected to have any direct service impacts to your property.**

This project is part of the Council-approved Capital Works Program to renew Toronto's aging infrastructure, improve water distribution and reduce the risk of watermain breaks.

### COVID-19 and Construction Work in Toronto

At this time, the Province of Ontario has allowed municipal construction to continue to ensure safe and reliable operations and/or provide new capacity in municipal infrastructure. The watermain relining work is essential to ensure the City's infrastructure remains safe, in a state of good repair and is able to meet Toronto's needs. During construction, the contractor is responsible for all aspects of health and safety on-site, as specified under Ontario's Occupational Health and Safety Act (OHSA), which includes implementing COVID-19 mitigation practices. For more information on the City's response to COVID-19, please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

### WORK DETAILS

In the first few weeks, the City's contractor will move equipment on-site and prepare the work area before construction begins. Construction crews will then:

- excavate pits in the road to access the watermain on Beaumont Road and on/just off the trail path in the ravine. Both sites will be made safe for the public.
- clean and structurally re-line the existing watermain;
- restore all work areas with asphalt, concrete or grass.

### WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.

	<p><b>Work Hours:</b> Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required. Night work may be required as part of this project. You will be notified in advance of any changes to work hours.</p>
	<p><b>Physical Distancing:</b> There are times when contractors may need to communicate with property owners about what is happening on-site. Please practice physical distancing with all workers on-site and wear a mask if you need to speak with someone so everyone remains safe. If you have questions, please contact the Field Ambassador</p>

	<p><b>Restoration:</b> The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October). Permanent restoration of the curb and sidewalk will take place within 18 to 24 months.</p>
	<p><b>Road and Sidewalk Access:</b> To safely complete the work, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p>
	<p><b>Traffic Management:</b> Efforts have been made to manage traffic in the area for the safety of workers, road users and pedestrians. Road users should expect delays and increased traffic on nearby main and side streets.</p>
	<p><b>Parking:</b> Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at <b>416-808-2222</b>.</p> <p>In the event you receive a parking violation notice for on-street parking during this period of construction, you may choose to dispute your ticket following the process listed on the reverse side of the parking infraction notice. Violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e. in front of a fire hydrant or in a no parking zone). <b>You may use this notice as part of your defence for parking consideration during construction; however, the Project Manager/Field Ambassador does not have the authority to cancel any parking tickets.</b></p>
	<p><b>Garbage &amp; Recycling:</b> Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <b>Please ensure that you label your bins with your address.</b></p>
