

Notice of Public Consultation

Sheppard Avenue East and Willowdale Avenue

Cycling + Road Safety Improvements

The City of Toronto is planning cycling and road safety improvements for Sheppard Avenue East and Willowdale Avenue. The project is focused on improving the transportation experience for people walking, cycling, taking transit and driving, while supporting the social and economic benefits of the City's road safety and climate targets.

Safety Improvements and Proposed Changes

- New cycle tracks (protected bicycle lanes), are proposed along Sheppard Avenue between Bonnington Place and Leslie Street
- Two vehicle travel lanes in each direction along Sheppard Avenue will be maintained
- Crossings for people walking and cycling will be improved
- Dedicated left-turn lanes will remain at signalized intersections
- Lay-by parking along Sheppard Avenue will be reduced in some locations
- Extension of the Willowdale Avenue cycle tracks is proposed from Empress Avenue to Sheppard Avenue
- On-street parking and stopping along Willowdale Avenue is proposed to be prohibited

Where possible, improvements will also include:

- Enhanced accessibility at TTC stops
- Widened sidewalks
- Enhanced storm water management, green infrastructure and landscaping
- Dedicated left-turn lanes mid-block and at unsignalized intersections will be maintained, where possible. Depending on the public feedback and the detailed design, some may require removal.

Get Involved

Virtual Public Meeting #1

Tuesday December 7, 2021

6:00 p.m. – 8:00 p.m.

A Virtual Public Meeting including a presentation and opportunity to ask questions.

Online event registration is recommended.

Visit toronto.ca/SheppardAvenueEast to register.

Call **416-915-6530** 5 minutes before the meeting begins and enter access code **2453 247 7661** to participate without registration.

Public Feedback Deadline: December 22, 2021

Virtual Public Meeting #2

February 2022

Report to City Council

March 2022
