**Contract: 21ECS-TI-04SP**

The City of Toronto is planning to reconstruct the road, curb and sidewalks on Wellesley Street East from Sherbourne Street to Ontario Street. Our inspection of the road shows that it requires replacement of the asphalt surface as well as the concrete road base. The curb and sidewalk also need to be replaced to bring them to a state of good repair. The existing cycle track will be reinstalled with a concrete barrier after construction is complete. This project is part of the Council-approved 2022 Capital Works Program to renew aging City roads and sidewalk for current and future needs.
